INTRODUCTION

Page intentionally left blank.

FRESNO COUNTY-PART OF THE SAN JOAQUIN VALLEY

The San Joaquin Valley consists of the counties of San Joaquin, Stanislaus, Merced, Madera, Fresno, Tulare, Kings and Kern *(Exhibits 1 and 2).* These eight counties share an air quality basin that currently does not meet the air quality standards set forth in the Federal Clean Air Act or the California Clean Air Act. Currently, the eight Valley transportation planning agencies and the San Joaquin Valley Unified Air Pollution Control District have entered into a Memorandum of Understanding (MOU) to ensure a coordinated transportation/air quality planning approach. The MOU defines a cooperative process designed to achieve compliance with air quality conformity provisions of current legislation. A second MOU exists between the eight agencies to ensure a coordinated, cooperative transportation planning process on issues of mutual concern. One of the planning/ programming efforts being addressed in a cooperative effort is the preparation and presentation of the federally required Federal Transportation Improvement Program (FTIP).

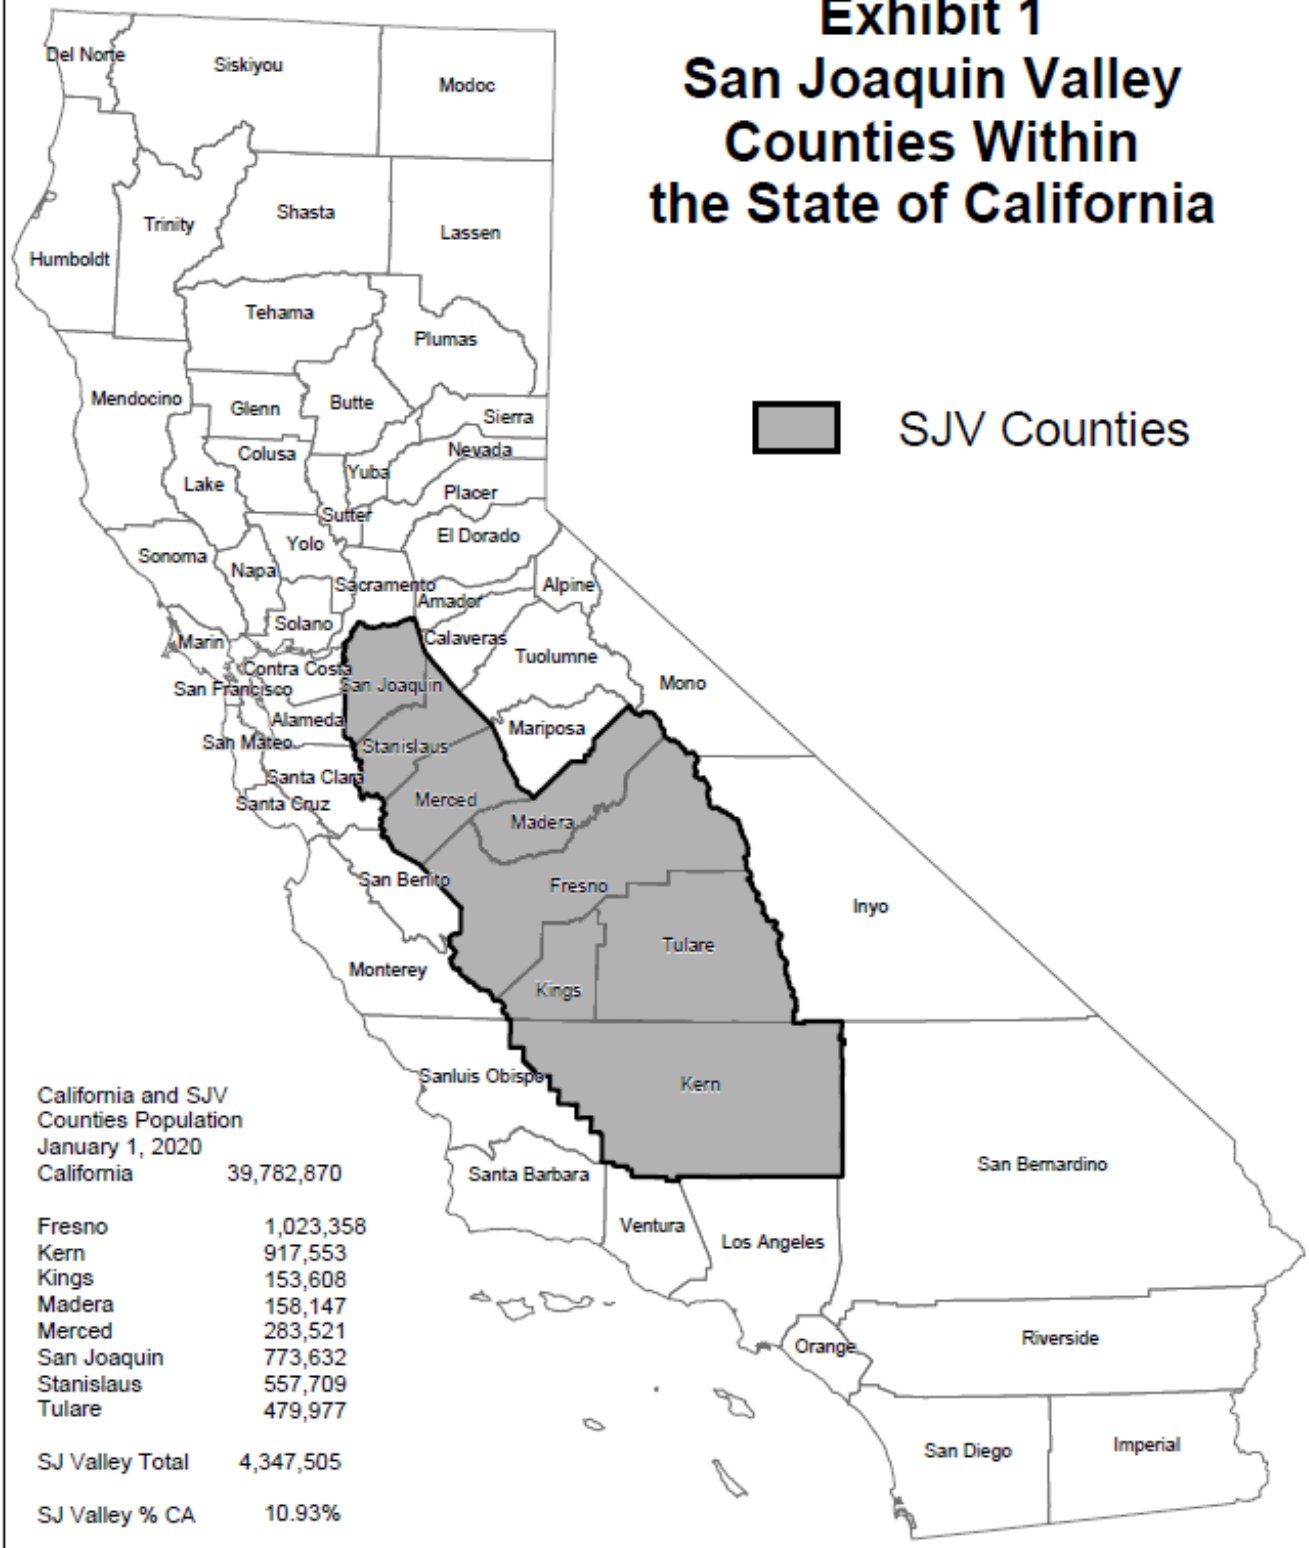

Fresno County is the second largest county in the San Joaquin Valley, encompassing approximately 6,000 square miles. As the nation's number one farm county, Fresno County has achieved over $6 billion dollars a year in commercial crop production. There are 15 incorporated cities and the county contains a federally recognized urbanized area, known as the Fresno-Clovis Metropolitan Area with a population in excess of 625,000 *(Exhibit 3)*.

FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM PRESENTATION

As a result of the MOU between the eight Valley transportation planning agencies, a committee was formed to coordinate the FTIP format. Reviewing agencies are able to see a consistent presentation of the FTIP with common sections among the eight agencies as well as certain map exhibits. This should provide for a more efficient and expedient review process for the San Joaquin Valley.

In an effort to make the FTIP more accessible to the public we are now using web based software which can be accessed from our webpage at www.fresnocog.org. The use of this software has allowed us to present individual project listings in greater detail. This web based user interface additionally provides a direct link between projects listed in the FTIP and Fresno County's Regional Transportation Plan (RTP).

THE FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM PROCESS AND DEVELOPMENT

Page intentionally left blank.

ABOUT THE FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM

The Federal Transportation Improvement Program (FTIP) is a federal requirement for Metropolitan Planning Organizations (MPOs) that was created in 1991. The 1991 Intermodal Surface Transportation Efficiency Act (ISTEA), The Transportation Equity Act for the 21st Century (TEA 21), the Safe, Accountable, Flexible, Efficient, Transportation Equity Act: A Legacy for Users (SAFETEA-LU) and its 3 extensions, Moving Ahead for Progress in the 21st Century (MAP-21), and the Fixing America's Surface Transportation (FAST) Act continue to require that each MPO prepare a FTIP. The FTIP is a financially constrained multimodal transportation planning program developed by the MPO through its member agencies and in cooperation with state and federal agencies. **The basic premise behind an FTIP is that it is the incremental implementation (four years) of the long-range RTP (24 years). The FTIP serves to present to federal funding agencies manageable components of funding the long-range plan.**

The FTIP is a compilation of project lists from the State Transportation Improvement Program (STIP), urbanized and non-urbanized areas, and other programs using federal funding (*Exhibit 4).* The FTIP is to be composed of two parts. The first is a priority list of projects and project segments to be carried out in a four year period. The second is a financial plan that demonstrates how the FTIP can be implemented. The financial plan is also required to indicate all public and private resources and financing techniques that are expected to be used to carry out the program. Federal legislation has further defined the FTIP process focusing on enhanced public and public agency participation.

FTIP PROCESS AND DEVELOPMENT

The Fresno Council of Governments (Fresno COG) prepares the FTIP in cooperation with its member agencies and transit operators, state and federal agencies, and with public involvement. As the federal funding programs under MPO control are developed, notifications are sent out to eligible agencies and the public, informing them of the appropriate manner in which projects may be submitted for consideration. The state is also required to carry out a public participation process during development and adoption of its programs. The state's programs, upon adoption, are then submitted for inclusion in the appropriate MPO FTIP.

In addition to the general notifications, Fresno COG has an enhanced participation process whereby citizen groups and individuals can seek membership on appropriate committees. An extensive agenda mailing list contains many interested parties who can review the available agendas and determine if there are any issues upon which they wish to interact with the agency. Additionally, there are the required public hearings prior to adoption of the FTIP in which the public can participate.

Environmental Justice Analysis

In response to Title VI and Environmental Justice requirements, an increased emphasis has been placed on outreaching to and soliciting input from historically underserved populations in Fresno County (i.e. low-income, minority, Native American Tribes, elderly, and disabled people). In 2016, the Fresno COG Policy Board adopted an updated version of the *Public Participation Plan (PPP)*, which includes enhanced approaches to outreach to Environmental Justice populations. The goal of the enhanced public participation process is to eliminate participation barriers and encourage minority and low-income populations to take an active part in transportation decision-making. This process is consistent with state and federal guidelines. Outreach and consultation practices with the Native American Tribes that reside in Fresno County include notification of agency actions and proposals. Tribal Governments are given the same courtesies and opportunities for participation and review as other governmental

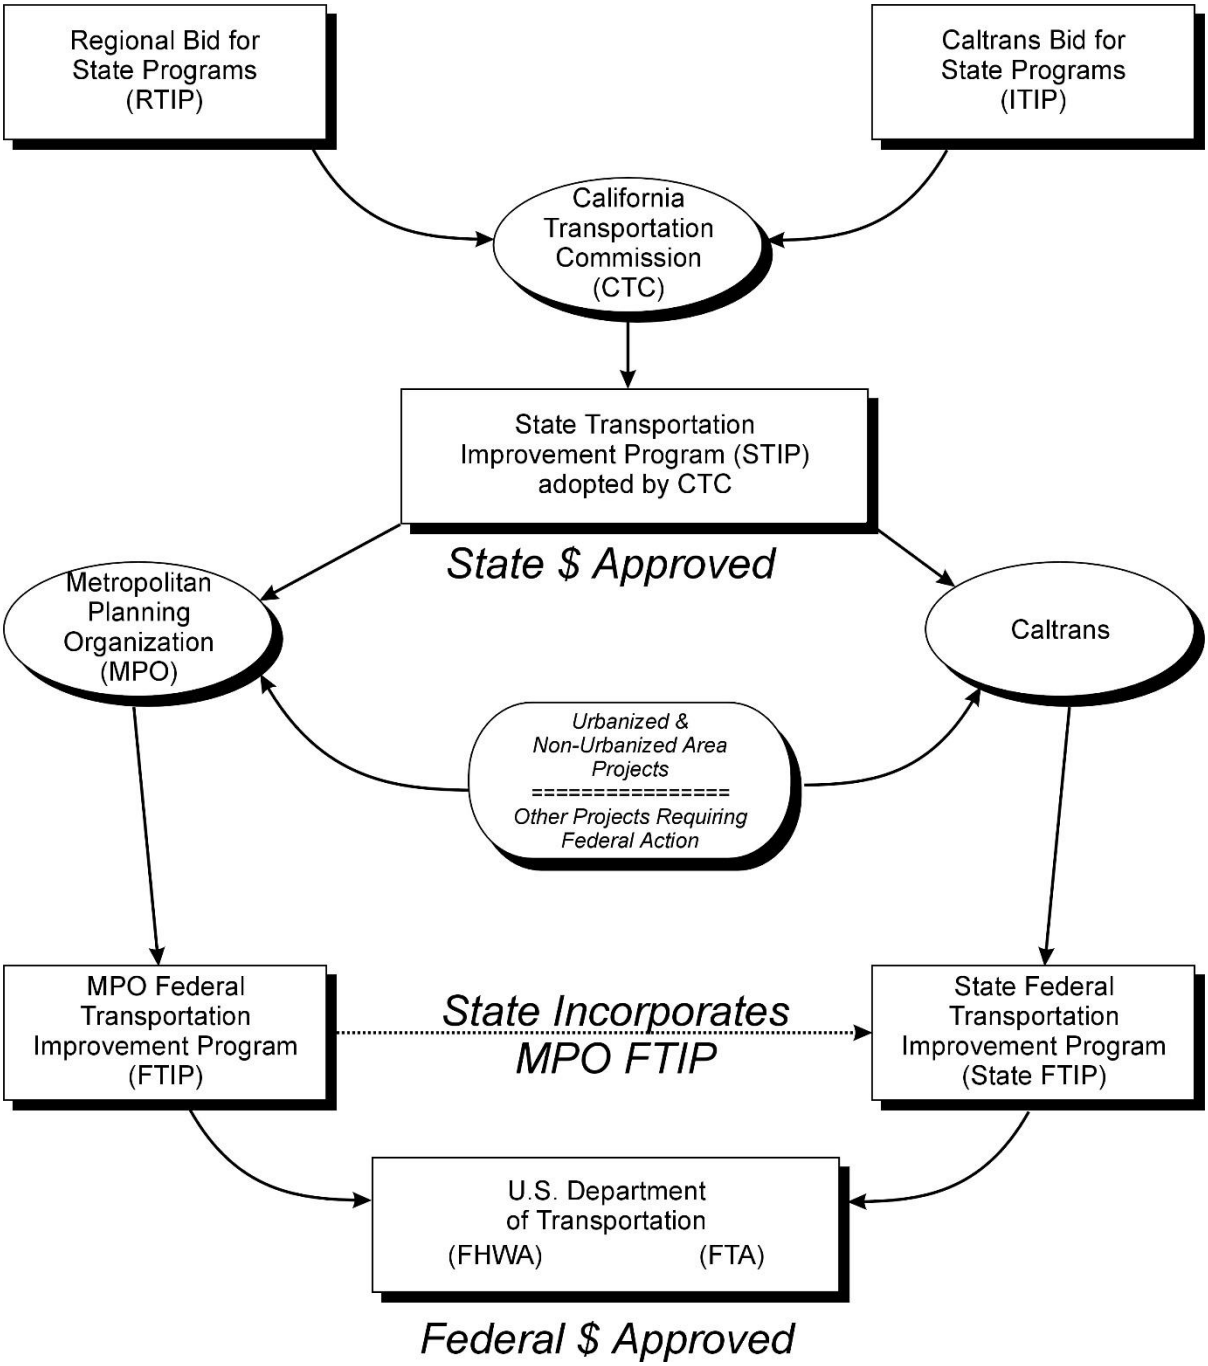

entities. Public participation and outreach for development of the 2021 FTIP is consistent with the requirements of the FAST Act and the PPP.

The process outlined allows for proper consultation of all affected agencies and for appropriate public input thereby meeting the FAST Act requirements for an appropriate project selection process.

Executive Order 12898 requires that each federal agency or agencies that receive federal dollars shall to the greatest extent possible administer and implement its programs, policies, and activities that affect human health or the environment so as to avoid disproportionately high and adverse effects on minority and low-income populations. To address this regulation, Fresno COG updated its 2014 Environmental Justice Analysis in 2018, which was incorporated into the 2018 RTP in Chapter 7 and is incorporated as Appendix L of this 2021 FTIP.

These and other federal and state-mandated FTIP requirements are described in the sections that follow as well as the consistency with other documents.

EXHIBIT 4
FTIP DEVELOPMENT PROCESS

CONSISTENCY WITH OTHER DOCUMENTS

Fresno COG's 2021 FTIP is consistent with the following documents:

- The 2018 RTP adopted by the Fresno COG Policy Board on July 26, 2018.
- The 2020 STIP.
- The existing State Implementation Plan (SIP) for Air Quality for the Fresno County area.

The 2021 FTIP is also consistent with County Share information as provided within the 2020 STIP Fund Estimate and also with federal fund estimates resulting from the passage of the FAST Act.

AIR QUALITY CONFORMITY ASSESMENT

Fresno County is a designated non-attainment area for ozone and PM2.5 and a maintenance area for PM10 and carbon monoxide. As such, it must satisfy federal requirements to consider transportation control measures to reduce emissions adequate to demonstrate conformity with the SIP for Air Quality. These control measures are set forth in plans, which in cumulative effect with other areas in California make up the SIP.

In nonattainment and maintenance areas, the Federal Highway Administration (FHWA) and Federal Transit Administration (FTA) must be able to find that the FTIP conforms to the adopted SIP and that priority has been given to timely implementation of the transportation control measures found in the SIP. The projects in the FTIP should also not further exacerbate the existing air quality problems.

Fresno COG provides a conformity determination documenting that local air quality planning issues and programs are sufficient to demonstrate that transportation control measures have been identified through a legitimate planning process; that these measures have received the necessary federal, state and local commitment to ensure implementation; and that these commitments are being maintained through identification in the Fresno County RTP and the necessary programming of funds in the FTIP.

The Conformity Determination is referenced in Appendix G. In brief, the 2021 FTIP has been found to be in conformance with the current applicable SIP for Air Quality.

TRANSPORTATION PERFORMANCE MANAGEMENT

Federal transportation bills Moving Ahead for Progress-21st Century (MAP-21) and Fixing America's Surface Transportation (FAST Act) require Metropolitan Planning Organizations (MPOs) to conduct performance based planning and focus on achieving performance outcomes. The Federal Highway Administration (FHWA) defines Transportation Performance Management (TPM) as a strategic approach that uses system information to make investment and policy decisions to achieve national performance goals. The Regional Transportation Plans shall include the performance measures and targets as well as a description of progress made towards the targets. In addition, the Federal Transportation Improvement Program shall provide a description on how investment in the FTIP will contribute towards achieving the transportation performance targets set in the RTP. A detailed analysis on how the FTIP addresses federal requirements for performance measures is included as Appendix N of the 2021 FTIP.

FINANCIAL PLAN

Page intentionally left blank.

THE FINANCIAL PLAN AND FINANCIAL CONSTRAINT

The FTIP, by law, must be financially constrained and include a financial plan demonstrating how the projects can be implemented while the existing transportation system is being adequately operated and maintained. Only projects for which construction and operation funds can reasonably be expected to be available may be included.

The charts of revenues on the following pages are intended to show currently available revenues to finance the projects contained within the FTIP; a demonstration of financial constraint. The federal and state revenue projections are based on the best available data as currently provided through the California Department of Transportation (Caltrans).

The programs adopted by the state in the State Transportation Improvement Program (Regional Choice, Interregional, etc.) are to be in line with the state's available revenue estimates, and the Fresno County FTIP is a reflection of the state assumptions.

For FAST Act funds that are made available to the MPO (STBG and CMAQ Programs), again the revenue estimates are currently provided by Caltrans. Fresno COG has utilized those estimates for this document.

The local fund commitments are reflected in each entity's local capital improvement program which is adopted annually by local resolution.

The Measure C funds reflected in the FTIP are drawn from the Measure C Expenditure Plan, which is a financially constrained document adopted by the Fresno County Transportation Authority. The Authority provides and updates any changes associated with incoming tax revenues. Adjustments are being carefully monitored to be representative of the current economy.

For the transit agencies, a financial capacity report is required to assure continued ability to operate; certification of the assessment is provided pursuant to Federal Transit Administration's Circular 7008.1. Because their grants are on an annualized grant cycle, projects shown beyond 2020-21 are "projections". As the amounts become known for each new year from the granting agencies, these years are formally amended into the FTIP consistent with the actual grants.

Chapter 4 of the 2018 Fresno County RTP provides a more detailed discussion of Financial Constraint and Planning, and that analysis provides the basis for forecasts and assumptions contained in this document. Fresno COG's FTIP is required to be consistent with its long range plan, the RTP.

PROJECT PRIORITY

In accordance with federal transportation legislation, Fresno COG establishes the following priority:

1. All project phases shown in the first year of the four-year element (2020-21) must be obligated by June or considered for reprogramming. This group shall have first priority.

2. All projects phases shown in the second year of the four-year element (2021-22) shall have second priority.

3. All project phases shown in the third year of the four-year element (2022-23) shall have third priority.

4. All project phases shown in the fourth year of the four-year element (2023-24) shall have fourth priority.

5. All projects shown outside the four year element may be advanced, via an approved FTIP Amendment, into the four year element as long as financial constraint is still maintained.

As a nonattainment area, Transportation Control Measure (TCM) projects for each year consistent with the approved SIP will be implemented in a timely fashion. A list of TCM projects can be found in Appendix K.

The prioritization of projects in the FTIP takes into consideration the planning factors identified in the FAST Act as well as the application of asset management principles and techniques.

Federal law requires Fresno COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Appendix M includes a detailed annual listing report of projects that are divided into the funding types administered by the FHWA and FTA. This report indicates that approximately $107 million in federal funds were obligated for transportation projects in the region between October 1, 2018 and September 30, 2019. The report also includes investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated.

TOTAL PROJECT COST

Per CFR 450.324(e) (2), Fresno COG has programmed all phases, and all costs, including (information only) years outside of the quadrennial period. This is done to show total project cost for every project. Unless otherwise noted in a "Comments" field, it can be assumed that the "Total Project Cost" field represents this total project cost amount.

YEAR OF EXPENDITURE

Per Title 23, Section 450.324(h), project costs in the Financial Summary are shown in year of expenditure dollars. This means that a project shown as $1 million in 2021 is expected to cost $1 million in that year, in inflated dollars. If a project's cost increases at the time of obligation, the agencies that control funding decisions must take a further action to approve increased funding amounts.

Fresno COG manages the CMAQ and STBG program funds. Applicants applying for use of these funds are required to account for an inflation rate in their delivery schedules that is consistent with both the five year California Consumer Price Index and the historical inflation rate of projects within District 6 delivered over the past 20 years as part of the Measure C program. Projects funded by local agencies and Measure C projects are also required to assume an appropriate inflation rate. For projects implemented and overseen by Caltrans, Fresno COG relies on the methodology used by the State of California. Expenditure rates for all transit related projects are fully described in the Fresno-Clovis Urbanized Area Short Range Transit Plan and Short Range Transit Plan for the Rural Fresno County Area.

SYSTEM PRESERVATION, OPERATION, AND MAINTENANCE COSTS

Per CFR 450.324(h), the financial plan must contain estimates of costs and revenue sources that are reasonably expected to be available to adequately operate and maintain Federal-aid highways and public transportation. Included in the programming of the FTIP are projects which address the issues of operation and maintenance of the system.

Appendix H provides a listing of anticipated expenditures and revenues as derived from California State Controller's Office Local Government Financial Data website at https://bythenumbers.sco.ca.gov: Streets and Roads Revenues and Expenditures links using FY 2018/2019 data. An estimated $736,953,316 will be cumulatively collected and spent on maintenance in the Fresno County Region between FFY 20/21 and FFY 23/24. Within the 2021 FTIP, the SHOPP program dedicates $358,168,000 of revenue to address maintenance on state managed roadways.

Transit operations and maintenance costs are projected in the Short Range Transit Plans of the Region. The three transit agencies project to cumulatively receive $319,431,607 in revenue and expend $305,732,455 on operations over the next four years. In the event of revenue shortfalls, sources such as the region's Surface Transportation Block Grant Program (STBGP), Congestion Mitigation Air Quality (CMAQ), and the use of toll credits can help with any funding gaps in the Fresno Region. STBGP and CMAQ funding apportionments, later described in this FTIP document, are programmed to system preservation, operation, improvement, and maintenance projects. Fresno County's local transportation measure (Measure C) can also alleviate any potential funding gaps.

BEFORE THE
FRESNO COUNCIL OF GOVERNMENTS POLICY BOARD
RESOLUTION NO. 2021-01

RESOLUTION ADOPTING THE FRESNO COUNCIL OF GOVERNMENTS 2021 FTIP, RTP AMENDMENT NO. 4, AND CONFORMITY ANALYSIS

WHEREAS, the Fresno Council of Governments is a Regional Transportation Planning Agency and a Metropolitan Planning Organization, pursuant to State and Federal designation; and

WHEREAS, federal planning regulations require Metropolitan Planning Organizations to prepare and adopt a long range Regional Transportation Plan (RTP) for their region; and

WHEREAS, a 2018 Regional Transportation Plan Amendment No. 4 (2018 RTP Amendment No. 4) has been prepared in full compliance with federal guidance; and

WHEREAS, a 2018 Regional Transportation Plan Amendment No. 4 has been prepared in accordance with state guidelines adopted by the California Transportation Commission; and

WHEREAS, federal planning regulations require that Metropolitan Planning Organizations prepare and adopt a short range Federal Transportation Improvement Program (FTIP) for their region; and

WHEREAS, the 2021 Federal Transportation Improvement Program (2021 FTIP) has been prepared to comply with Federal and State requirements for local projects and through a cooperative process between the Federal Highway Administration (FHWA), the Federal Transit Administration (FTA), the State Department of Transportation (Caltrans), principal elected officials of general purpose local governments and their staffs, and public owner operators of mass transportation services acting through the Fresno Council of Governments forum and general public involvement; and

WHEREAS, the 2021 FTIP program listing is consistent with: 1) the 2018 Regional Transportation Plan Amendment No. 4; 2) the 2020 State Transportation Improvement Program; and 3) the corresponding Conformity Analysis; and

WHEREAS, the 2021 FTIP contains the MPO's certification of the transportation planning process assuring that all federal requirements have been fulfilled; and

WHEREAS, the 2021 FTIP and 2018 RTP Amendment No. 4 meets all applicable transportation planning requirements per 23 CFR Part 450; and

WHEREAS, Fresno Council of Governments has integrated into its metropolitan transportation planning process, directly or by reference, the goals, objectives, performance measures, and targets described in other State transportation plans and transportation processes, as well as any plans developed under 49 U.S.C. Chapter 53 by providers of public transportation, required as part of a performance-based program; and

WHEREAS, projects submitted in the 2021 FTIP and 2018 RTP Amendment No. 4 must be financially constrained and the financial plan affirms that funding is available; and

WHEREAS, the MPO must demonstrate conformity per 40 CFR Part 93 for the RTP and FTIP; and

WHEREAS, the corresponding Conformity Analysis supports a finding that the 2021 FTIP and 2018 RTP Amendment No. 4 meet the air quality conformity requirements for ozone and particulate matter; and

WHEREAS, the 2021 FTIP and 2018 RTP Amendment No. 4 do not interfere with the timely implementation of the Transportation Control Measures; and

WHEREAS, the 2021 FTIP and 2018 RTP Amendment No. 4 conform to the applicable SIPs; and

WHEREAS, the documents have been widely circulated and reviewed by Fresno Council of Governments advisory committees representing the technical and management staffs of the member agencies; representatives of other governmental agencies, including State and Federal; representatives of special interest groups; representatives of the private business sector; and residents of Fresno County consistent with public participation process adopted by Fresno Council of Governments; and

WHEREAS, a public hearing was conducted on December 16, 2020 to hear and consider comments on the 2021 FTIP, 2018 RTP Amendment No. 4, and corresponding Conformity Analysis**;**

NOW, THEREFORE, BE IT RESOLVED, that Fresno Council of Governments adopts the 2021 FTIP Amendment, 2018 RTP Amendment No. 4, and corresponding Conformity Analysis.

BE IT FURTHER RESOLVED, that the Fresno Council of Governments finds that 2021 FTIP and 2018 RTP Amendment No. 4 are in conformity with the requirements of the Federal Clean Air Act Amendments and applicable State Implementation Plans for air quality.

THE FOREGOING RESOLUTION was passed and adopted by Fresno Council of Governments this 28th day of January 2021.

AYES: Clovis, Coalinga, Firebaugh, Fowler, Fresno City, Huron, Kerman, Kingsburg, Orange Cove, Parlier, Reedley, Sanger, San Joaquin, Selma

EPA AIR QUALITY EXEMPT PROJECT CODES

1.00 SAFETY PROGRAMS

1.01 Railroad/highway crossing
1.02 Hazard Elimination Program
1.03 Safer non-Federal-aid system roads
1.04 Shoulder improvements
1.05 Increasing sight distance
1.06 Safety Improvement Program
1.07 Traffic control devices and operating assistance other than signalization projects
1.08 Railroad/highway crossing warning devices
1.09 Guardrails, median barriers, crash cushions
1.10 Pavement resurfacing and/or rehabilitation
1.11 Pavement marking demonstration
1.12 Emergency Relief (23 U.S.C. 125)
1.13 Fencing
1.14 Skid treatments
1.15 Safety roadside rest areas
1.16 Adding medians
1.17 Truck climbing lanes outside the urbanized area
1.18 Lighting improvements
1.19 Widening narrow pavements or reconstructing bridges (no additional travel lanes)
1.20 Emergency truck pullovers

2.00 MASS TRANSIT

2.01 Operating assistance to transit agencies
2.02 Purchase of support vehicles
2.03 Rehabilitation of transit vehicles
2.04 Purchase of office, shop, and operating equipment for existing facilities
2.05 Purchase of operating equipment for vehicles (e.g. radios, Fareboxes, lifts, etc.)
2.06 Construction or renovation of power, signal, and communications systems
2.07 Construction of small passenger shelters and information kiosks
2.08 Reconstruction or renovation of transit buildings and structures
2.09 Rehabilitation or reconstruction of track structures, track, and trackbed in existing right-of-way
2.10 Purchase of new buses and rail cars to replace existing vehicles or for minor expansions of fleet
2.11 Construction of new bus, rail storage/maintenance facilities categorically excluded (23 CFR 771)

3.00 AIR QUALITY

3.01 Continuation of ride-sharing and van-pooling promotion activities at current levels
3.02 Bicycle and pedestrian facilities

4.00 LANDSCAPING/SIGNS

4.01 Specific activities which do not involve or lead directly to construction
4.02 Grants for training and research
4.03 Planning activities conducted pursuant to titles 23 and 49 U.S.C.
4.04 Federal Aid systems revisions

4.05 Engineering to assess social, economic, and environmental effects of the proposed action or alternatives to that action
4.06 Noise attenuation
4.07 Emergency or hardship advance land acquisitions [23 CFR 712.204(d)]
4.08 Acquisition of scenic easements
4.09 Plantings, landscape, etc.
4.10 Sign removal
4.11 Directional and informational signs
4.12 Transportation enhancement activities (excepting rehabilitation and operation of historic transportation buildings, structures, or facilities)
4.13 Repair of damage caused by natural disasters, civil unrest, or terrorist acts, except projects involving substantial functional, locational or capacity

5.00 OTHER

5.01 Intersection channelization projects
5.02 Intersection signalization projects and individual intersections
5.03 Changes in vertical and horizontal alignment
5.04 Interchange reconfiguration projects
5.05 Truck size and weight inspection stations
5.06 Bus terminals and transfer points
5.07 Traffic signal synchronization projects

FEDERAL PROGRAMS

Better Utilizing Investments to Leverage Development

The Better Utilizing Investments to Leverage Development, or BUILD Transportation Discretionary Grant program, provides a unique opportunity for the DOT to invest in road, rail, transit and port projects that promise to achieve national objectives. Previously known as Transportation Investment Generating Economic Recovery, or TIGER Discretionary Grants, Congress has dedicated nearly $7.9 billion for eleven rounds of National Infrastructure Investments to fund projects that have a significant local or regional impact.

The eligibility requirements of BUILD allow project sponsors at the State and local levels to obtain funding for multi-modal, multi-jurisdictional projects that are more difficult to support through traditional DOT programs. BUILD can fund port and freight rail projects, for example, which play a critical role in our ability to move freight, but have limited sources of Federal funds. BUILD can provide capital funding directly to any public entity, including municipalities, counties, port authorities, tribal governments, MPOs, or others in contrast to traditional Federal programs which provide funding to very specific groups of applicants (mostly State DOTs and transit agencies). This flexibility allows BUILD and our traditional partners at the State and local levels to work directly with a host of entities that own, operate, and maintain much of our transportation infrastructure, but otherwise cannot turn to the Federal government for support.

Congestion Mitigation and Air Quality

The Congestion Mitigation and Air Quality (CMAQ) Improvement Program provides a flexible funding source to state and local governments for transportation projects and programs to help meet the requirements of the Federal Clean Air Act. Funding is available for areas that do not meet the National Ambient Air Quality Standards (non-attainment areas), as well as former non-attainment areas that are now in compliance (maintenance areas). Funds are distributed to states based on a formula that considers an area's population by county and the severity of its air quality problems within the non-attainment or maintenance area.

Under MAP-21, projects or programs eligible for CMAQ funding were those which would contribute to attainment of National Ambient Air Quality Standards for ozone and carbon monoxide. Under the FAST Act, this has been expanded to allow CMAQ funding to be expended in fine particulate matter (PM2.5) non-attainment and maintenance areas. In fact, PM2.5 nonattainment or maintenance areas must use a portion of its funds to address PM2.5 emissions in such areas. The FAST Act highlights diesel retrofits and port related equipment and vehicles as eligible projects to mitigate PM2.5.
Typical projects are:

- Public transit improvements
- High Occupancy Vehicle (HOV) lanes
- Employer-based transportation management plans and incentives
- Traffic flow improvement programs (signal coordination)
- Fringe parking facilities serving multiple occupancy vehicles
- Shared ride services
- Bicycle and pedestrian facilities
- Flexible work-hour programs
- Alternative fuel vehicles

High Priority Projects Program
A demonstration (demo) project is specifically established and funded by Congress through Federal law. Demo projects are generally provided as part of the periodic transportation authorization acts or the annual transportation appropriations acts. The designated funding can only be used for projects as described in the law; however, demo projects may be any type of transportation project depending on the particular emphasis put forth in the solicitation for projects.

Federal Transit Administration Section 5307 (Urbanized Area Formula Program)
This program provides financial operating and capital purchase assistance to operators of urban public transportation services. Funds are apportioned to urbanized areas with populations over 50,000 based on a formula using population and population density. Pursuant to the FAST Act, job access and reverse commute projects that are located in urbanized areas are now eligible for funding under this program.

Federal Transit Administration Section 5309 (Capital Investment Grants)
Under SAFETEA-LU, FTA New Starts Funds Capital Investment Program Section 5309 provided capital funding for new and replacement buses and facilities, modernization of existing rail systems, and new fixed guideway systems. Under the FAST Act, new and replacement buses and facilities are eligible under the new Section 5339 program. However, FAST Act's 5309 grant program still provides funding for new fixed guideways or extensions to fixed-guideways (projects that operate on a separate right-of-way exclusively for public transportation, bus rapid transit projects, and projects that improve capacity on an existing fixed-guideway system). These programs are allocated on a discretionary basis.

Federal Transit Administration Section 5310 (Enhanced Mobility of Seniors and Individuals with Disabilities)
This program provides funding to private non-profit corporations for capital expenses to support the provision of transportation services to meet the needs of elderly and disabled persons. Capital assistance is provided for up to 88.53% of the net project cost. Under the FAST Act, projects that were formerly eligible for funding under SAFETEA-LU's New Freedom, Section 5317 grant program are now eligible for Section 5310 funds.

Federal Transit Administration Section 5311 (Formula Grants for Rural Areas)
This program provides formula-based funding through the State to urban areas with a population fewer than 50,000. The funds are for capital and/or operating assistance. Job access and reverse commute projects, which are located in non-urbanized areas, are now eligible for these funds under the FAST Act. Capital assistance is provided for up to 88.53% of the net project cost. Operational assistance has a 50% federal participation ceiling.

Federal Transit Administration Section 5316 (Job Access and Reverse Commute Program)
Section 5316, the Job Access and Reverse Commute program (JARC), is a formula grant program that was established under SAFETEA-LU, and eliminated in FAST Act. Fresno COG still has remaining Section 5316 funds that are being spent during the 2017 FTIP's programming cycle. These projects include services that provide transportation for low income individuals and welfare recipients from urbanized areas to suburban employment opportunities.

Federal Transit Administration Section 5317 (New Freedom Program)
The New Freedom program, Section 5317, is a formula grant program that was established under SAFETEA-LU, and eliminated in MAP-21. Fresno COG still has remaining Section 5317 funds that are being spent during the 2017 FTIP's programming cycle. Section 5317 program provides funding for

transportation services primarily for seniors and the disabled, beyond existing public transportation and complementary ADA paratransit services.

Federal Transit Administration Section 5339 (Bus and Bus Facilities Program)
This program provides capital funding to replace, rehabilitate and purchase buses and related equipment and to construct bus-related facilities. Created under the FAST Act, this program replaces components of SAFETEA-LU's former Section 5309 Bus and Bus Facilities program.

National Highway Performance Program
The National Highway Performance Program (NHPP) provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS, and to ensure that investments of Federal-aid funds in highway construction are directed to support progress toward the achievement of performance targets established in a State's asset management plan for the NHS. NHPP projects must be on an eligible facility and support progress toward achievement of national performance goals for improving infrastructure condition, safety, mobility, or freight movement on the NHS, and be consistent with Metropolitan and Statewide planning requirements. Eligible activities include:

- Construction, reconstruction, resurfacing, restoration, rehabilitation, preservation, or operational improvements of NHS segments.
- Construction, replacement (including replacement with fill material), rehabilitation, preservation, and protection (including scour countermeasures, seismic retrofits, impact protection measures, security countermeasures, and protection against extreme events) of NHS bridges and tunnels.
- Bridge and tunnel inspection and evaluation on the NHS and inspection and evaluation of other NHS highway infrastructure assets.
- Training of bridge and tunnel inspectors.
- Construction, rehabilitation, or replacement of existing ferry boats and facilities, including approaches that connect road segments of the NHS.
- Construction, reconstruction, resurfacing, restoration, rehabilitation, and preservation of, and operational improvements for, a Federal-aid highway not on the NHS, and construction of a transit project eligible for assistance under chapter 53 of title 49, if the project is in the same corridor and in proximity to a fully access-controlled NHS route, if the improvement is more cost-effective (as determined by a benefit-cost analysis) than an NHS improvement, and will reduce delays or produce travel time savings on the NHS route and improve regional traffic flow.
- Bicycle transportation and pedestrian walkways.
- Highway safety improvements on the NHS.
- Capital and operating costs for traffic and traveler information, monitoring, management, and control facilities and programs.
- Development and implementation of a State Asset Management Plan for the NHS including data collection, maintenance and integration, software costs, and equipment costs.
- Infrastructure-based ITS capital improvements.
- Environmental restoration and pollution abatement.
- Control of noxious weeds and establishment of native species.
- Environmental mitigation related to NHPP projects.
- Construction of publicly owned intra-city or intercity bus terminals servicing the NHS.

The FAST Act also makes the following changes to NHPP eligibilities:

- At a State's request, the Secretary now may use a State's NHPP apportionment to pay the subsidy and administrative costs for Transportation Infrastructure Financing and Innovation Act (TIFIA) credit assistance for an eligible project.
- It provides specific NHPP eligibility for vehicle-to-infrastructure (V2I) communication equipment.
- It allows States to use NHPP funds for reconstruction, resurfacing, restoration, rehabilitation, or preservation of a non-NHS bridge if the bridge is on a Federal-aid highway.

Surface Transportation Program/Surface Transportation Block Grant Program

The Surface Transportation Program (STP) was established by the 1991 Federal Intermodal Surface Transportation Efficiency Act (ISTEA) and is continued by the FAST Act. However under the FAST Act, STP is now identified as the Surface Transportation Block Grant Program (STBGP). These funds may be used by states and localities for projects on any federal-aid highway, including the National Highway System (NHS), bridge projects on any public road, transit capital projects, and public bus terminals and facilities. Funds are distributed among the states based on lane miles of Federal-aid highways, (including on the NHS), total vehicle-miles traveled on those Federal-aid highways, and estimated contributions to the Highway Account of the Highway Trust Fund. The State sub-allocates the funds to the regions based on population and serves as Fresno COG's Regional Surface Transportation Program (RSTP). Eighty percent of the apportionment is distributed among the urbanized and non-urbanized areas of the State through Metropolitan Planning Organizations (MPOs) and Regional Transportation Planning Agencies (RTPAs).

Eligible projects include but are not limited to:

- Highway projects
- Bridges (including construction, reconstruction, seismic retrofit and painting) on all public roads
- Transit capital improvements
- Carpool, bicycle and pedestrian facilities
- Safety improvements and hazard elimination
- Research and traffic management systems
- Planning
- Transportation enhancement activities and control measures
- Safety improvements and bridge replacement projects on local roads and rural minor collectors

Highway Bridge Program

The purpose of the Highway Bridge Program (HBP) is to replace or rehabilitate public highway bridges over waterways, other topographical barriers, other highways, or railroads when the State and the Federal Highway Administration determine that a bridge is significantly important and is unsafe because of structural deficiencies, physical deterioration, or functional obsolescence. Eligible bridge projects include replacement, rehabilitation, painting, scour countermeasure, bridge approach barrier and railing replacement, low water crossing replacement, and ferry service replacement.

Highway Safety Improvement Program

The FAST Act continues the Highway Safety Improvement Program (HSIP) to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands. The HSIP requires a data-driven, strategic approach to improving highway safety on all public roads that focuses on performance.

A highway safety improvement project is any strategy, activity or project on a public road that is consistent with the data-driven State Strategic Highway Safety Plan (SHSP) and corrects or improves a hazardous road location or feature or addresses a highway safety problem. HSIP funds are eligible for work on any public road or publicly owned bicycle or pedestrian pathway or trail, or on tribal lands for general use of tribal members, that corrects or improves the safety for its users. The twenty-four project categories are broad in nature and are listed under 23 U.S.C. §148(a) (4) (B). Workforce development, training, and education activities are also an eligible use of HSIP funds.

STATE PROGRAMS

Active Transportation Program

The California Active Transportation Program (ATP) was created by Senate Bill 99 (Chapter 359, Statutes 2013) and Assembly Bill 101 (Chapter 354, Statutes 2013), to encourage increased use of active modes of transportation, such as biking and walking, as well as to ensure compliance with the federal transportation authorization. The goals of the ATP are to: increase the proportion of trips accomplished by biking and walking, increase the safety and mobility of non-motorized users, advance the active transportation efforts of regional agencies to achieve greenhouse gas reduction goals, enhance public health, ensure that disadvantaged communities fully share in the benefits of the program, and provide a broad spectrum of projects to benefit many types of active transportation users. The ATP is funded from Federal Transportation Alternative Programs, Federal Highway Safety Improvement Program, and State Highway Account.

State Highway Operation and Protection Program

The purpose of the State Highway Operation and Protection Program (SHOPP) is to maintain the operational integrity and safety of the State highway system. It includes State highway safety and rehabilitation projects, seismic retrofit projects, land and building projects, landscaping, some operational improvements, bridge replacement, and the Minor Program - generally those types of projects that Caltrans as the owner-operator of the system must do to maintain the integrity of the system. Unlike STIP projects, SHOPP projects may not increase roadway capacity. There is no formula for allocating SHOPP revenues, which presents a degree of uncertainty. The Fresno County region could receive a large share of revenues in one cycle, then much less in future cycles.

SHOPP projects are provided to Fresno COG by Caltrans and are selected in accordance with Government Code Section 14526.5, Streets and Highways Code Section 164.6, and the strategies outlined in the Department's Policy for Management of the SHOPP. Projects are also funded through competitive grant programs, which are specifically identified in legislation. These projects are programmed consistent with the information contained within the official notification of funding award received by Fresno COG.

Local Transportation Funds

Local Transportation Funds (LTF) are derived from the 1/4 cent of the statewide sales tax. LTF revenue is returned to local governments for transportation purposes with public transportation being the primary focus. This money comes back to local governments for funding of bicycle and pedestrian facilities, public transportation, or streets and roads. The LTF is distributed to each city and unincorporated area based on population.

In the San Joaquin Valley, LTF funds may be used for both transit and streets and roads purposes as long as all reasonable transit needs are addressed. The City of Fresno currently uses all of its LTF funds for

public transit, although Fresno County and the remaining cities in the county use some LTF funds for roads. LTF is one of the principle sources of public subsidies for Fresno Area Express (FAX).

Senate Bill 1 – Road Repair and Accountability Act of 2017

Senate Bill 1, the Road Repair and Accountability Act of 2017, was signed into law on April 28, 2017. This legislative package invests $54 billion over a decade to fix roads, freeways and bridges in communities across California and puts more dollars toward transit and safety. These funds are split equally between state and local investments that include maintenance and rehabilitation of the State Highway System, new funding for transit agencies, Maintaining and Repairing the State's Bridges and Culverts, a Trade Corridor Enhancement Program, repairs to local streets and roads, Solutions for Congested Corridors Program, matching funds for local agencies, local planning grants, bike and pedestrian projects, freeway service patrol, workforce training programs, and transportation-related research at state universities.

As approved by the voters in the November 2006 general elections, Proposition 1B enacts the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006 to authorize $19.925 billion of state general obligation bonds for specified purposes, including high-priority transportation corridor improvements, State Route 99 corridor enhancements, school bus retrofit and replacement purposes, state transportation improvement program augmentation, transit and passenger rail improvements, state-local partnership transportation projects, transit security projects, local bridge seismic retrofit projects, highway-railroad grade separation and crossing improvement projects, state highway safety and rehabilitation projects, and local street and road improvement, congestion relief, and traffic safety.
It is important to note that this 5-year program is now coming to an end; the funds have all been allocated and fund recipients are closing out all Prop 1B projects.

State and Local Partnership Program (SB-1))

Senate Bill 1 created the Local Partnership Program and continuously appropriates $200 million annually from the Road Maintenance and Rehabilitation Account to local and regional transportation agencies that have sought and received voter approval of taxes or that have imposed fees, which taxes or fees are dedicated solely for transportation improvements. The Local Partnership Program provides funding to local and regional agencies to improve aging infrastructure, road conditions, active transportation, transit and rail, and health and safety benefits. The Local Partnership Program funds are distributed through a 40% statewide competitive component and a 60% formulaic component.

Trade Corridor Enhancement Program (TCEP):

$300 million has been slated annually from a new fund for projects related to the routes and transportation infrastructure vital to California's trade and freight economy. The Trade Corridor Enhancement Program (TCEP) will focus on projects nominated by local agencies and the state that will make improvements to highways so they can more efficiently handle and move freight, freight rail system improvements, enhancements to the capacity and efficiency of ports, truck corridor improvements (such as dedicated truck facilities or truck toll facilities), border access improvements, and surface transportation, local roads and connector road improvements to help move goods from California's ports.

Solutions for Congested Corridors Program (SCCP):

SB 1 created the Solutions for Congested Corridors Program (SCCP), providing $250 million annually to multimodal corridor plans that make performance improvements along the state's busiest highways. SB 1 also provides funding for additional programs that help address congestion through their investments.

State Transportation Improvement Program

The State Transportation Improvement Program (STIP) is split into two programs: the Regional Transportation Improvement Program (RTIP) and the Interregional Improvement Program (IIP). Pursuant to SB-45, 75% of the overall STIP funding goes to regional authorities to pay for accepted RTIP projects, and the remaining 25% of the overall STIP funding is used to pay for IIP projects, as determined by Caltrans. Once the Fresno County region has selected the projects for the RTIPs, the California Transportation Commission (CTC) must allocate funds for the projects based on estimated construction costs. The funds are programmed by in the Federal Transportation Improvement Programs (FTIP) for inclusion in the State Transportation Improvement Program (STIP). Pursuant to SB-45, allocations of Regional Choice funds are known as "County Shares" and replace the previous "County Minimums." Eligible projects include:

- Local streets and roads
- Public transit
- Intercity transit
- Pedestrian and bikeway facilities
- State highway improvements
- Grade separations
- Intermodal facilities
- Safety projects
- Transportation System Management projects
- Sound walls

Interregional Improvement Program (see above)

Interregional Improvement Program (IIP) funds represent 25% of available State Highway Account funding. The funds are programmed by Caltrans on a statewide priority basis, for use primarily on the State highway system (outside urbanized areas). Regional agencies may also nominate projects that generate economic development (may be inside metropolitan areas). Regional agencies may nominate projects if they can show better cost-effective use of funds. Eligible projects include:

- Interregional roads (outside of metropolitan areas)
- Interstate 5
- State Highways 41, 99, 168, 198 and 180 east
- Intercity rail
- "Flex" projects which promote economic development

State Transit Assistance Fund

The State Transit Assistance fund (STA) is derived from a portion of the Motor Vehicle Fuel Tax. The STA supports public transportation services, and is apportioned through the RTPA to their member agencies on a population basis, although some funds are apportioned directly to transit operators based on their fare box revenues. STA funds may be used for mass transit (capital or operating expenses) or transportation planning. Passage of Proposition 116 disallows use of STA funds for streets and roads.

LOCAL PROGRAMS

Local Funds (Agency Funds, City Funds, County Funds, Developer Fees, and Private Funds)

There are a number of local transportation funding sources which have their origins in city or county sources. These include general fund revenues used for street purposes, revenues derived from use of

gas tax, proceeds from bond sales for street purposes, street assessment levies and traffic safety fund revenues used for street purposes.

Fresno County Local Sales Tax—(Measure "C" Funds)

In 2006 voters of Fresno County approved a 20 year extension of a 1/2 percent local sales tax (Measure "C") for transportation purposes. The twenty-year tax is projected to generate approximately $1.7 billion in funding to be expended through the Fresno County Transportation Authority (FCTA). As the designated RTPA for Fresno County, Fresno COG is legislatively responsible for preparing an expenditure plan for use of the highway revenues.

Of the approximately $1.4 billion total to be collected over 20 years at least 34.6% of the tax will be allocated to local agencies for a wide variety of transportation programs and projects on their respective local transportation networks. The FCTA's oversight of these funds involves identifying the amount of funding to be made available to the local agencies, managing the claims process, and annually auditing to insure that the funds were used for eligible transportation purposes.

"Measure C-Local" funds are distributed to Fresno COG's member agencies based on their respective population. "Measure C-Regional" funds are used for projects that are voted on by the public and subsequently prioritized.

Regional Transportation Mitigation Fee

The Regional Transportation Mitigation Fee (RTMF) is an important part of the Measure "C" Extension approved by Fresno County voters in 2006. The RTMF is intended to ensure that future development contributes to its fair share towards the cost of infrastructure to mitigate the cumulative, indirect regional transportation impacts of new growth in a manner consistent with the provisions of the State of California Mitigation Fee Act. The fees will help fund improvements needed to maintain the target level of service in the face of higher traffic volumes brought on by new developments.

APPENDIX C
FTIP AMENDMENT PROCEDURES

Page intentionally left blank.

FTIP AMENDMENT PROCEDURES

The Fresno Council of Governments (Fresno COG) as a federally designated Metropolitan Planning Organization (MPO) adopts a Federal Transportation Improvement Program (FTIP) that includes projects and sets priorities for federal transportation funding. Federal regulations require fairly strict adherence to the projects and priorities (schedules) contained within the adopted FTIP. FTIP amendments are used to make any necessary changes to the document or to projects within the document.

Federal regulations [Title Code 23 of Federal Regulations Part 450.332-c] provide MPOs the ability to adjust FTIP project schedules and make minor changes without the need for an amendment. Under current circumstances, FTIP change approvals have been delegated by Caltrans to the Fresno COG Executive Director, and can be approved without formal Policy Board review. The Fresno COG Policy Board has adopted "Amendment-Director Delegation" and "Administrative Modification" procedures providing this flexibility. Also, on May 10, 2012, with the acknowledgment of the Fresno COG Policy Board, the California Department of Transportation (Caltrans) delegated to the Fresno COG Executive Director the authority to approve Administrative Modifications to the Federal Statewide Transportation Improvement Program (FSTIP)/ FTIP. This delegated authority is in accordance with the revised FSTIP/FTIP Amendment and Administrative Modification procedures. Fresno COG's amendment procedures are as follows.

Amendment Type 1

Administrative Modifications

Administrative modifications include minor changes to project cost, schedule, or funding sources. Administrative modifications only require approval by Fresno COG. State and Federal agencies are notified, but do not take approval action on Administrative Modifications. They are posted on Fresno COG's website at the time of action, and are later posted on Caltrans' website.

Amendment Type 2

Amendment – Funding Changes

Type 2 amendments primarily include project cost changes that are greater than minor changes identified under Administrative Modification procedures. Type 2 amendments require approval by Fresno COG, Caltrans, and FHWA. A publicly accessible notification of a Type 2 amendment is posted on Fresno COG's website at least seven days prior to action, and distributed to local agency partners through Fresno COG's standing committees. Fresno COG will consider public comments on the amendment prior to approval action.

Amendment Type 3

Amendment – Exempt Projects

Type 3 amendments primarily include adding or deleting projects that are exempt from regional air quality emissions analyses. These amendments typically include transit or safety projects. Type 3 amendments require approval by Fresno COG, Caltrans, and FHWA. Public notification of a Type 3 amendment is posted on Fresno COG's website at least seven days prior to action, and distributed to local agency partners through Fresno COG's standing committees. Fresno COG will consider public comments on the amendment prior to approval action.

Amendment Type 4

Amendment – Conformity Determination that Relies on a Previous Regional Emissions Analysis

Type 4 amendments primarily include adding or deleting projects that have already been appropriately modeled for air quality purposes as part of the RTP. In this case, the federal approving

agencies can use a previous analysis of the project's impact on air quality for approval purposes. Type 4 amendments may be accompanied by an RTP amendment to maintain consistency. The FTIP amendment and RTP Amendment (if applicable) follow the same public process. Type 4 amendments require approval by Fresno COG, Caltrans, and FHWA. Public notification of a Type 4 formal amendment includes the following:

- Legally noticed 30-day public comment period
- Legally noticed public meeting
- Posting of amendment information on Fresno COG's website during public comment period
- Publishing amendment information as part of the following publicly available Fresno COG agendas: Transportation Technical Committee, Policy Advisory Committee and Fresno COG Policy Board
- Consideration and response to public comments received during comment period

Amendment Type 5

Amendment – Conformity Determination and New Regional Emissions Analysis

Type 5 amendments are the highest level amendment and primarily involve adding or deleting new projects that must be modeled for their air quality impacts, or significantly changing the design concept, scope, or schedule of an existing project. Type 5 amendments are accompanied by a new Air Quality Conformity Document that demonstrates conformity with applicable air quality requirements, and if applicable, an RTP amendment to maintain consistency. The FTIP amendment, Air Quality Conformity Document, and RTP Amendment (if applicable) follow the same public process. Type 5 amendments require approval action by Fresno COG, Caltrans, and FHWA. Public notification of a Type 5 amendment includes:

- Legally noticed 30-day public comment period
- Legally noticed public meeting
- Posting of amendment information on Fresno COG's website during public comment period
- Publishing amendment information as part of the following publicly available Fresno COG agendas: Transportation Technical Committee, Policy Advisory Committee, and Fresno COG Policy Board
- Consideration and response to public comments received during comment period

Technical Correction

A technical correction to an FTIP project by staff does not require public review or approval of any kind.

Grouped Project Listings

Federal rules allow MPOs to group or combine projects that are not considered to be of appropriate scale for individual listing. Such grouped projects are often referred to as "Lump Sum Project Listings." Fresno COG uses this ability to program grouped projects within the FTIP. Such projects may be grouped by function (e.g., bike lanes), work type (e.g., maintenance), or geographical area. Once grouped, the MPO is required to maintain, outside of the FTIP, a detailed list of the projects contained in each group. Modifications to the projects or costs within the listings are conducted on an as-needed basis and do not require a formal public participation process; however, any changes to the overall grouped project cost or scope are done in accordance with the amendment types above. Grouped project listings are made available through the Fresno COG website at http://www.fresnocog.org/ftip, and are distributed to Caltrans and FHWA.

Fresno COG, in cooperation with the FHWA and Caltrans, has entered into an agreement to regulate the number of FTIP Amendment Cycles in order to help federal and state agencies ensure a more

expeditious review of Regional FTIP Amendments. As part of the arrangement, Fresno COG works to limit the number of FTIP Amendment Cycles to one per two-month period, with exceptions as needed for safety or emergency reasons. Fresno COG is responsible for verifying that urgent requests for amendments meet the criteria for exceptions. FHWA and Caltrans, likewise, have agreed to provide expeditious review of Fresno COG FTIP Amendments. Future consideration will include limiting amendments to one per three-month period.

A major part of the FTIP is the four-year "Element". Federal guidance requires that the FTIP be delivered in the following manner:

- All projects (as a group) shown in the first year of the Element shall have first priority;
- All projects (as a group) shown in the second year of the Element shall have second priority;
- All projects (as a group) shown in the third year of the Element shall have third priority; and
- All projects (as a group) shown in the fourth year of the Element shall have fourth priority.

The significance of this method is that the federal government expects Fresno COG to make every effort to complete first-year projects before second-year projects, second-year projects before third-year projects, and so on. In theory, failure to do so could throw the entire program into chaos, with second-, third-, or fourth-year projects being held up due to a single first-year project's inability to proceed. In practice, the federal reviewing agencies have generally been satisfied if significant progress is being made to implement all first-year projects, even if one or more projects happen to slip into the next year; however, if a project is stalled or is no longer going to be implemented, Fresno COG is required to recognize this and adjust the FTIP.

Different restrictions apply to projects that qualify as Transportation Control Measures (TCMs). In accordance with federal air quality regulations, Fresno COG is required to expeditiously implement all TCMs. If programmed TCM projects are unavoidably delayed, other TCMs must be advanced or risk jeopardizing the entire program.

FTIP "Expedited Project Selection Procedures"

The State, Fresno COG, and transit operators have instituted a project selection process for its FTIP as required by Federal Regulations 23 Code of Federal Regulations (CFR) Part 450 and Title 23 United States Code (USC). Projects from the first four years of the 2021 FTIP have been selected using the approved project selection procedures as outlined on the following table. Fresno COG's member agencies, Caltrans, and the transit operators agree per 23 CFR 450.332, that the projects within the first four years of the FTIP may be advanced or delayed within the Four-Year Element of the FSTIP, subject to the conditions of the Expedited Project Selection Procedures outlined below. For FTA-administered funds, projects may be moved within the period of the FSTIP at the agency's request, as long as funding is available and the change does not negatively impact delivery or fund availability for other projects ready for obligation.

The projects within the State Transportation Improvement Program (STIP) may be advanced subject to California Transportation Commission (CTC)-approved STIP amendments.

The projects funded within the Surface Transportation Block Grant (STBG) and Congestion Mitigation and Air Quality (CMAQ) programs may be moved subject to the Fresno COG Expedited Projects Selection Process (attached).

Fresno COG and Caltrans agree that the Caltrans Program Managers for the following programs may implement projects within the four-year FSTIP element without amending the FTIP/FSTIP.

State Highway Operation and Protection Program (SHOPP)
Highway Bridge Program (HBP)
High Risk Rural Roads Program (HRRR)
Section 130 - STP Railroad Program
Highway Safety Improvement Program (HSIP)

Fresno Council of Governments designates Executive Director Tony Boren to sign below acknowledging that advancing of projects under such agreement does not invalidate the financial constraint of its FTIP.

Tony Boren, Executive Director

Date

Project Selection Procedures - Consultation and Cooperation Requirements

Region	**Project Type**	**Selecting Agency**	**Selection Procedure**	**Consulted/ cooperating Agency**
TMA MPO	Projects funded with title 23 and Federal Transit Act funds-except: projects on the, NHS, HBP, IM and FLHP funded projects	MPO	Consultation	State and Transit Operator
	Projects on the Highway-Railroad Grade Separation, NHS, and projects funded under the HBP and IM programs	State	Cooperation	MPO
	Projects funded with Federal Lands Highway Program (FLHP) funds	Selected in accordance with 23 U.S.C. 204		

These changes should be accounted for through subsequent amendments or modifications to the FSTIP/FTIP.

Fresno COG Expedited Project Selection Process

The Fresno COG Policy Board hereby establishes guidelines for programming the STBG, CMAQ, and the Active Transportation Program (ATP) to ensure timely project delivery within federal and state funding deadlines.

It is the implementing agency's responsibility at the time of programming to understand the requirements and procedures for authorizing a project through Caltrans Local Programs and ensure the deadlines and provisions of project delivery can be met.

COG staff will actively monitor all STBG, CMAQ and ATP projects regarding the funding authorization, implementation schedule, and obligation status to identify delivery issues as they arise and make determinations on project placement in the FTIP based on this policy. Appeals to this decision process must be taken through the Fresno COG committee process to the Policy Board.

Projects Eligible for Programming

To be eligible for programming in the FTIP a project must be included in a list of Lifeline and/or Regional Bid projects authorized by the Fresno COG Policy Board. Fresno COG staff will endeavor to provide targets for Lifeline and Regional Bid programs based on estimated apportionments during the life of the federal-aid appropriation.

Lifeline — Lifeline targets are available to each member agency to provide an opportunity for member agencies to present a case for the selection of eligible projects determined by the member agency to be priorities within their jurisdiction. Lifeline targets are authorized in advance at the beginning of the federal-aid highway act appropriation cycle, and are calculated based on the members' population share and highway maintained mileage to assure a fair-share guidance for assembling a program of projects for inclusion into the FTIP. Projects are selected by member agencies subject to federal eligibility requirements, FTIP Amendment procedures/policies, and programming capacity in the FTIP. Members may also use this funding to provide a match for awarded regional bid projects or cover cost overruns for other funding program projects awarded through a competitive scoring process.

Regional Bid — Regional Bid pot targets are determined by estimating the residual remaining in the federal-aid appropriation after the Lifeline amounts are calculated. Regional Bid projects are selected in cycles by a "Call for Projects" process. Supplemental cycles may be required toward the end of the federal-aid appropriation to adjust for differences in actual appropriation. The selection and scoring criteria to identify these projects has been adopted by Fresno COG's Policy Board through an extensive regional consensus process in conformance with 23 CFR 450.332. Once selected on regional merits, a Regional Bid project should be delivered. Changes in scope are allowed up to 20% of the total cost of the project if resources are available. A project sponsor may apply Lifeline to a Regional Bid project but not the reverse. Regional Bid funds from a canceled project do not vest with the project sponsor; however, these funds may be used in funding up to a 20% overrun in other Regional Bid Project costs or returned to the Regional Bid pot to be applied to the next eligible project that was not funded from the most recent Call for Projects list. Project savings from completed and closed out Regional Bid projects are vested with the member and can be moved to other projects that meet Federal regulations for the type of funding involved.

Programming the FTIP

Working through the Fresno COG regional consensus process, staff will program the authorized list of eligible Lifeline and Regional Bid projects in the FTIP Element until all available programming capacity has been consumed. The remaining projects are then programmed in the "out years" of the FTIP. As additional programming capacity becomes available, the out-year projects provide a pool of authorized projects to move into the Element. To move out -year projects into the Element requires an FTIP amendment, including a finding of financial constraint on the entire FTIP.

When determining the split between projects in the Element and out years, various factors may be considered:

- The status of the project as a Lifeline or Regional Bid project
- The priority assigned the project on the call-for-projects list.
- The phasing and deliverability schedule of the project or project phase.
- The status of previously programmed project phases.
- The status of the project as a capital procurement or transit operations (CMAQ).
- The track record of the project sponsor in delivering projects on schedule.
- The status of the project as having been previously programmed in the Element or out years.

Placement in the Four-Year Element

To be considered for placement in the Four-Year Element of the FTIP, a project sponsor must submit an implementation schedule, by year, showing a logical, planned obligation of the various phases (Preliminary Engineering-PE, Right of-Way-ROW, Construction-CON). Failure to adhere to this schedule may result in the project being rescheduled. Criteria for this implementation schedule should include but not be limited to:

- Securing political commitments and local board authorization
- Securing required matching funds
- Fulfilling Caltrans Local Programs' requirements
- Securing required permits, certifications, and waivers
- Completing PE and design studies
- ROW certification
- Completing final design
- Construction bid readiness

Depending on the project requirements, the implementation schedule may be simple or complex. COG staff will schedule projects in the Element based on this implementation schedule subject to programming capacity.

Projects with multiple phases (PE, ROW, CON) must have a reasonable expectation that the preliminary phases can be completed prior to programming subsequent phases in the current Element. Project Sponsors must be cognizant of Local Programs' requirements affecting project phasing. For instance, a project cannot proceed to final design, ROW acquisition, or CON until a Preliminary Environmental Study (PES) identifies the environmental condition of the project area and proposes mitigation, if required. Furthermore, final CON cannot begin until Caltrans issues an environmental certification (if required), the local agency has certified ROW (if included) and final plans and specs have been submitted to Caltrans along with a PSE checklist. It follows that any project with significant environmental mitigation

requirements identified on the PES, unresolved ROW issues, or issues with final design cannot be obligated for the affected project phase until those issues are resolved. Project sponsors must identify those issues that can delay their project and document a reasonable expectation, schedule and commitment to complete required preliminary phases before requesting subsequent project phases be placed in the current Element year.

Grouped projects programmed in the Element must be accompanied by a detailed list identifying the specific deliverable project phases of the grouped project. Grouped project sponsors must be able to demonstrate deliverability of the individual projects and project phases.

This "Expedited Project Selection" process provides Fresno COG's Policy Board the flexibility to alter the order of projects within the Element of the FTIP to fit the priorities and needs of the transportation program in Fresno County without "Formal" or "Administrative" amendments to the approved FTIP.

Failure to Deliver

Projects that are programmed in the current Element year that fail to obligate on schedule represent a potential loss of apportionment to the region unless another project advances to use the available apportionment. For this reason, if a project falls behind in schedule it may be necessary to replace it with another project that has a reasonable chance of obligating. Depending on the apparent demonstrated commitment of the project sponsor to deliver the project, the nature of the delay, and available programming capacity in the four-year Element, the project may be rescheduled to the second, third, or fourth year of the Element or to the out years.

The FTIP is completely revised every four years. At the end of the first year, projects in the first year of the Element that did not obligate or move back are considered "prior year" projects. In order to obligate those projects in a subsequent year, an administrative amendment must be processed transferring the projects back into the new, current Element year. However, at the end of the fourth year when the FTIP is revised, all prior year projects must be reprogrammed in the Element or they become out-year projects.

Loss of Funds through AB 1012 or decreased apportionment

AB 1012 is apportionment specific. The MPO has three years, including the year of apportionment, to obligate each apportionment (e.g. the 2020/21 apportionment expires at the end of the 2022/23 fiscal year). The estimated available apportionments is calculated when setting the Lifeline and Regional Bid targets. Should actual apportionments come in significantly lower than those estimates, or should delayed project delivery cause a loss of apportionments via AB 1012, staff will re-estimate the capacity to deliver the program using remaining apportionments. If this results in removing projects from the pool of Lifeline and Regional Bid project list, staff will identify candidate projects for the COG Policy Board to consider for removal. Factors to be considered when identifying projects for removal will include the age of the project and failure to meet committed scheduling.

Project Obligation, Implementation and Close Out

Projects have seven years (state requirement) from the first obligation to proceed to completion and close out. A one-time, one-year extension may be requested. Projects that lapse unclosed may be subject to repayment by the local sponsoring agency of federal funds to the funding agency.

APPENDIX D
PUBLIC PARTICIPATION PROCESS FOR FTIP DEVELOPMENT

Page intentionally left blank.

2021 FTIP PUBLIC PARTICIPATION PROCESS

As part of the 2021 Federal Transportation Improvement Program (2021 FTIP) development process, Fresno COG has performed the following activities per the Public Participation Plan process that is available on Fresno COG's website at: http://www.fresnocog.org/get-involved.

Public Participation for the development of the 2021 FTIP includes:

- Fresno COG legally noticed and sponsored a public hearing and a 30-day public comment period to receive comments on the Draft 2021 FTIP and the corresponding Draft Air Quality Conformity Analysis for the 2021 FTIP.
    - A 30-day public comment period was held from December 7, 2020 to January 5, 2021.
    - A public hearing to receive comments on these documents was held on December 16 at 5:00 p.m. Due to the State of California's public health guidelines related to the COVID-19 pandemic and pursuant to Executive Order N-29-20, this public hearing was held via webcast. In-person attendance is not permitted. Details for how to participate will be published in the meeting agenda at https://agendas.fresnocog.org/, available a week prior to the meeting date.
    - Public comments received during the 30-day public comment period and public hearings will be considered and responded to via email or phone call and formally as part of Appendix J (Comments and Responses) in the Final 2021 FTIP.
- The release of the draft document and notice of the 30-day public comment period, public hearing, and Policy Board meeting to adopt the Final 2021 FTIP was publicized through:
    - The Fresno Bee newspaper.
    - Fresno COG's bulletin board; located at the Fresno COG office.
    - Links to the draft documents posted on the Fresno COG website were sent to all standing committees (TTC and PAC), Board Members, Caltrans, FHWA, and any interested parties or members of the general public. Hard copies were also available at regularly-scheduled public meetings and by request.
    - The notice and draft documents were posted on Fresno COG's website www.fresnocog.org soliciting comments to the document.
    - Social networking pages such as Facebook.
    - Solicited responses through email, collaborating and coordinating with FHWA, FTA, Caltrans, the Air District, state and federal resource agencies, our local jurisdictions, the other seven counties in the San Joaquin Valley and the general public. Fresno COG also solicited input from the Indian Tribal governments and community organizations.
    - Emailed updates through Fresno COG's weekly email newsletter, "Coming Up at Fresno COG", to 2,200+ people on Fresno COG's current email database.
- Fresno COG published the Final Draft 2021 FTIP as part of the following publicly available Fresno COG agendas: Transportation Technical Committee, Policy Advisory Committee, and Fresno COG Policy Board, and on the Fresno COG website.
    - Staff presented the Final 2021 FTIP at the Transportation Technical Committee and the Policy Advisory Committee meetings on January 15, 2021 for approval.
    - Staff presented the Final 2021 FTIP at the Fresno COG Policy Board meeting on January 28, 2021 for approval.

Fresno	FRE500726		Golden State	2 LU to 4 LU with sidewalks and bike lanes	From:Herndon To:Veterans Dist:1	$2,900,000								X	X	X
Fresno	FRE500564		Grantland	4 LD to 6 LD with bike lanes, sidewalks, curb, gutter, trail	From:Ashlan To:Holland Dist:.25	$1,600,000					X	X	X	X	X	X
Fresno	FRE500727		Grantland	2 LU to 6 LD with bike lanes, sidewalks, curb, gutter, trail	From:Shields To:Ashlan Dist:1	$3,500,000								X	X	X
Fresno	FRE500728		Grantland	2 LU to 4 LD with bike lanes, sidewalks, curb, gutter, trail	From:Belmont To:Shields Dist:2	$4,300,000									X	X
Fresno	FRE500729		Grantland	2 LU to 4 LD with bike lanes, sidewalks, curb, gutter, trail	From:Shaw To:Parkway Dist:1.5	$5,550,000								X	X	X
Fresno	FRE500730		Grantland	2 LU to 4 LU with bike lanes, sidewalks, curb, gutter, trail	From:Gettysburg To:Shaw:.5	$2,040,000								X	X	X
Fresno	FRE500732		Hayes	Unconstructed to 4 LU with bike lanes, sidewalks, curb, gutter	From:Shaw To:Barstow Dist:.5	$1,450,000								X	X	X
Fresno	FRE500733		Hayes	2 LU to 4 LU with bike lanes, sidewalks, curb, gutter	From:Veterans Blvd To:Spruce Dist:.6	$2,460,000								X	X	X
Clovis	FRE501718		HERITAGE GROVE MAIN	Unconstructed to 2LU W/ TWLTL, Sidewalks, Bike Lanes, Street Lights, Curb and Gutter	From:Peach To:Minnewawa Dist:0.5	$3,000,000					X	X	X	X	X	X
Clovis	FRE501719		HERITAGE GROVE MAIN	Unconstructed to 2LU W/ TWLTL, Sidewalks, Bike Lanes, Street Lights, Curb and Gutter	From:Minnewawa To:Clovis Dist:0.25	$1,500,000					X	X	X	X	X	X
Clovis	FRE501720		HERITAGE GROVE MAIN	Unconstructed to 4LD, Sidewalks, Bike Lanes, Street Lights, Curb and Gutter	FROM:WILLOW TO:PEACH DIST:0.5	$5,000,000		X	X	X	X	X	X	X	X	X
Clovis	FRE111347	20300000734	Herndon	Widen from 2 LU to 6 LD; dual lefts; traffic signal; sidewalk (part of Measure C Project K3 in the Urban Regional Program-split between FRE's 111347 and 111348)	Locan to De Wolf	$7,030,000		X	X	X	X	X	X	X	X	X

Regionally Significant Project Listing

			Description				Conformity Analysis Year (project open to traffic)									
Jurisdiction / Agency	TIP/RTP Project ID	CTIPs Project ID	Facility Name/Route	Type of Improvement	Project Limits	Estimated Cost	2021	2022	2023	2024	2025	2026	2029	2031	2037	2042
Clovis	FRE111348	20300000738	Herndon	Widen from 2 LU to 6 LD; dual lefts; traffic signal; sidewalk (part of Measure C Project K3 in the Urban Regional Program-split between FRE's 111347 and 111348)	Intersection Temperance to Locan	$7,030,000		X	X	X	X	X	X	X	X	X
Clovis	FRE500736		Herndon	2LU to 4LD, Sidewalks, Bike Lanes, Street Lights, Curb and Gutter, Fiber Optics	From:DeWolf To:McCall Dist:2	$32,000,000								X	X	X
Fresno	FRE111346	20300000731	Herndon	Widen from 4 LD to 6 LD (Measure C Project K10 in the Urban Regional Program)	Weber to Polk	$2,931,000								X	X	X
Fresno	FRE111350	20300000750	Herndon	Widen Herndon, Polk to Milburn from 4LD to 6 LD and widen BNSF Overpass Bridge to 6 LN (Measure C Project K11 in the Urban Regional Program)	Polk to Milburn	$24,072,000			X	X	X	X	X	X	X	X
Fresno	FRE500144		Herndon	Construct auxiliary lane on Herndon Avenue and complete the Class 1 bike path/multi-purpose trail on the north side within the project limits.	From:SR 41 To:Fresno St Dist:.13	$533,000	X	X	X	X	X	X	X	X	X	X
Fresno	FRE501755		Herndon	2 LD to 6 LD with trail and sidewalk	From:Riverside To:Hayes Dist:0.5	$2,050,000							X	X	X	X
Fresno	FRE501756		Herndon	3 LU to 4 LD with bike lane, trail and sidewalk	From:Parkway To:Golden State Dist:0.2	$620,000							X	X	X	X
Fresno	FRE501757		Herndon	5 LD to 6 LD with sidewalk	From:Hayest To:Spruce Dist:0.6	$2,460,000							X	X	X	X
Clovis	FRE500742		Highland	Unconstructed to 2L, w/2WLTL, Sidewalks, Bike Lanes, Street Lights, Curb and Gutter, Fiber Optics	From:Gettysburg To:Shaw Dist:.5	$5,500,000					X	X	X	X	X	X
Clovis	FRE500743		Highland	2LU to 3LU, w/2WLTL, Sidewalks, Bike Lanes, Street Light, Curb and Gutter, Fiber Optics	From:Dakota To:Ashlan Dist:.5	$5,500,000					X	X	X	X	X	X
Kerman	FRE501793		Howard	Widen 2 LU to 4 LD, Sidewalks, Bike Lanes, Curb and Gutter, Streetlights	California to Whitesbridge	$5,600,000										
Fresno	FRE500744		Hughes	Unconstructed to 3 LU with bike lanes, sidewalks, curb, gutter	From: North To:Church Dist:1.5	$3,000,000									X	X
Clovis	FRE500748		International	Unconstructed to 4LD, Sidewalks, Bike Lanes, Street Lights, Curb and Gutter, Fiber Optics	From:Willow To:Minnewawa Dist:1.0	$8,000,000								X	X	X
Clovis	FRE501721		International	Unconstructed to 2LU W/ TWLTL, Sidewalks, Bike Lanes, Street Lights, Curb and Gutter, Fiber Optics	From:Minnewawa To:Clovis Dist:0.25	$1,700,000								X	X	X

NOTICE OF PUBLIC MEETING ON THE
DRAFT 2021 FEDERAL TRANSPORTATION IMPROVEMENT PROGRAM,
THE DRAFT 2018 REGIONAL TRANSPORTATION PLAN AMENDMENT NO. 4,
AND DRAFT CONFORMITY ANALYSIS

Fresno Council of Governments (Fresno COG) herein provides notice that it will hold a public hearing at 5 p.m. on Dec. 16, 2020 regarding the Draft 2021 Federal Transportation Improvement Program (2021 FTIP), the Draft 2018 Regional Transportation Plan Amendment No. 4 (2018 RTP Amendment No. 4), and the corresponding Draft Conformity Analysis. Due to the State of California's public health guidelines related to the COVID-19 pandemic and pursuant to Executive Order N-29-20, this public hearing will be held via webcast. In-person attendance is not permitted. Details for how to participate will be published in the meeting agenda at https://agendas.fresnocog.org/, available a week prior to the meeting date.

The hearing officer will receive public comments on these documents.

- The 2021 FTIP is a near-term listing of capital improvement and operational expenditures utilizing federal and state monies for transportation projects in Fresno County during the next four years.
- The 2018 RTP is a long-term strategy to meet Fresno County transportation needs out to the year 2042. The 2018 RTP Amendment No. 4 reflects funding, open-to-traffic-date, and scope changes to regionally significant, capacity-increasing projects. The amendment's changes are consistent with regionally significant projects' design concept, scope, or schedules, and do not change the plan's timeframe. Changes proposed in the 2018 RTP Amendment No. 4 continue to adhere to Conformity budgets, and therefore, does not require a supplemental Environmental Impact Report (EIR).
- The corresponding Conformity Analysis contains the documentation to support a finding that the 2021 FTIP and 2018 RTP Amendment No. 4 meet the air quality conformity requirements for ozone and particulate matter.

Translation services are available (with three-working-days' advance notice) to participants speaking any language with available professional translation services.

A 30-day public review and comment period will commence Dec. 7 and conclude on Jan. 5, 2021. The draft documents are available for review at www.fresnocog.org. *Fresno COG's office is closed due to Executive Order N-29-20; however, a hard copy will be provided upon request.*

Public comments are welcomed at the meeting or may be submitted in writing by 5 p.m. Jan. 5, to Kristine Cai at the address below.

After considering the comments, the documents will be considered for adoption, via resolution, by the Fresno COG Policy Board at a regularly scheduled meeting to be held January 28, 2021. The documents will then be submitted to state and federal agencies for approval.

AVISO DE AUDIENCIA PÚBLICA SOBRE EL PLAN PRELIMINAR DE 2021 DEL PROGRAMA FEDERAL DE MEJORAS DEL TRANSPORTE, EL PLAN PRELIMINAR DE 2018 DEL PLAN REGIONAL DE TRANSPORTE ENMIENDA NO. 4, Y PLAN PRELIMINAR DEL ANÁLISIS DE CONFORMIDAD

El Consejo de Gobiernos de Fresno aquí notifica que llevará a cabo una audiencia pública a las 5 pm el 16 de Diciembre, 2020 sobre el Plan Preliminar de 2021 del Programa Federal de Mejoras del Transporte (FTIP 2021), el Plan Preliminar de 2018 del Plan Regional de Transporte, Enmienda No. 4 (RTP 2018 Enmienda No. 4), y el correspondiente Plan Preliminar del Análisis de Conformidad. Debido a las pautas de salud pública del Estado de California relacionadas con la pandemia COVID-19 y de conformidad con la Orden Ejecutiva N-29-20, esta audiencia pública se llevará a cabo por internet. No se permite la asistencia en persona. Detalles sobre cómo participar se publicarán en la agenda de la audiencia en https://agendas.fresnocog.org/, disponible una semana antes de la fecha de la audiencia.

El oficial de audiencias recibirá comentarios públicos sobre estos documentos.

- El FTIP 2021 es una lista a corto plazo de mejoras de capital y gastos operativos que utilizan fondos federales y estatales para proyectos de transporte en el condado de Fresno durante los próximos cuatro años.
- El RTP 2018 es una estrategia a largo plazo para satisfacer las necesidades de transporte del Condado de Fresno hasta el año 2042. La Enmienda No. 4 del RTP 2018 refleja la financiación, la fecha de apertura al tráfico y cambios al alcance de proyectos de aumento de capacidad de importancia regional. Los cambios de la enmienda son consistentes con el concepto de diseño, el alcance o los cronogramas de los proyectos de importancia regional, y no cambian el plazo del plan. Los cambios propuestos en la Enmienda 4 del RTP de 2018 continúan adhiriéndose a los presupuestos de Conformidad y, por lo tanto, no requieren un Informe de Impacto Ambiental (EIR) complementario.
- El Análisis de Conformidad correspondiente contiene la documentación que respalda la conclusión de que el FTIP de 2021 y la Enmienda No. 4 del RTP de 2018 cumplen con los requisitos de conformidad de calidad del aire para el ozono y las partículas.

Los servicios de traducción están disponibles (con un preaviso de tres días hábiles) para los participantes que hablan cualquier idioma con servicios de traducción profesional disponibles.

Un período de revisión y comentarios públicos de 30 días comenzará el 7 de Diciembre y concluirá el 5 de Enero, 2021. Los documentos preliminares están disponibles para su revisión en www.fresnocog.org. La oficina de Fresno COG está cerrada debido a la Orden Ejecutiva N-29-20; sin embargo, se proporcionará una copia impresa a pedido.

Los comentarios públicos son bienvenidos en la reunión o pueden enviarse por escrito antes de las 5 p.m., 5 de Enero, a Kristine Cai en la siguiente dirección.

Después de considerar los comentarios, los documentos serán considerados para adopción, mediante resolución, por el Consejo de Políticas de Fresno COG en una junta regularmente programada que se llevará a cabo el 28 de Enero, 2021. Los documentos luego se enviarán a las agencias estatales y federales para su aprobación.

APPENDIX J
FORMAL COMMENTS AND RESPONSES

Page intentionally left blank.

At Fresno COG's December 16, 2021 public hearing to receive comments on the Draft 2021 FTIP and corresponding Draft Conformity Analysis, there were no members of the public in attendance, and Fresno COG staff did not receive any comments on the Draft 2021 FTIP documents at the public hearing.

During the 30-day public comment period, two sets of comments were received regarding the Draft 2021 FTIP. Commenters received responses via email, and the comments and responses are also summarized below.

A) **Comments From: Lima Huy, Caltrans**
Date Received: December 28, 2020
Submitted vis: Email
To: Suzanne Martinez
Subject: FCOG 2021 FTIP - Caltrans Comments

Thank you for the opportunity to review FCOG's 2021 FTIP:2021-FTIP-Update-DRAFT-1.pdf (fresnocog.org). We offer the following comments below. Please address each comment by indicating "corrected" or provide an explanation beneath each bullet. Please contact me if you have questions. Thank you.

I. General Comments:

1. Include the RTP number or RTP page number for all projects listed in the FTIP. Please provide this information either in the project description or MPO comment field.

   All projects on the FTIP have the save ID number in the RTP. The listing is located in Appendix F of the FTIP document starting on page F-5.

2. Please provide the web link to FCOG's CMAQ projection selection process procedures.

   https://www.fresnocog.org/project/congestion-mitigation-air-quality-cmaq-program/

3. Page 12, Performance Based Planning and Programming: Title 23 CFR 450.306 requires MPOs to establish performance targets in their metropolitan transportation planning process. The FTIP shall include the adopted performance targets and describe efforts toward achieving those targets. This topic was discussed at the November 17, 2020 CFPG meeting and a Performance Management (PM) template was provided to MPOs for use in preparing the performance planning section of the FTIP. FCOG must include a table for each PM target (PM1, PM2, and PM3), quantifying the progress made towards the achievement of those targets in the 2021 FTIP. Additionally, please email the PM table in Excel format (see attachment) to our office with the Final 2021 FTIP.

   Comment noted. Excel spreadsheet will be provided.

4. Page 17, System Preservation, Operation, and Maintenance Costs: FCOG FTIP must not only include a financial plan but also an analysis of revenues dedicated for maintaining and operating the federal-aid system, including the basis for calculation, and address any anticipated shortfall in available revenues and describe plans to deal with the gap.

   Comment noted. Analysis of revenues dedicated for maintaining and operating the federal aid system is provided in Appendix H. The basis for calculation is also addressed. A plan for potential funding shortfalls and addressing those gaps has been included.

5. Public Involvement Process: Ensure the FTIP explicitly states that public involvement activities and the time established for public review and comment for the FTIP satisfy the Program of Projects (POP) requirements of the FTA 5307 Program. Please indicate where this information can be found in FCOG's FTIP or in the PPP.

   The 2021 FTIP Public Participation Process is located in Appendix D of the 2021 FTIP document.

6. *§450.326 (k): The TIP shall include a project, or a phase of a project, only if full funding can reasonably be anticipated to be available for the project within the time period contemplated for completion of the project.* Please correct any project listed in the FTIP without a valid funding source such as "future fund" in the four-year recognized FTIP period. (See project specific comments below and correct programming.)

   The project in question has been corrected.

7. Grouped Project Backup List must be consistent with programming. (See project specific comments below.)

   The projects in question have been addressed below.

8. *§450.326 (g) (1) Sufficient descriptive material (i.e., type of work, termini, and length) to identify the project or phase.* The project description must contain the following: location+limits+improvement. (See project specific comments below.)

   The project in question has been corrected.

9. Non-Federal Matching funds are typically required for Federal-aid highway projects. The non-federal share match requirement can be satisfied by applying an equal amount of Toll Credits (TCs) allowing a project to be funded with 100% federal funding for federally participating project costs. If TCs are used, it must be notated in either the project description or MPO comment field. (Please see project specific comments below.)

   All projects requiring the 'toll credits' designation have been addressed.

II. Financial Summary:

1. Revenue Table:
   CMAQ apportionment for FFY 2022 = $13,216 plus $6,000 repayment (as indicated in footnotes) = $19,216 but FCOG is reporting $18,980. Please confirm if this dollar value is correct.

   The correct amount should be $19,216. The revenue table has been corrected.

2. Programmed Table:
   Please notify me once FCOG's 2021 FTIP is uploaded into CTIPS. Ensure the financial tables and programming amounts match by generating the MPO Fund Type report in CTIPS.

   Comment noted. Notification will be provided.

III. Project Specific Comments:

1. FRE40401: Programming 2022 does not match back up list, missing local funds (See general comments, bullet #7).

   Local funds are located in Column N of the back up list. The column is titled 'Total Local'.

2. FRE111355: Please provide the EA or PPNO for this project.

   EA#: 0H240, PPNO#: 6288

3. FRE130063: Please provide the EA or PPNO for this project.

   EA#: 34235, PPNO#: 6489

4. FRE071007: Correct programming; (See general comments, bullet #6).

   Project programming has been corrected for FRE071007-LSTMP715. 'future funding' designation revised to SHOPP-AC.

5. FRE150044: Correct programming; (See general comments, bullet #7).

   Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

6. FRE130064: Correct programming; (See general comments, bullet #7).

   Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

7. FRE090123: Correct programming; (See general comments, bullet #8).

   Comment noted. Project's limits were revised for precision to read 'from Merced St to South Ave'.

8. FRE130043: Correct programming; (See general comments, bullet #10).

   Programming corrected to include the use of toll credits for the construction phase.

9. FRE190009: Correct programming; (See general comments, bullet #7).

   Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

10. FRE090130: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

11. FRE090621: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

12. FRE020134: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

13. FRE020133: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

14. FRE090137: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

15. FRE111328: Please provide the EA or PPNO for this project.

    PPNO#: 6289

16. FRE090611: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

17. FRE170002: Correct programming; (See general comments, bullet #10).

    Programming corrected to include the use of toll credits for the construction phase.

18. FRE170009: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

19. FRE170007: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

20. FRE170020: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

21. FRE170028: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

22. FRE170014: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

23. FRE170015: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

24. FRE150059: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

25. FRE150045: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

26. FRE170001: Correct programming; (See general comments, bullet #7).

    Project programming is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

27. FRE170011, FRE190006, FRE190008, FRE190011, FRE190021, FRE150053, FRE040501, FRE130065 – Please confirm that the backup list matches programming for all these grouped projects. (See general comments, bullet #7).

    Project programming for these projects is consistent with the back up listing. Local funds are reported in Column N of the back up list titled 'Total Local'.

Subject: Project RTP/FTIP Listing Inquiry

One item we did notice is the Open to Traffic Year (for FRE21001) should be 2029. Page F-107 showed 2025. Thanks.

Confirmation has been received from our modeling team that the project was, in fact, modeled for 2029. The info on page F-107 is a typo and will be updated for the final version. Thank you for pointing out the discrepancy.

Fresno Council of Governments
2002 RACM Timely Implementation Documentation
2018 RTP / 2021 FTIP CONFORMITY

RACM Commitment	Agency	Measure Title	Measure Description (not verbatim)	Implementation Status 2019 FTIP **Amendment #12** / 2018 RTP Amendment #**3** (as of **08/2020**)	Implementation Status 20**21 FTIP** / 2018 RTP Amendment #**4** (as of **12**/20**20)**
FR-TCM3	Fresno COG	Voluntary Rideshare Program and Employer Incentive Program	Operate Transportation Demand Management Program	Fresno COG continues to implement this program with funding included in the 2020-21 Overall Work Program.	Fresno COG will continue to implement this program. Funding is included in the 2020-21 Overall Work Program.
FR1.1	Clovis / Clovis Transit	Regional Express Bus Program	Review and evaluate travel. Improve and expand system with purchase of new vehicles. Continue to evaluate possible express routes where feasible.	While staff continues to evaluate region transit services, no need has yet been identified.	Staff continues to evaluate regional transit services. No need yet identified.
FR1.2	Clovis / Clovis Transit	Transit Access to Airports	Provide access to Fresno Yosemite International Airport.	Clovis "Roundup" service provides curb to curb access to and from Fresno Yosemite International Airport for senior and disabled residents from their homes while "Stageline" service continues to coordinate with Fresno Area Express (FAX) to provide regular route service to the airport.	Access to and from Fresno Yosemite International Airport continues to be provided by Clovis "Roundup" which provides curb to curb service for senior and disabled residents from their homes. Clovis "Stageline" services continues to coordinate with Fresno Area Express (FAX) to provide regular route service to the airport.
FR5.9	Clovis / Clovis Transit	Bus Pullouts in Curbs for Passenger Loading	Provide bus pullouts as appropriate with new capital improvement or development.	New construction includes bus pullouts.	Bus pullouts are included in new construction.
FR10.2	Clovis / Clovis Transit	Bike Racks on Buses	Include bike racks with new vehicle purchases.	All new fixed route buses are purchased with a bicycle rack on the front of the vehicle.	All new fixed route buses are purchased with a bicycle rack on the front of the vehicle.
FR10.7	Clovis / Clovis Transit	Require inclusion of bicycle lanes on state or federally funded thoroughfare projects.	Locate bicycle lanes on state or federally funded highway projects.	The City of Clovis continues to design and construct bicyle lanes on State and Federally funded projects where funding and right-of-way allows. The City also continues to install bicycle facilities with new development when appropriate.	The city of Clovis has designed and constructed bicycles lanes on State and Federally funded projects where right-of-way and funding allowed. Clovis will continue to install bicycle facilities with all new development as appropriate.
FR19.5	Clovis / Clovis Transit	Transit Stop Improvements	Provide transit stop improvements, including benches, shelters, and lighting.	Improvements ongoing. Damged benches have been replaced or repaired. Improvements will continue to be made to bus stops and shelters, particuarly if routes are expanded.	Ongoing. Damaged benches have been replaced or repaired. Improvements to bus stops and bus shelters will continue, particularly if routes are expanded.
FR5.4	Coalinga	Site-Specific Transportation Control Measures	Intersection improvements through review of proposed developments.	The City of Coalinga has not identified a specific need for this measure at this time but contnues to review the need for this measure at appropriate locations.	The City of Coalinga continues to review the need for this measure at appropriate locations, but has not identified a specific need at this time.

RACM Commitment	Agency	Measure Title	Measure Description (not verbatim)	Implementation Status 2019 FTIP **Amendment** #**12** / 2018 RTP Amendment #**3** (as of **08/**2020)	Implementation Status 20**21 FTIP** / 2018 RTP Amendment #**4** (as of **12/2020)**
FR9.2	Coalinga	Encouragement of Pedestrian Travel	Promotion of pedestrian travel. Expend sidewalks and crosswalks.	All projects in TID table are completed. Private developments are required to install sidewalks as part of the planning and building approval process (Zoning Ordinance).	All projects in TID table are completed. Private developments are required to install sidewalks as part of the planning and building approval process (Zoning Ordinance).
FR-TCM1	Firebaugh	Traffic Flow Improvements	Apply for funding to create park and ride lot.	Project is complete.	Project complete.
FR5.4	Fowler	Site-Specific Transportation Control Measures	Monitor traffic flows and make improvements as needed.	No need has yet to be identified. Vehicular traffic within the City of Fowler does not experience delays associated with geometric or traffic control configurations. Traffic flows are routinely observed and monitored during field excursions within the City.	Vehicular traffic within the City of Fowler does not experience delays associated with geometric or traffic control configurations. Traffic flows are routinely observed and monitored during field excursions within the City. No need yet identified.
FR-TCM1	Fowler	Traffic Flow Improvements	Monitor growth and respond appropriately.	Project is progressing, and is updated on the TID Tables.	Project is progressing, and is updated on the TID Tables.
FR1.2	Fresno / Fresno Area Express	Transit Access to Airports	Public transportation to airports. Implementation of this strategy is in effect.	Airport service is in effect.	Service to airport is in effect.
FR5.9	Fresno / Fresno Area Express	Bus Pullouts in Curbs for Passenger Loading	Provide for bus pullouts. Review the need and evaluate benefits of providing bus pullouts for major projects.	All new street construction and capital improvement projects are constructing far side or mid-block bus bays, as feasible per safety and traffic flow, per City of Fresno Public Works standards.	All new street construction and capital improvement projects are constructing far side or mid-block bus bays, as feasible per safety and traffic flow, per City of Fresno Public Works standards.
FR5.16	Fresno / Fresno Area Express	Adaptive traffic signals and signal timing	Adjust traffic timing and install 470 cameras at various locations.	New traffic signal projects will comply with FHWA and City of Fresno standards for ITS. The City continues to use development fees and grant funds to improve the system.	All new traffic signal projects comply with FHWA and City of Fresno adopted ITS standards. The city continues to use development fees and grant funds to improve system.
FR10.2	Fresno / Fresno Area Express	Bike Racks on Buses	Promotes placement of bicycle racks on buses. All 108 buses have installed bus racks.	New buses include bike racks and all buses have been retrofitted with bike racks.	All buses have installed bike racks. New buses include bike racks.
FR10.4	Fresno / Fresno Area Express	Development of Bicycle Travel Facilities	Accommodate bicycle lanes with new or substantially expanded major street right-of-ways at the time of development.	On-street bike lanes are included in new development and the City of Fresno has used CMAQ funding to install several miles of bike lanes in each FTIP cycle.	New development will continue to construct on-street bike lanes. The City of Fresno has installed several miles of bike lanes in each of the recent FTIP cycles using CMAQ funds in the existing urbanized area.

Fresno Council of Governments
2002 RACM Timely Implementation Documentation
2018 RTP / 2021 FTIP CONFORMITY

RACM Commitment	Agency	Measure Title	Measure Description (not verbatim)	Implementation Status 2019 FTIP **Amendment** #**12** / 2018 **RTP Amendment** #**3** (as of **08**/20**20**)	Implementation Status 20**21** FTIP / 2018 RTP Amendment #**4** (as of **12/2020**)
FR10.5	Fresno / Fresno Area Express	Expedite Bicycle Projects from RTP	Build out bicycle projects at an accelerated rate.	City of Fresno has used CMAQ funding to install several miles of bike lanes in each FTIP cycle and on-street bike lanes are included in new development .	The City of Fresno has installed several miles of bike lanes in each of the recent FTIP cycles using CMAQ funds in the existing urbanized area. New development will continue to construct on-street bike lanes.
FR10.7	Fresno / Fresno Area Express	Require inclusion of bicycle lanes on state or federally funded thoroughfare projects.	Provide adequate right-of-way for bike lanes along all major streets to the extent economically and physically feasible, including streets that are improved with Federal or State funds.	All new projects that are state or federally funded require bike lanes on major streets, where feasible. In some instances, physical or other issues may limit the inclusion of bike lanes.	New projects require bike lanes on major streets, where feasible. In some instances, physical or other issues may limit the inclusion of bike lanes.
FR15.2	Fresno / Fresno Area Express	Pedestrian and Bicycle Overpasses Where Safety Dictates	Evaluate the need for pedestrian and bicycle overpasses as the need arises.	No need has yet to be identified, safety evaluation is continuously ongoing as development proposals are receievd and as traffic patterns change.	Safety evaluation is on-going as development proposals are received and as traffic patterns change. No need yet identified.
FR19.5	Fresno / Fresno Area Express	Transit Stop Improvements	On-going improvement program, including bus stops, benches, and shelters.	Project FRE021510 on the FTIP includes funding for these small scale individual projects while the City of Fresno continues to implement ongoing improvements	Fresno continues to implement on-going improvements. FTIP Project FRE021510 includes funding for these small scale individual projects.
FR5.3	Kerman	Reduce Traffic Congestion at Major Intersections	Continue to monitor traffic flows and street congestion and make improvements on an as-needed basis.	Commitment 5.2/19.25 on Project TID table: Complete.	Commitment 5.2/19.25 on Project TID table: Complete.
FR5.4	Kerman	Site-Specific Transportation Control Measures	Continue to monitor traffic flows and street congestion and make improvements on an as-needed basis.	Projects that include development are required to make improvements that will confrom to the City of Kerman General Plan	Development projects are required to make improvements that will conform to Kerman's general plan.
FR9.3	Kerman	Bicycle/Pedestrian Program	Fund high priority bicycle/pedestrian projects in countywide plans.	All new collector streets are stripped for Class II bicycle lanes.	All new collector streets will be striped for Class II bicylce lanes.

RACM Commitment	Agency	Measure Title	Measure Description (not verbatim)	Implementation Status 2019 FTIP **Amendment** #**12** / 2018 RTP Amendment #**3** (as of **08**/20**20)**	Implementation Status 20**21** FTIP / 2018 RTP Amendment #**4** (as of **12/2020**)
FR-TCM1	Kerman	Traffic Flow Improvements	Continuously evaluate traffic conditions and plan, program, and implement projects to provide free flowing traffic.	The City has completed the latest traffic flow projects and is actively evaluating traffic conditions. The City will plan, program, and implement projects to provide free flowing traffic as needed.	Latest traffic flow project completed. The city will continue to evaluate traffic conditions and plan, program, and implement projects to provide free flowing traffic.
FR9.2	Kingsburg	Encouragement of Pedestrian Travel	Promotion of pedestrian travel. Expanded network of sidewalks and crosswalks to improve pedestrian access.	FR 9.2-FRE 040113 (TID Table) complete. Kingsburg continues committment to bike/ped projects using CMAQ funding.	FR 9.2-FRE 040113 (TID Table) complete. Kingsburg continues committment to bike/ped projects using CMAQ funding.
FR9.5	Kingsburg	Encouragement of Bicycle Travel	Promotion of pedestrian travel. Capital improvements to increase bicycle use. Build out at an accelerated rate to achieve benefits in time for attainment deadline of 2005.	Commitment FR9.5 - FRE 040112 (TID Table) complete.	Commitment FR9.5 - FRE 040112 (TID Table) complete.
FR19.18	Mendota	Pedestrian Facilities	Expanded network of sidewalks and crosswalks to improve pedestrian access.	FR 19.18 (TID Table) complete	FR 19.18 (TID Table) complete
FR-TCM1	Orange Cove	Traffic Flow Improvements	Evaluate traffic conditions and plan, program, and implement projects to provide free flowing traffic	The City's traffic flows are routinely observed and monitored during field excursions. No additional need has yet to be identified.	The first traffic signal was installed in Orange Cove in 2009 at Anchor and South Ave. Traffic flows are routinely observed and monitored during field excursions within the City. No additional need yet identified.
FR5.3	Parlier	Reduce Traffic Congestion at Major Intersections	Continue to monitor traffic flows and street congestion and make improvements on an as-needed basis.	All intersections within the City of Parlier continue to operate at acceptable levels of service.The city will continue to monitor and make improvements as necessary.	All intersections within the City of Parlier continue to operate at acceptable levels of service.The city will continue to monitor and make improvements as needed.
FR5.4	Parlier	Site-Specific Transportation Control Measures	Continue to monitor traffic flows and street congestion and make improvements on an as-needed basis.	FR5.4 (TID Table) Complete. No additional need has been identified. The City routines observes and monitors traffic flows during field excursions.	FR5.4 (TID Table) Complete. Traffic flows are routinely observed and monitored during field excursions within the City. No additional need identified.

RACM Commitment	Agency	Measure Title	Measure Description (not verbatim)	Implementation Status 2019 FTIP **Amendment** #**12** / 2018 RTP Amendment #**3** (as of **08**/20**20**)	Implementation Status 20**21 FTIP** / 2018 RTP Amendment #**4** (as of **12**/20**20**)
FR-TCM1	Parlier	Traffic Flow Improvements	Continue to monitor traffic flows and street congestion and make improvements on an as-needed basis.	No additional need has been identified. The City routines observes and monitors traffic flows during field excursions.	Traffic flows are monitored during field excursions to the City of Parlier. No additional need identified at this time.
FR5.3	Reedley	Reduce Traffic Congestion at Major Intersections	Continue to monitor congestion throughout the City and make improvements as warranted.	City of Reedley continues to monit0or level of service and conduct yearly traffic counts. The City also continues its walkability evaluation and capacity reviews. Reedley has incorporated bike facilities in all developments and all federal aid programs.	The city continues to conduct yearly traffic counts at all of its major intersections, monitoring the level of service. Walkability evaluation and capacity reviews continue. Reedley has incorporated bike facilities in all developments and all federal aid programs.
FR5.4	Reedley	Site-Specific Transportation Control Measures	This measure could include geometric or traffic control improvements at specific congested intersections or at other substandard locations.	No additional action has been identified at this time. City will continue to conduct yearly traffic counts at all of its major intersections, as well as monitor its current level of service.	The City continues to conduct yearly traffic counts at all of its major intersections, monitoring its current level of service. No additional need identified at this time.
FR9.2	Reedley	Encouragement of Pedestrian Travel	Plan, program, and execute projects that encourage both pedestrian and bicycle travel.	FR9.2 (TID Table) Complete.	FR9.2 (TID Table) Complete.
FR10.4	Reedley	Development of Bicycle Travel Facilities	Encourage a variety of capital improvements to increase bicycle use.	FR10.5 (TID Table) Complete. Two Phases: Buttonwillow ditch COMPLETE; Bike path over ditch COMPLETE	FR10.5 (TID Table) Complete. Two phases are complete.
FR10.5	Reedley	Expedite Bicycle Projects from RTP	Build out bicycle and pedestrian plan at an accelerated rate to achieve benefits in time for attainment deadline in 2005.	FR10.5 (TID Table) Complete. Two Phases: Buttonwillow ditch COMPLETE; Bike path over ditch COMPLETE.	FR10.5 (TID Table) Complete. Two phases are complete.
FR10.7	Reedley	Require inclusion of bicycle lanes on state or federally funded thoroughfare projects.	Construction projects that involve state or federal funds shall include provisions for bicycle lanes when practical.	City of Reedley continues its committment to incuding the installation of bike lanes and construction of bike trails wherever it is deemed practical.	The City continues commitment to including the installation of bike lanes and the construction of bike trails whenever practical.

RACM Commitment	Agency	Measure Title	Measure Description (not verbatim)	Implementation Status 2019 FTIP **Amendment** #**12** / 2018 RTP Amendment #**3** (as of **08**/20**20**)	Implementation Status 20**21** FTIP / 2018 RTP Amendment #**4** (as of **12**/20**20**)
FR-TCM1	Reedley	Traffic Flow Improvements	Continuously evaluate traffic conditions and plan, program, and implement projects to provide free flowing traffic.	City of Reedley conducts yearly traffic counts at all of its major intersections, and monitors its current level of service.	The City conducts yearly traffic counts at all of its major intersections, monitoring its current level o service.
FR-TCM4	Reedley	Bicycle Lanes and Facilities	Fund high priority bicycle/pedestrian projects in countywide plans.	City of Reedley remians committed to including the installation of bikes lanes and the construction of bike trails wherever practical. The Reedley Bicycle Master Plan was prepared with the countywide plan in mind and every effort is made to keep and enhance the connectivity of the county plan throughout the City.	The Reedley Bicycle Master Plan was prepared with the countywide plan in mind and every effort was made to keep and enhance the connectivity of the county plan through the City of Reedley. The City is committed to including the installation of bike lanes and the construction of bike trails whenever practical.
FR-TCM5	Reedley	Alternative Fuels Program	Purchase of additional CNG vans.	City transit vans are CNG. No additional need identified.	City transit vans are CNG. No additional need identified.
FR19.18	Reedley	Pedestrian Facilities	Expanded network of sidewalks and crosswalks to improve pedestrian access.	FR19-8 (TID Table) Complete.	FR19-8 (TID Table) Complete.
FR5.4	Sanger	Site-Specific Transportation Control Measures	Continue to monitor traffic flows and street congestion and make improvements on an as-needed basis.	Commitment FR 5.2/19.25/TCM1 in Project TID table is complete.The City of Sanger also continues to monitor increasing traffic flows and congestion in the effort to identify potential project opportunities.	Commitment FR 5.2/19.25/TCM1 in Project TID table is complete.The city continues to monitor increasing traffic flows and congestion to identify potential project opportunities.
FR9.2	Sanger	Encouragement of Pedestrian Travel	Continue to plan, program, and construct projects that encourage pedestrian travel.	The City of Sanger bicycle plan asserts cycling as an alternative and viable mode of transportation ATP and CMAQ funding will be used for bike paths and sidewalks. Subdivision projects are required to install trails and bike lanes along parks, where applicable.	Sanger bicycle plan allows bicycling to become an alternative and viable mode of transportation. Active Transportation Program and CMAQ funding will be used for bike paths and sidewalks. Subdivision projects are required to install various pedestrian trails and bike lanes along with parks where applicable.
FR5.3	San Joaquin	Reduce Traffic Congestion at Major Intersections	Continue to monitor traffic flows and street congestion and make improvements on an as-needed basis.	Traffic levels in the City of San Joaquin do not cause congestion. The City will continue to monitor the need for improvements, but no need is identified at this time.	City of San Joaquin traffic levels do not cause any congestion. The city will continue to monitor the need for improvements. No need identified at this time.

Fresno Council of Governments
2002 RACM Timely Implementation Documentation
2018 RTP / 2021 FTIP CONFORMITY

RACM Commitment	Agency	Measure Title	Measure Description (not verbatim)	Implementation Status 2019 FTIP **Amendment #12 /** 2018 RTP Amendment #**3** (as of **08**/20**20**)	Implementation Status 20**21** FTIP / 2018 RTP Amendment #**4** (as of **12**/20**20**)
FR5.4	San Joaquin	Site-Specific Transportation Control Measures	Continue to monitor traffic flows and street congestion and make improvements on an as-needed basis.	Development projects in the City are required to make improvements that will conform to the General Plan.	All development projects are required to make improvements that will conform to the city's general plan.
FR9.3	San Joaquin	Bicycle/Pedestrian Program	Fund high priority bicycle/pedestrian projects in countywide plans.	All new collector streets are striped for bicycle lanes.	All new collector streets are striped for bicycle lanes.
FR-TCM1	San Joaquin	Traffic Flow Improvements	Continuously evaluate traffic conditions and plan, program, and implement projects to provide free flowing traffic.	As part of the City's adopted Community/General Plan, the city continually monitors traffic conditions and flows under the circyulation/traffic element.	The City of San Joaquin evaluated traffic conditions and trafic flow in the circulation/traffic element the City's adodpted Community/General Plan. No adiditional needs identified at this time.
FR5.4	Selma	Site-Specific Transportation Control Measures	This measure could include geometric or traffic control improvements at specific congested intersections or at other substandard locations.	Traffic in the City is not affected by delays associated with geometrric or traffic control configurations. To this end, traffic flows are routinely observed and monitored duirng field excursions within the City, with no additional need yet to be identified.	Vehicular traffic within the City of Selma does not experience delays associated with geometric or traffic control configurations. Traffic flows are routinely observed and monitored during field excursions within the City. No need yet identified.
FR9.3	Selma	Bicycle/Pedestrian Program	Fund high priority bicycle/pedestrian projects in countywide plans.	FR9.3 (TID Table) complete.	FR9.3 (TID Table) complete.
FR5.2	Fresno County	Coordinate Traffic Signal Systems	Installation of hard-wire and fiber-optic signal interconnection.	System operation continues to be dependent on implementation by the City of Fresno. Fresno County has completed installation of hard-wire and fiber optic interconnection infrastructure on all major corridors under County jurisdiction in the Fresno-Clovis metro area. The City of Fresno has completed ITS Phase 3 which creatied an efficient citiwide traffic coordination system. The total cost for the 3 phases is $15 million (through CMAQ, RSTP). City of Fresno implemented Traffic Signal Mitigation Impact Fees for developer constructed ITS which provides $23 million. All traffic signal projects include ITS per City of Fresno ITS standards. Fresno County, California *Huntington Lake*

Environmental Justice Report

Ensuring Meaningful Involvement For All People

Environmental Justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

7.1 Introduction

This report summarizes key findings from the Environmental Justice Analysis for Fresno Council of Governments' 2018 Regional Transportation Plan (RTP) and Sustainable Communities Strategy (SCS) for the Fresno County region. The analysis demonstrates Fresno COG's compliance as a metropolitan planning organization (MPO) with federal requirements related to Title VI and Environmental Justice in the RTP development process. At the federal level, requirements include: civil rights protections against discrimination in federally-funded programs and federal aid recipients on the basis of a person's race, color, or national origin; and federal environmental justice objectives aimed at avoiding disproportionately high and adverse effects on minority and low-income populations. At the state level, requirements include: civil rights protections against discrimination on the basis of sex, race, color, religion, ancestry, national origin, ethnic group identification, age, mental disability, physical disability, medical condition, genetic information, marital status, or sexual orientation. At the regional level, Fresno COG has adopted environmental justice principles and objectives that promote equity throughout the agency's regional planning efforts. (See detailed goals and strategies in Chapter 2: Policy Elements and Chapter 4: Action Element).

Environmental justice means identifying and addressing disproportionately high and adverse effects if any as a result of the RTP/SCS programs and policies on minority populations and low-income populations to achieve an equitable distribution of benefits and burdens. This also includes the full and fair participation by all potentially affected communities in the transportation decision making process. The analysis helps policymakers, local jurisdictions and the public understand the equity-related implications of implementing the RTP in the region, especially in the disadvantaged communities.

7.2 Tile VI and Environmental Justice Review

Title VI of the Civil Rights Act of 1964 (Title VI) states that "No person…shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance." Title VI establishes the basis for transportation agencies to disclose to the public the benefits and burdens of proposed projects on minority populations. Civil rights have expanded to include sex, age, and disability through the Federal-Aid Highway Act of 1973, Age Discrimination Act of 1975, the Rehabilitation Act of 1973, and Americans with Disability Act of 1990. Title VI was further amended in 1987 to extend non-discrimination requirements for federal aid recipients to all of their programs and activities, not just those funded with federal funds. At the state level, California Government Code Section 11135 prohibits discrimination on the basis of sex, race, color, religion, ancestry, national origin, ethnic group identification, age, mental disability, physical disability, medical condition, genetic information, marital status, or sexual orientation by any agency receiving state funding.

Additionally, Title VI not only bars intentional discrimination, but also unjustified disparate impact discrimination. Disparate impacts result from policies and practices that are neutral on their face (i.e., there is no evidence of intentional discrimination), but have the effect of discrimination on protected groups. Title VI prohibits discrimination by recipients of federal financial assistance on the basis of race, color, and national origin, including the denial of meaningful access for limited English proficient (LEP) persons.

Furthering the principles of environmental justice (EJ), the 1994 Presidential Order (Executive Order 12898) directed every federal agency to make environmental justice part of its mission by identifying and addressing disproportionately high and adverse human health or environmental effects of all programs, policies, and activities on minority populations and low-income populations. Reinforcing Title VI, this presidential order ensures that every federally funded project nationwide considers the human environment when undertaking the planning and decision-making process. The Presidential memorandum accompanying E.O. 12898 underscored certain provisions of existing law that help ensure all communities and persons live in a safe and healthful environment, and identified Title VI as one of several federal laws that should be applied "to prevent minority communities and low-income communities from being subject to disproportionately high and adverse environmental effects."[1]

To implement and ensure compliance with these statutes, federal and state agencies have issued a series of orders, regulations and guidance on environmental justice. The U.S. Department of Transportation (DOT) issued DOT Order 5610.2 in 1997 to "summarize and expand upon the requirements of Executive Order 12898 on Environmental Justice." The order is used as a framework for incorporating Environmental Justice into every DOT activity, policy, and program. Expanding on DOT Order 5610.2, in December 1998 the Federal Highway Administration (FHWA) issued FHWA Order 6640.23 that requires the FHWA to implement Environmental Justice practices described in both DOT Order 5610.2 and Executive Order 12898 into all FHWA activities. DOT Order 5610.2 was updated in 2012, reaffirming DOT's commitment to environmental justice and clarifying certain aspects of the original Order.[2] FHWA Order 6640.23A was issued in June 2012, updating and replacing the previous 1998 Order.[3] Fresno COG is subject to these laws and executive orders.

The overlap between the statutory obligation placed on Federal agencies under Title VI to ensure nondiscrimination in federally assisted programs

1 https://www.epa.gov/sites/production/files/2015-02/documents/clinton_memo_12898.pdf
2 DOT Order 5610.2(a), https://www.fhwa.dot.gov/environment/environmental_justice/ej_at_dot/orders/order_56102a/
3 FHWA Order 6640.23A, https://www.fhwa.dot.gov/legsregs/directives/orders/664023a.cfm

administered by State and local entities, and the administrative directive to Federal agencies under the Executive Order to address disproportionate adverse impacts of Federal activities on minority and low-income populations explain why Title VI and Environmental Justice are often paired. The clear objective of the Executive Order and Presidential memorandum is to ensure that Federal agencies promote and enforce nondiscrimination as one way of achieving the overarching objective of environmental justice.[4]

The Environmental Justice Analysis is intended to measure both the benefits and burdens associated with the transportation investments included in the 2018 Regional Transportation Plan, and to ensure that the environmental justice communities living within Fresno County share equitably in the benefits of the Plan's investments without bearing a disproportionate share of the burdens. To that end, Fresno COG will ensure nondiscrimination practices because of race, color, or national origin as specified in Title VI as well as sex, race, color, religion, ancestry, national origin, ethnic group identification, age, mental disability, physical disability, medical condition, genetic information, marital status, or sexual orientation as specified in California Government Code §11135.

7.3 Fresno COG's Role

As a federally designated MPO, Fresno COG is required to comply with the above mentioned rules and policies. A RTP Environmental Justice Analysis assures that Fresno COG conforms to federal EJ principles, policies and regulations, including Title VI. Fresno COG is required by law to determine whether the RTP/SCS benefits low-income and minority communities equitably and whether

4 FTA Circular 4702.1B: Title VI Requirements and Guidelines For Federal Transit Administration Recipients https://www.transit.dot.gov/sites/fta.dot.gov/files/docs/FTA_Title_VI_FINAL.pdf

the Plan's transportation investments have any disproportionate negative effects on minority and/or low-income populations in the Fresno COG region, and to minimize negative impacts where they exist. To certify compliance with Title VI and address environmental justice, Fresno COG's three main principles underlying environmental justice are:

- To avoid, minimize, or mitigate disproportionately high and adverse human health or environmental effects, including social and economic effects, on minority and low-income populations.
- To provide opportunities for full and fair participation by all potentially affected communities in the transportation decision making process.
- Prevent denial of, reduction in, or significant delay in the receipt of benefits by minority and low-income populations

Environmental justice is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to developing, implementing and enforcing environmental laws, regulations, and policies.

Fair treatment means that no group of people should bear a disproportionate share of the negative environmental consequences resulting from industrial, governmental and commercial operations or policies.

Meaningful involvement means that:

- People have an opportunity to participate in decisions about activities that may affect their environment and/or health
- The public's contribution can influence the regulatory agency's decision
- Community concerns will be considered in the decision making process
- The decision makers seek out and facilitate the involvement of those potentially affected

7.4 Plan Development Process

The 2018 RTP was developed with meaningful and extensive participation from key stakeholders, including community-based advocates, labor organizations, public agencies, business groups, and individual residents. This section describes the public outreach efforts focused on specifically reaching and engaging EJ communities and EJ population groups. Details on overall public participation activities for the RTP process is described in Chapter 6: Public Participation.

Consistent with Fresno COG's 2016 Public Participation Plan and Title IV Program: Plan or Engaging Individuals with Limited English Proficiency (LEP), Appendix 1, outreach for the RTP incorporated strategies to engage LEP community members by providing interpretation, translated flyers, television and social media campaigns in Spanish and other languages as requested. See public engagement section for additional details.

Environmental Justice Subcommittee

The Environmental Justice Subcommittee serves under Fresno COG's Transportation Technical Committee (TTC), enjoying the benefits of a formalized process as it feeds into Fresno COG's structured, standard committee process. The subcommittee generally meets when Fresno COG staff, the TTC, the Policy Advisory Committee or the Fresno COG Policy Board request recommendations on issues involving EJ populations. Subcommittee members report all advisory actions to the TTC through an EJ representative. Then the TTC's recommendations are referred to the Policy Advisory Committee and Fresno COG Policy Board as needed. The subcommittee also reports to the RTP Roundtable through the Subcommittee Chair, who holds a seat on the Roundtable.

The subcommittee has 11 positions to provide full, diverse and equitable representation from designated EJ populations:

- Three Fresno COG member agencies representatives:
    - Local agency urban
    - East side local agency rural
    - West side local agency rural
- Four minority representatives for the following ethnicities representative of Fresno County's population:
    - Hispanic
    - African American
    - Asian
    - American Indian
- Two low-income representatives
- One senior (65 or older) representative
- One person with disabilities

The Environmental Justice Subcommittee helped to shape the development of the EJ Analysis. The subcommittee met five times to determine the thresholds and criteria for EJ populations.

The following is a summary listing of the main topics discussed:

- Regional Transportation Plan: purpose and goals
- Selecting the EJ indicator for the SCS Scenarios
- Federal definition of EJ populations
    - Minority
    - Low Income
- Expanding EJ populations to include the following "Vulnerable Communities":
    - Elderly
    - No vehicle availability
    - Single parent household
    - Housing cost burden: >30% household income spent on housing
    - Educational attainment: over 25 years old without a high school diploma
    - Linguistic isolation: no one in household speaks English "very well"
    - Persons with disabilities
- Fresno County demographics (focused on race & income levels)
- Selection of EJ population parameters
- Selection of Performance Indicators for EJ analysis
- Approval of EJ thresholds and methodology
- Draft EJ Analysis review and comment

The EJ subcommittee approved that Access to Community Resource: Combination of both Mobility and Accessibility as the SCS indicator; established and approved the methodology and threshold for the countywide EJ population and the low income threshold.

7.5 Outreach and Public Engagement Efforts

As discussed above, RTP Chapter 6: Public Participation details the RTP's overall outreach process, and includes several strategies and tools specifically for engaging disadvantaged communities and EJ populations. For example, Fresno COG's mini-grant program provided seven, $5,000 grants for community-based organizations to assist COG staff in soliciting ongoing public input for key activities associated with the 2018 RTP/SCS, including developing scenarios, soliciting RTP projects and selecting a preferred scenario. Several mini-grantees walked door-to-door to meet with neighbors, used online marketing, e-blast and social media communication; canvased EJ communities with surveys, engaged schools to distribute materials and attended community- and civic group-sponsored events.

The mini-grant recipients included:

- Public Health Institute — Cultiva La Salud
- Fresno State Office of Community and Economic Development
- Central California Environmental Justice Network
- Central California Asthma Collaborative
- Tides Center/Leadership Counsel for Justice & Accountability
- Fresno Building Healthy Communities

Mini-grantees began working in late March/early April and continued through the draft 2018 RTP's release in spring 2018. They initially worked to encourage participation in the April 2017 Fresno COG RTP/SCS workshop and online survey.

The outreach campaign included hosting evening community workshops and meetings, providing meals for families, providing childcare services, translating all materials and presentations into Spanish and providing onsite interpretation. Beyond traditional meetings and workshops, staff and mini grantees utilized television ads and social media posting as well as attended community/civic events, resource fairs and farmers markets, to engage residents, stakeholders, government institutions, and community and neighborhood associations.

Then, each organization organized one or more RTP's transportation needs workshops in June 2017. Mini-grant recipients hosted 15 community workshops throughout the County between June 5 and July 6, 2017, where 516 people attended workshops, and 413 of them completed the workshop demographic survey. An online survey in English and Spanish allowed transportation project input for

those who could not attend the workshops. The survey was available through July 9, 2017. In total, Fresno COG received online input from 92 participants.

The June 2017 outreach efforts were focused on providing the public an opportunity to provide transportation project suggestions that could be submitted by local agencies in response to the RTP call for projects issued July 1, 2017. Fresno COG and mini-grantees advertised the workshops via TV spots aired on KSEE 24 and KGPE 47, as well as interviews with Central Valley Today and Univision, a Spanish-language television station.

During the workshops and through the online portal, Fresno COG received 1,218 suggestions for projects in English and Spanish. All of the projects suggestions were collected and forwarded to the appropriate local agencies for consideration as they developed their list of RTP projects. In fall 2017, Fresno COG released four SCS scenarios, along with the analysis and modeling results for each, for public review and selection. Both Fresno COG staff and mini-grantees held more than 20 informational booths and 11 presentations and throughout the region, with a targeted focus to further engage disadvantaged communities. Information booths were staffed at rural framers markets, community resource fairs, employee fairs, festivals, college campuses, with several on the weekends and evenings. In addition, fliers in Spanish and English were distributed to inner-city and rural transit riders on buses and at stations. Participants were encouraged to share which of the four scenarios best aligns with their priorities and vision for Fresno County, as well as to provide feedback concerning negative impacts, if any, they foresee for their community resulting from those scenarios not selected.

Staff collected 1,339 completed scenario preference surveys online or at outreach events and through presentations in 11 communities, from residents living in 29 towns and cities, covering 50 zip codes throughout the county. Of the 1,339, 1,127 ballots included information for income and household size. Of these ballots, approximately 469 were below the EJ Subcommittee-established poverty threshold of less than 150% of the poverty level and 78.1% of those surveyed identified as non-white.

EJ community representatives requested that Fresno COG specifically include the following question in the preferred

scenarios selection surveys: "What negative impacts to your community, if any, do you foresee from the other scenarios." Fresno COG included this question in the survey and results varied drastically. All the final outreach materials, participant demographics, survey results, project recommendations and all public comments received are available on Fresno COG's RTP webpage.

In response to recommendations by the RTP Roundtable and also through letters from EJ community representatives, the Environmental Justice Analysis has been updated from the prior year to include the following two additional indicators:

- housing mix, as delineated by EJ and non-EJ areas
- air contaminant exposure, which is measured by the percent of EJ population relative to non-EJ population living within 500 feet of Class 1 (major highways) and Class 2 (expressways) roadways

The outreach measures listed above demonstrate Fresno COG's commitment to an inclusive and transparent public engagement process to meaningfully include all populations, race, socio-economic classes and those living within the EJ communities throughout the RTP/SCS process; and, that input received from EJ communities have been meaningfully considered.

7.6 Fresno County Demograhpic Profile

Fresno County is the second largest county in the San Joaquin Valley, encompassing approximately 6,000 square miles. As the nation's third highest-grossing agricultural county, Fresno County's gross value of agricultural products was $6.6 billion in 2015 and $6.2 billion in 2016. The estimated population as of January 1, 2017 was 995,975 placing Fresno as the tenth most populous county of the 58 counties in California. There are fifteen incorporated cities and the county contains a federally recognized urbanized area, known as the Fresno-Clovis Metropolitan Area (FCMA), with a population of 636,594. The City of Fresno is now the fifth largest city in the state, with a population of 525,832.

Table 7-1: Fresno County Demographics

Race/Ethnicity	Population	Percent
White	308,759	34%
Hispanic or Latino	446,727	49.2%
Black or African American alone	43,673	4.8%
American Indian and Alaska Native alone	4,844	0.5%
Asian alone	83,715	9.2%

Sources:
**2000 US Census*
***2006-2010 American Community Survey*
****California Department of Finance Population Projections*

As indicated in the Regional Context Chapter, the population growth rate of Fresno County has outpaced that of California and the United States. During the 40-year period from 1970-2010, Fresno County's population increased by 125% compared to 87% and 52% for the state and nation.

Fresno County has been plagued with high unemployment. The County's 2016 unemployment rate was 9.4% in contrast to 5.4% for the State and 4.9% for the Nation. Educational attainment levels for Fresno County residents lag behind those of California and the United States. Only 19.4% of persons 25 years of age and older in Fresno County have a bachelor's degree or higher, compared with 31.4% for the State and 29.8% for the Nation. 15.5% of the residents have less than a 9th grade education in contrast to 10.0% for the State and 5.7% for the Nation.

With high unemployment and low educational attainment, Fresno County is plagued with a low median household income. Fresno County's median household income of $45,223 is far below the State and Nation's incomes of $61,818 and $53,889, respectively. Figure 7-2 shows the concentration of Low Income.

The residents of Fresno County are more ethnically diverse than that of California and the United States. In 2010, 67.3% of the County's inhabitants were minority (non-white) compared to 59.9% for the State of California and 36.3% for the Nation. Figure 7-1 shows the concentration of minority populations throughout Fresno County. Tables 7-1 through 7-3 provide further demographic breakdown.

Furthermore, historical trends and demographic projections indicate that Fresno County's Hispanic population is growing as the white population has been shrinking.

7.7 Environmental Justice Population Definition

The EJ Analysis' underlying methodology compares benefits and burdens from proposed policies and investments on Environmental Justice population groups (minority and low-income) and across different geographies (EJ and Vulnerable Communities vs. the remainder of the region) and (EJ vs. the remainder of the region). The section below defines these populations and geographies.

Environmental Justice Analysis Methodology

EJ Population Groups
- Minority and or low-income

Comparison Across Geographies
- EJ vs. the remainder of the region
- EJ & Vulnerable Communities vs. the remainder of the region

Minority

"Minority population" means "any readily identifiable groups of minority persons who live in geographic proximity, and if circumstances warrant, geographically dispersed/transient persons (such as migrant workers or Native Americans) who will be similarly affected by a proposed DOT program, policy or activity."[5] Minority populations include persons who identify as any of the following groups as defined by the Census Bureau[6] in accordance with guidelines provided by the U.S. Office of Management and Budget, as well as DOT Order 5610.2(a).

- Black or African-American – A person having origins in any of the Black racial groups of Africa.
- Hispanic or Latino – A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.
- American Indian or Alaska Native – A person having origins in any of the original peoples of North and South America (including Central America) and who maintains tribal affiliation or community attachment.
- Asian – A person having origins in any of the original

5 DOT Order 5610.2(a), https://www.fhwa.dot.gov/environment/environmental_justice/ej_at_dot/orders/order_56102a/
6 US Census Bureau's definitions for race and ethnicity: http://www.census.gov/topics/population/race/about.html.

Figure 7-1: Concentration of Minority Population

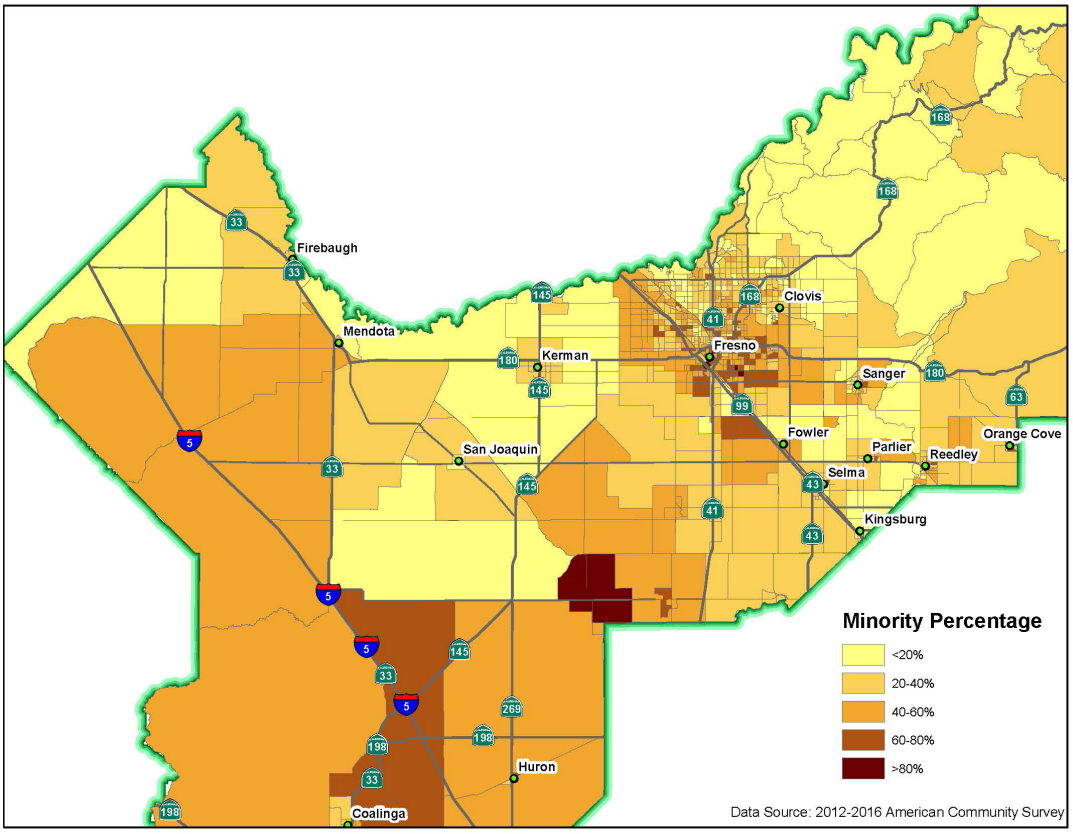

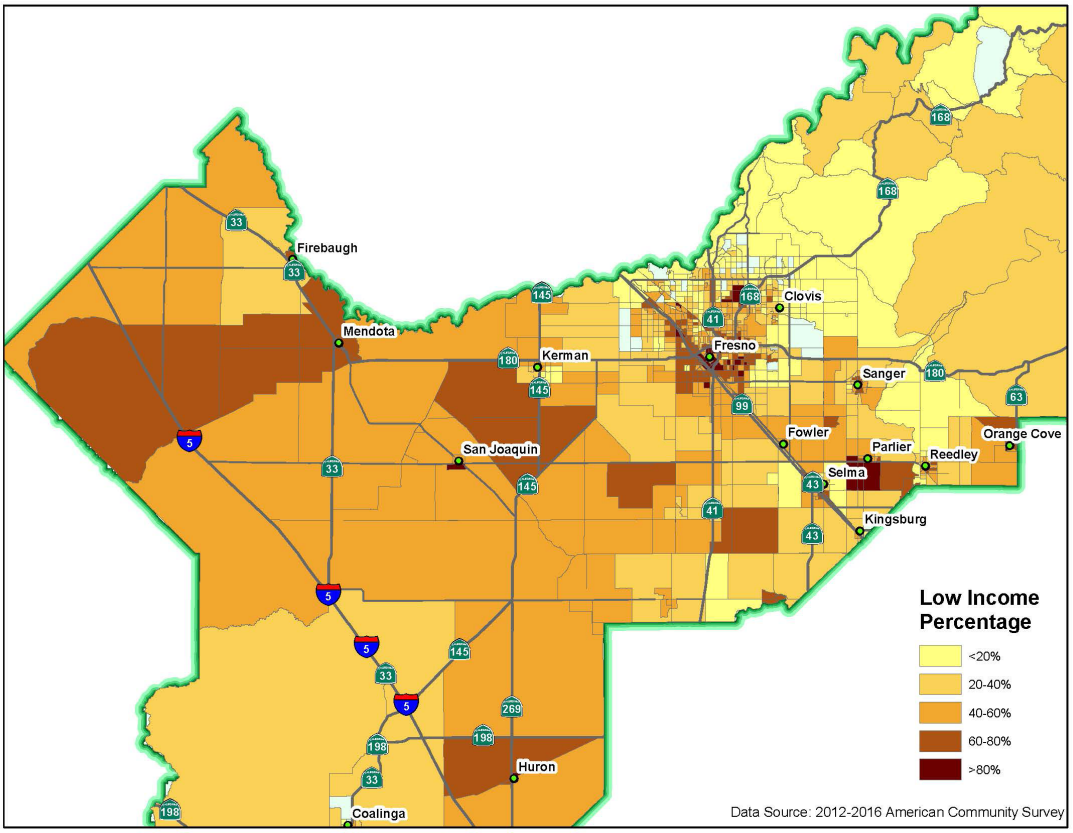

Figure 7-2: Concentration of Low Income

peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.

- Native Hawaiian or Other Pacific Islander – A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

The non-EJ population includes those persons who identify as white and not Hispanic or Latino.

Low-Income

Low-income population means any readily identifiable group of low-income persons who live in geographic proximity, and, if circumstances warrant, geographically dispersed/transient persons (such as migrant workers or Native Americans) who will be similarly affected by a proposed DOT program, policy or activity.[7] *The EJ Subcommittee define persons as low-income if they live in a household with incomes less than 150% of the federal poverty level.*

The Department of Health and Human Services (HHS) issues the annual federal poverty thresholds for individuals based on a combination of an individual's household composition, size and income in Fresno County. In 2017, 100% of the federal poverty level was $12,060 a year for a single person living alone, and approximately $24,600 a year for a family of four.[8] As of the 2015 American Community Survey, approximately 26.8% of Fresno County's population was living below the federal poverty line.

7 DOT Order 5610.2(a), https://www.fhwa.dot.gov/environment/environmental_justice/ej_at_dot/orders/order_56102a/
8 HHS Poverty Guidelines for 2017 https://aspe.hhs.gov/poverty-guidelines

Fresno COG staff used demographic data from U.S. Census American Community Survey 2015 Summary Tables to develop a database with estimated socioeconomic and travel characteristics. This database was used to map EJ communities within Traffic Analysis Zones (TAZ) to determine whether EJ communities are sharing both the benefits and burdens associated with the Plan's projects. A TAZ is an area similar in size to a neighborhood or Census block group. TAZs can range in size from approximately ½ miles square within a metropolitan area to much larger areas in low-density outlying areas of the countryside. There are roughly 2,000 TAZs within Fresno County.

EJ and Vulnerable Communities Thresholds

Fresno COG staff used its travel forecasting software to produce EJ communities' travel characteristic estimates, comparing them to non-EJ communities across the county and evaluate travel-related equity issues. To determine whether EJ populations would be affected by a proposed program, project, or activity, the EJ Subcommittee and Fresno COG had to identify "EJ TAZs". The EJ Subcommittee defined EJ TAZs as those traffic analysis zones with the highest concentration of minority and/or low income populations, accounting for a total of 30% of the entire county's population (EJ TAZ).

The EJ Subcommittee expanded the EJ analysis to identify census tracts that were most vulnerable to becoming "EJ TAZs." "Vulnerable Communities" (VC) are defined as low-income TAZs that were not included in the EJ TAZs and had the highest concentration of the 6 burdens listed below accounting for an additional five percent of the entire county's population (VC TAZ).

- Housing cost burden: high housing cost-to-income ratio (30%+ income spent on housing)
- Single-parent households
- Elderly (75+)
- Educational attainment: 25 years and older without a high school education
- Linguistic isolation: no one in the household speaks English "very well"
- Persons with disabilities

In total, 35% of the Fresno County region's population qualifies as living within an environmental justice community.

EJ Community vs. Vulnerable Community

EJ Community
- 30% of entire county population
- Low income **and/or** minority TAZ

Vulnerable Community
- 5% of entire county population
- Low income TAZ that were not included in EJ with highest concentration of:
  - Housing cost burden: high housing cost-to-income ratio (30%+ income spent on housing)
  - Single-parent households
  - Elderly (75+)
  - Educational attainment: 25 years and older without a high school education
  - Linguistic isolation: no one in the household speaks English "very well"
  - Persons with disabilities

Out of 1,963 TAZs in Fresno County, 510 TAZ are considered EJ communities as defined by the EJ Subcommittee, and 117 TAZs meet the Vulnerable Communities criteria. Combined, there are a total of 627 EJ + VC TAZs which represent 35% of the total Fresno County population.

Fresno COG took into consideration the Cal EnvrioScreen data to further understand burdens beyond what the current modeling capacity could provide. The California Environmental Protection Agency (CalEPA) and the Office of Environmental Health Hazard Assessment (OEHHA) developed the California Communities Environmental Health Screening Tool (CalEnviroScreen). CalEnviroScreen is a data-driven mapping tool that helps identify California communities most affected by multiple sources of pollution and most vulnerable to pollution's adverse effects. CalEnviroScreen uses environmental, health, and socioeconomic information to produce a numeric score for each Census tract in the state.[9]

CalEnviroScreen helps establish which areas have higher relative environmental burdens in an effort to increase environmental law compliance in disproportionately impacted areas. Additionally, CalEnviroScreen informs the identification of disadvantaged communities pursuant to SB 535 (De León, Chapter 830, Statutes of 2012), based on geographic, socioeconomic, public health and environmental hazard criteria.[10] Figure 7-4 identifies the communities CalEPA has designated as disadvantaged under SB 535.[11]
There are 119 census tracts in Fresno County that fall within the top 25% of highest-scoring Census tracts according to CalEnviroScreen. Census tracts with the highest scores are the most burdened by air pollution, environmental and other socio-economic factors. The State of California's Climate Change Initiative has worked to target Cap-and-Trade program expenditures and other funds to these designated Census tracts.

Figures 7-5 and 7-6 show maps of SB 353 and Cal EnviroScreen that are overlaid with the EJ TAZs. Both maps illustrate that a majority of Fresno County census tracts identified in SB 535 (De Leon) Disadvantaged Communities and the Cal EnviroScreen 3.0 directly overlap with the EJ and Vulnerable Communities TAZ. It further emphasizes that transportation investments focused in these areas are in line with the States priorities for mitigating neighborhoods that are most burdened and confirms that the designated EJ TAZs the 2018 RTP are appropriately captured.

7.8 Measuring the Benefits and Burdens

To measure the benefits and burdens of the proposed 2018 RTP projects on disadvantaged communities, the subcommittee and RTP roundtable approved the following seven quantitative performance measures. Performance measures are separated into 4 subcategories:

- transportation
- financial
- land use/housing
- air quality

Modeling Results

The following section analyzes the performance indicator results comparing 2018 RTP/SCS' regional benefits and burdens in terms of transportation improvements and investments between EJ/EJ+VC and non EJ areas.

Transportation

Accessibility and Mobility

Accessibility and mobility are defined as the ability to move throughout the region, and the time it takes to reach desired destinations. Desired destinations were defined as major job centers, medical facilities, parks and schools. Specifically, accessibility measures the ease of reaching defined areas of interest during AM peak travel time. Mobility measures the travel time it takes to return from the defined areas of interest during PM peak time. Both are measuring average auto and transit travel times to demonstrate the worst possible congestion scenario between the base year 2014 and 2042 Build.

The goal for both accessibility and mobility is to ensure that EJ TAZs throughout the county have average travel time lesser than or comparable to the Non-EJ TAZs. The analysis in general shows that under all conditions, EJ TAZs have average travel times to areas of interest equal to or shorter than the travel times from non-EJ TAZs for all modes of travel (drive alone, carpool and transit) in the Fresno-Clovis SOI, the remainder of the county, as well as countywide. The exception is transit in the rural county, where the EJ travel time is higher than the non-EJ travel time. This is probably to be expected because of the large, low populated EJ areas in the far western part of the county. Any transit trips from rural areas would have to include the time necessary to get from a home to a transit stop, in addition to the comparatively longer transit ride itself. Fresno County Rural Transit Agency (FCRTA) is constantly reviewing routes and seeking solutions for unmet needs by monitoring demonstration routes; however, due to ridership and fare box restrictions, it is difficult to maintain new routes in unincorporated areas of Fresno County beyond the initial demonstration period because actual ridership and fare box recovery often fails to meet the minimum State standards for public transit agencies.

Accessibility and mobility can be an indicator of travel demand. By measuring the travel time, a high number of travel minutes indicate that the demand can be overburdening the limited capacity of the roadway system. This affords an opportunity to further initiatives in ridesharing, van pooling, transportation network company (TNC) and improve the capacity of passengers per vehicle per trip. Travel delays can incentivize transit investment, land-use developments surrounding affordable and efficient transit services over time can lead to changes in

Table 7-4: Accessibility - Cumulative Average Peak Travel Times (Minutes)

Mode	2014 Base	2042 Build
Fresno-Clovis SOI:		
Drive Alone	15 (14) [15]	16 (15) [15]
Shared-Ride	13 (13) [13]	14 (14) [14]
Transit	35 (32) [32]	32 (29) [29]
Remainder of County:		
Drive Alone	37 (26) [26]	37 (27) [26]
Shared-Ride	33 (23) [23]	33 (23) [23]
Transit	45 (45) [46]	45 (45) ***[46]***
Countywide:		
Drive Alone	22 (18) [18]	22 (19) [19]
Shared-Ride	19 (16) [16]	20 (17) [17]
Transit	36 (33) [34]	32 (30) [30]

Table 7-5: Mobility - Cumulative Average Peak Travel Times (Minutes)

Mode	2014 Base	2042 Build
Fresno-Clovis SOI:

Shared-Ride	14 (14) [14]	16 (16) [16]
Transit	35 (32) [32]	32 (29) [29]
Remainder of County:		
Drive Alone	38 (27) [27]	52 (29) [29]
Shared-Ride	34 (24) [24]	44 (25) [25]
Transit	45 (45) [46]	44 (45) ***[46]***
Countywide:		
Drive Alone	23 (20) [19]	29 (22) [22]
Shared-Ride	20 (17) [17]	24 (19) [19]
Transit	36 (33) [34]	33 (30) [30]

Values represent travel time in minutes by: Non-EJ TAZs, (EJ TAZs), [EJ+VC TAZs]
Bold designates where EJ travel times are higher than non-EJ travel times
Italics designates where EJ+VC travel times are higher than non-EJ travel times

travel patterns to utilize alternative travel modes. Overall accessibility and mobility indicate that EJ and EJ+VC TAZ's will perform better when compared with non-EJ TAZs in the Fresno-Clovis SOI, the remainder of the county and countywide. As shown in Table 7-4 and Table 7-5, Fresno-Clovis SOI had shorter average travel times than the remainder of the County and Countywide. This was to be expected since metropolitan commutes are shorter than rural commutes. Considering that countywide is a combination of both rural and urban commutes, it would be natural to assume that Fresno-Clovis SOI would have the shortest commute times and remainder of the County would have the longest times, with Countywide slightly closer to Fresno-Clovis.

EJ TAZs and EJ+VC TAZ's had equal to or shorter average travel time than all TAZs in all instances except for rural transit trips, which had slightly higher travel times than non-EJ TAZs under all situations. This is once again probably because of the large, low-populated EJ areas in the far western part of the county. Fresno COG will continue to work with FCRTA and the EJ Taskforce to address rural transit riders' needs in Fresno County. Countywide EJ and EJ+VC TAZs travel times was lower than Non EJ TAZs.

Reliability

Reliability is estimated as a percent of level of service E or worse VMT inside the EJ TAZs as well as for non-EJ TAZs. A Level of Service of E or worse states that the roadway is operating at or near capacity, with long queues developing on all approaches and long delays. Reliability of the roadway system is important to measure since the time spent in congested traffic delays means longer idling time which produces higher levels of pollutants and makes accessing jobs and service more difficult.

With 2042 build conditions, EJ TAZs in the Fresno-Clovis SOI, have a higher percentage of overall VMT operating at level of service E or worse when compared with non-EJ TAZs. As shown in Table 7-6, this increase in congestion can be attributed to the fact that the majority of the congested roadways in the urban core traverse thru a highly concentrated portions of EJ TAZ's.

Although the percentage congested VMT may be higher for EJ areas (6.5 compared to 5.8 for Non EJ), the number of Congested Average Daily VMT in the Countywide EJ areas and EJ +VC area are less than half of the Non-EJ areas and therefore indicate there is not an adverse impact to environmental justice communities.

Table 7-6: Percent Average Daily Vehicle Miles Traveled (VMT)
LOS E or Worse Conditions (Very Congested)

Mode	2014 Base	2042 Build
Average Daily VMT		
Fresno-Clovis SOI	10,967,288 (4,592,068) [5,320,395]	14,761,005 (6,171,503) [7,050,018]
Remainder of County	13,436,253 (4,258,335) [5,009,755]	19,498,768 (6,208,884) [7,217,818]
Countywide	24,403,541 (8,850,403) [10,330,150]	34,259,773 (12,380,387) [14,267,836]
Congested Average Daily VMT		
Fresno-Clovis SOI	319,055 (213,093) [221,676]	1,116,590 (667,779) [689,017]

Values represent VMT LOS E or worse designated as Non-EJ TAZs (EJ TAZs).
Bold designates where EJ VMT LOS E or worse is a higher percentage than the non-EJ percentage

Financial

Transit Investment Effectiveness

Transit investment effectiveness is measured by calculating the percentage of the new added average number of daily passenger miles traveled (PMT) served by RTP transit projects in 2042 compared to 2014. The goal for transit investment effectiveness is for EJ TAZs to show an increased percentage of transit person miles traveled. The EJ area within the Fresno-Clovis SOI will increase at a greater percentage due to planned higher density developments surrounding transit corridors, populations living within proximity to transit and additional transit options such as Bus Rapid Transit services. Overall, the countywide transit investments in EJ communities will increase passenger miles traveled by an additional 31%. Please refer to Table 16 in Appendix H for the analsysi result.

Distribution of Investments

Equitable distribution of transit investment is measured by comparing the total transit person miles traveled (PMT) by the total transit investment through 2042. Transit functions as a system where the main transit investments connects to the surrounding communities; therefore, the total investment in transit as a whole ($1,176,850,000) was used to evaluate equity in the distribution of investment. The goal for investment equity is to show that the investment per PMT in EJ TAZs is equal to or greater than non EJ TAZs.

As shown in Table 17 in Appendix H, countywide EJ TAZs and EJ+VC TAZs are provided with approximately the same amount of investment per passenger miles traveled as Non EJ TAZs. It is worth noting that not all rural transit funds (such as LTF formula funds) are administered thru Fresno COG and therefore are not reflected in the 2018 RTP investment total which may contribute to the difference in the expenditure for Non EJ and EJ areas in the category Remainder of the County.

Land Use/Housing

Housing Product Mix

Housing mix is another important indicator for EJ communities, where housing affordability weighs heavily on a household's ability to pay for other critical needs, such as food, clothing, and transportation. A more diverse housing mix can help to assure that individuals and families at all income levels can find safe and affordable housing. A stock of multifamily units can contribute to additional economic housing options since multifamily units tend to be more affordable than single family units.

The 2018 RTP assumes 47,484 new single family, 32,391 new multifamily units and 5,137 new townhomes over the next 20 years to accommodate a countywide population that is anticipated to grow to an estimated 1,347,000 persons by 2042. See Growth Forecast in SCS Chapter. The 2018 RTP/SCS plans additional, new housing developments with a greater emphasis on increasing the amount of multifamily housing options in the EJ communities compared to non-EJ areas. Multifamily and townhome units increase by two and five percent with the projected growth in 2042.

The 2042 Total Multifamily and Townhome units account for more than 50% of the new housing products mix in EJ+VC areas compared to 27% in Non EJ, Non VC communities. Table 18 in Appendix H provides the analysis of housing product mix.

Air Quality

Air Contaminant Exposure

Freeways are one of the most pressing concerns for air pollution. Studies suggest that health risks are associated with locating housing near freeways as populations in areas surrounding freeways may have increased risk of asthma, non asthma respiratory symptoms, impaired lung

Table 7-7: Air Contaminant Exposure
Household Units Within 150 Meters of Class 1 and Class 2 Roadways

	2014 Base		2042 Growth		2042 Total	
	HU in Buffer	% HU in Buffer	HU in Buffer	% HU in Buffer	HU in Buffer	% HU in Buffer
Total	26,842	9.18%	10,274	11.98%	37,116	9.81%
EJ	10,831	14.55%	2,396	11.29%	13,227	13.83%
Non-EJ	16,011	7.34%	7,878	12.21%	23,889	8.45%
EJ+VC	11,796	13.27%	2,696	11.45%	14,492	12.89%
Non-EJ, Non-VC	15,046	7.39%	7,578	12.18%	22,624	8.51%

function, and cardio vascular mortality.[12] The Center for Disease Control (CDC) state that traffic emissions are highest at the point of release and typically diminish to near background levels within 150 to 300 meters of the roadway; however, the potential exposure zone around roads can vary considerably depending on the pollutant, traffic volume, ambient pollution concentrations, topography, and land use. In terms of traffic density, adverse health effects associated with residential proximity to roads with average daily traffic volume (ADT) as low as 10,000 vehicles per day.[13] In contrast, the California Air Resource Board published in 2005 the Air Quality And Land Use Handbook: A Community Health Perspective which recommends siting new sensitive land uses such as residence and schools at a distance of greater than 500 feet of a freeway or from with urban roads of 100,000 ADT, or rural roads with 50,000 ADT.[14] Since the publication of the 2005 Handbook, research has demonstrated the public health, climate, financial, and other benefits of compact, infill development along transportation corridors. Moreover, new research has demonstrated promising strategies to help decrease pollution exposure near their sources. These strategies are the focus of a Technical Advisory report. [15]

There are very few roads in the Fresno County region that meet the ARB threshold of urban roads with 100,000 ADT, or rural roads with 50,000 ADT and would not adequately capture the impacts of increased traffic volumes. Recommendations from stakeholders suggest that the CDC methodology would better represent the region's averaged daily traffic and illustrate a more accurate accounting of the built environment and future impacts. Therefore, Fresno COG has adopted the CDC's methodology for measuring Air Contaminant Exposure. This methodology closer aligns with the region's ADT and would localize the analysis to include express ways such as Herndon Ave and Jensen Avenue.

The Air Contaminant Exposure indicator measures the number of households within the impacted area of 150 meters or approximately 500 feet from major highways (Class 1) or as other freeways and expressways (Class 2) which is consistent with the CDC's methodology.

As shown in Table 7-7, the analysis concludes that with a balanced growth plan, EJ and Non EJ communities are showing housing unit growth on average of 11.5%. The 2042 Growth assumes 7,878 more units in Non EJ areas compared to 2,396 units in EJ areas. When vulnerable communities are added, there are only an additional 300 units which is less than two thirds of the total new household units. In the 2042, Total (which include existing and new households) 13,000 EJ household units will be located within the 150 meters of the major roadways defined by this EJ report, which is significantly less than the 24,000 household units allocated in Non EJ areas. In addition in 2014 there is 14.55% of EJ household units located within 150 meters of the impacted areas, and by 2042 there will be 13.83% of such EJ households units in such areas, a decrease of 0.70%, which shows the

12 HEI Panel on the Health Effects of Traffic-Related Air Pollution. Traffic-related air pollution: a critical review of the literature on emissions, exposure, and health effects. HEI Special Report 17. Boston, MA: Health Effects Institute; 2010

2018 RTP/SCS's efforts to improve the condition for the EJ population. The Non-EJ area instead will see an increase of 1.1% household units from 2014 to 2042 that will be located within the impacted areas.

7.9 Conclusions

This EJ Analysis is a tool to help determine proposed RTP projects' equitable distribution of benefits and burdens, as well as their overall cost/benefit to our inhabitants, especially those living in disadvantaged neighborhoods. The results show that in terms of overall equity, the 2018 RTP's projects appear to distribute benefits and impacts equitably over Fresno County. In most cases, EJ communities fared better than non-EJ communities. There were only a few instances where the EJ communities did not fare better than the non-EJ communities at a sub regional level. For example, transit travel times in the rest of the county was higher than in the Fresno-Clovis SOI due to the frequency of service and travel distance, however the overall county average for accessibility and mobility was less for EJ TAZ's than non EJ TAZs.

Although this EJ Analysis focuses on racial minorities and low-income populations, Fresno COG is also very involved with programs for elderly and disabled populations. Some of these programs include the Senior Taxi Scrip program, FTA Section 5310 grants (Transportation for Elderly Persons and Persons with Disabilities), Section 5317 grants (help for Americans with Disabilities) and consulting the Social Services Transportation Advisory Council (SSTAC). The SSTAC serves as a Fresno COG advisory body regarding transit-dependent and transit-disadvantaged population needs, including the elderly, handicapped, and persons of limited means.

Based on the results of the Environmental Justice Analysis, Fresno COG can conclude that EJ communities are not "disproportionately burdened by high and adverse effects and do share equitably in the benefits from the 2018 RTP/SCS.

7.10 Next Update to the EJ Analysis

Fresno COG is committed to improving the EJ Analysis and addressing ongoing performance considerations in its planning activities. Specifically in response to comments from the EJ subcommittee and members of the public, Fresno COG is committed to developing an activity-based model (ABM) for future RTP updates. Having an ABM that can generate household socioeconomic attributes that feed into travel patterns will further refine the EJ Analysis. Fresno COG recognizes that spatially mapping proposed RTP projects on the constrained list would provide a more accurate representation of transportation investment in determining which projects traverse, are adjacent to, and within EJ areas, either benefiting or burdening the EJ communities. Fresno COG plans to develop a tool to map RTP projects for the 2022 RTP.

APPENDIX M
ANNUAL LISTING OF PROJECTS

Purpose

23 CFR 450.334 of the Federal Register outlines the requirement for Metropolitan Planning Organizations (MPOs) to publish an annual listing of projects for which funds have been obligated in the preceding year, including a listing of pedestrian and bicycle projects. From the Fixing America's Surface Transportation (FAST) Act, 23 U.S.C. 134(j)(7)(B), 23 U.S.C. 135(g)(5)(B), 49 U.S.C. 5303(j)(7)(B), and 49 U.S.C. 5304(g)(5)(B), the requirement is as follows:

> *"An Annual Listing of projects, including investments in pedestrian walkways and bicycle transportation facilities, for which federal funds have been obligated in the preceding year, shall be published or otherwise made available by the cooperative effort of the State, transit operator, and metropolitan planning organization for public review. This listing shall be consistent with the funding categories identified in each metropolitan transportation improvement program."*

This report is published in response to the above requirement by listing all federally funded transportation projects in the Fresno County region that were obligated during federal fiscal year 2020. Obligation refers to the federal government's commitment to pay or reimburse the lead agency for the federal share of a project's cost. Obligation does not indicate expenditure or project completion; only that the project has been approved for federal reimbursement. Programmed project costs can be found in the corresponding Federal Transportation Improvement Program (FTIP) and Regional Transportation Plan (RTP).

Background

Fresno COG is a voluntary association of local governments, one of 25 in California and 522 nationwide. In 1967, elected officials of Fresno County and its incorporated cities informally created the Council to provide "a cooperative body" for the discussion and resolution of issues which go beyond their individual boundaries. Subsequent federal and state laws encouraged such efforts, and the agency was formalized in 1969.

Fresno COG fosters intergovernmental communication and coordination, undertakes comprehensive regional planning with an emphasis on transportation, provides for citizen involvement in the planning process, and supplies technical services to its member governments.

In all these areas the Fresno COG serves as a consensus builder to develop an acceptable approach on how to handle problems that do not respect political boundaries.

Who are the members, their representatives, and how do they vote?

Fresno COG's member agencies are represented on the Policy Board by the Mayors of each incorporated city, and the Chairman of the County Board of Supervisors, or designated representatives.

The Policy Board is a governing body that establishes policy and guides work activities. They are assisted in making decisions by the Policy Advisory Committee (PAC), composed of the Chief Administrative Officer of each member agency, or their designated representatives. With the exception of urgent matters, all items must first be considered by the PAC before submission to the Policy Board.

The Policy Board and PAC are assisted in the decision-making process by staff from their agencies, citizen and interest groups, and various technical advisory committees who comprise the Transportation Technical Committee (TTC).

Fresno COG Policy Board	
Agency	**Member**
Clovis	Mayor Drew Bessinger
Coalinga	Mayor Ron Lander
Firebaugh	Mayor Elsa Lopez
Fowler	Mayor David Cardenas

Mendota	Mayor Rolando Castro
Orange Cove	Mayor Victor Lopez
Parlier	Mayor Alma Beltran
Reedley	Mayor Mary Fast
Sanger	Mayor Eli Ontiveros
San Joaquin	Mayor Julia Hernandez
Selma	Mayor Scott Robertson

The Regional Transportation Plan

The RTP is a long-range (25-year) plan that provides a vision for future transportation improvements and investments based on specific transportation goals, objectives, policies, and strategies. The RTP is based on federal transportation law requiring comprehensive, cooperative, and continuous transportation planning. Fresno COG meets these requirements by developing comprehensive transportation plans that

include all surface transportation modes (also known as multi-modal planning), to ensure efficient people and goods movements throughout the region.

The purpose of the RTP is to provide strategic direction for transportation capital investments by assessing regional growth and economic trends. Thus, the RTP helps planner's link transportation investments to provide a cohesive, balanced, and multimodal transportation system that will help relieve traffic congestion, improve safety, and provide for economic development.

The Federal Transportation Improvement Program

As the designated MPO for the region, Fresno COG also prepares and maintains the FTIP, which is the short-term (4-year) planning document. The FTIP includes a listing of all transportation-related projects requiring federal funding or other approval by the federal transportation agencies. The FTIP also lists non-federal, regionally significant projects for information and air quality modeling purposes.

Projects included in the FTIP are consistent with Fresno COG's RTP and are part of the area's overall strategy for providing mobility, congestion relief, and reduction of transportation-related air pollution in support of efforts to attain federal air quality standards for the region.

Public Involvement

Fresno COG aims to proactively engage the public in the regional transportation planning process and embrace federal requirements that MPOs provide the public with complete information, timely public notice, full public access to key decisions, and early and continuing involvement in developing the FTIP, RTP, and other products.

Annual Listing of Projects with Federal Funding for Federal Fiscal Year 2020

Federal law requires Fresno COG to publish for public review an annual listing of projects for which federal funds have been obligated in the preceding year, as a record of project delivery and a progress report for public information and disclosure.

This report is divided into the funding types administered by the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA). Projects are listed by *Lead Agency, FTIP Program*, *Federal ID,* and *Fresno COG ID*. The *Fresno COG ID* number is a unique project identifier used in the FTIP; the category *Total Dollar Amount in FTIP* is included for reference of total project funding. Multiple *Federal IDs* can correspond with one *Fresno COG ID*. Please note that this list includes only federal funds that were obligated; no state or local funds are reported. The information contained in this report was provided by the California Department of Transportation (Caltrans).

This report indicates that approximately $100 million in federal funds were obligated for transportation projects in the region between October 1, 2019 and September 30, 2020. The federal funds obligated for transportation projects were distributed amongst Congestion Mitigation Air Quality (CMAQ), Highway Bridge Program (HBP), Highway Safety Improvement Program (HSIP), State Highway Operation and Protection Program (SHOPP), Local Rail, Regional Improvement Program (RIP), Surface Transportation Program (STP), and Active Transportation Program (ATP) projects.

ANALYSIS:

ADDRESSING FEDERAL PERFORMANCE MEASURE REQUIREMENTS

Page intentionally left blank.

Transportation Performance Management

How the FTIP Addresses Federal Requirements for Performance Measures

FHWA Performance Targets

Fresno COG recognizes that MAP-21 and FAST ACT requires incorporation of Performance-Based Planning and Programming (PBPP) that are to be used in the development of Long-Range Transportation Plans (LRTP) and Transportation Improvement Plans (TIP). Specifically, Fresno COG recognizes that the draft 2021 TIP shall include, to the maximum extent practicable, a description of the anticipated effect of the TIP toward achieving the 23 CFR 490 performance measures targets identified in Fresno COG's latest Regional Transportation Plan, which links investment priorities to those performance targets (23 CFR 450.326(d)).

The Fresno Council of Governments (Fresno COG) does and will continue to plan and program to help achieve these statewide performance targets. We currently support and have adopted the statewide targets for safety, pavement, bridge, reliability, and freight, as we recognize the difficulty of setting MPO-level targets. While this does not exclude Fresno COG from setting its own target in the future, we continue to support the statewide targets as of this draft 2021 FTIP.

This section contains the relevant information to support Fresno COG's adoption of the statewide targets, including performance management targets set by Caltrans for Safety (PM1), Pavement and Bridge Condition (PM2), and the performance of Freight, NHS, and the CMAQ Measures (PM3). Fresno COG has also adopted Transit Asset Management targets and has partially adopted Transit safety targets, with the full Transit safety targets due next year for inclusion into the next TIP or TIP amendment.

Fresno COG specifically supports these performance targets by placing a large emphasis on safety, pavement condition, and air quality improvements via congestion relief in our Surface Transportation Block Grant (STBG), Congestion Mitigation and Air Quality (CMAQ) Improvement, and Active Transportation (ATP) programs. Additionally, Caltrans and Fresno COG coordinate on Highway Safety Improvement Program (HSIP) and State Highway Operation and Protection Program (SHOPP) funding, with an emphasis placed on funding projects that contribute to safety and pavement/bridge condition.

Fresno COG will continue these efforts as part the 2021 FTIP and into the future.

Background

Federal rules require that the Federal Transportation Improvement Program (FTIP) "be designed such that once implemented, it makes progress toward achieving the performance targets established under § 450.306(d)." Also, the FTIP "shall include, to the maximum extent practicable, a description of the anticipated effect of the FTIP toward achieving the performance targets identified in the metropolitan transportation plan, linking investment priorities to those performance targets."[i]

The Moving Ahead for Progress in the 21st Century Act (MAP-21, 2012) established new requirements for metropolitan planning organizations (MPOs) to coordinate with transit providers, set performance

targets, and integrate those performance targets and performance plans into their planning documents by certain dates. The most recent federal transportation act, Fixing America's Surface Transportation Act of 2016 (FAST Act), carries forward the Performance Based Planning. Beginning in 2018, federal rules required that state departments of transportation and MPOs implement federal performance measures. In response, FHWA and FTA worked with state and regional agencies to identify performance measures that meet the requirements.

In California, Caltrans is directly responsible for submitting performance targets and periodic progress reports to federal agencies on an annual basis. MPOs are required to establish targets for the same performance measures on all public roads in the MPO planning area within 180 days after the state establishes each target. MPOs may elect to support the statewide targets, establish numerical targets specific to their region, or use a combination of both approaches. Furthermore, each MPO must incorporate these short-range targets into their planning and programming processes, including long-range plan and FTIP.

FHWA Performance Measures

The federal performance measures under the Federal Highway Administration (FHWA) are categorized into three performance management (PM) groups

PM 1: Safety

PM 2: National Highway System Pavement and Bridge Condition

PM 3: System Reliability, Freight, Congestion, and Air Quality

FTA Performance Measures

In addition to the three PM groups, the FTA has established performance measures and reporting requirements for transit asset management (TAM) and transit safety. Performance metrics for TAM focus on the maintenance of our regional transit system in a state of good repair. Transit assets to be monitored under this provision include:

1. Non-revenue support equipment and maintenance vehicles
2. Revenue vehicles (rolling stock)
3. Rail infrastructure including tracks, and signals, and guidance systems; and
4. Transit facilities including stations, parking structures, and administrative offices. Transit safety performance monitoring is focused on assessment of the number of transit incidents resulting in fatalities or serious injuries and transit system reliability.

The Federal Transit Administration (FTA) issued the TAM Final Rule (49 CFR §625 et seq.), effective October 1, 2016, to implement MAP-21's asset management provisions. This final rule mandates a National TAM System, defines 'State of Good Repair' (SGR), and requires transit providers to develop TAM plans. The Metropolitan Transportation Planning Final Rule (23 CFR §450.206) outlines the timelines and processes by which states, MPOs, and transit providers must coordinate in target setting.

Public Transportation Agency Safety Plan

On July 19, 2018, the FTA published the Public Transportation Agency Safety Plan (PTASP) Final Rule (49 CFR §673.15) regulating how Chapter 53 grantees would have to implement federally mandated safety standards. The rule's effective date is July 19, 2019, and the compliance date is July 20, 2020. Considering

the extraordinary operational challenges presented by the COVID-19 public health emergency, FTA issued a Notice of Enforcement Discretion effectively extending the PTASP compliance deadline from July 20, 2020, to December 31, 2020. The MPO's initial transit safety targets are set within 180 days of receipt of the safety performance targets from the transit agencies. The MPO then revisits its targets based on the schedule for preparation of its system performance report that is part of the Regional Transportation Plan (RTP). The first RTP or FTIP update or amendment to be approved on or after July 20, 2021, is required to include the MPO's transit safety targets. See FTA's COVID-19 FAQs page for more information about the Notice.[ii]

The final rule specifically requires transit agencies employing federal funds to develop a safety plan and annually self-certify compliance with that plan. The National Public Transportation Safety Plan identifies four performance measures that must be included in the transit agency safety plans: fatalities, injuries, safety events, and system reliability. Each transit agency must make its safety performance targets available to MPOs to assist in the planning process, and coordinate, to the maximum extent practicable, with the MPO in selecting regional safety targets.

Each of the federal performance management focus areas include an associated set of metrics for which statewide and regional targets must be set. The specific performance measures for each include:

TRANSPORTATION SYSTEM SAFETY (PM 1)

- Number of motor vehicle collision fatalities
- Rate of motor vehicle collision fatalities per 100 million VMT
- Number of motor vehicle collision serious injuries
- Rate of motor vehicle collision serious injuries per 100 million VMT
- Number of non-motorized fatalities and serious injuries

NATIONAL HIGHWAY SYSTEM PAVEMENT AND BRIDGE CONDITION (PM 2)

- Percentage of Interstate System pavement in 'good' condition
- Percentage of non-interstate NHS pavement in 'good' condition
- Percentage of Interstate System pavement in 'poor' condition
- Percentage of non-interstate NHS pavement in 'poor' condition
- Percentage of NHS bridges in 'good' condition
- Percentage of NHS bridges in 'poor' condition

NATIONAL HIGHWAY SYSTEM (NHS) PERFORMANCE (PM 3)

- Percent of interstate system mileage reporting reliable person-mile travel times
- Percent of non-interstate NHS mileage reporting reliable person-mile travel times

FREIGHT MOVEMENT (PM 3)

- Percent of interstate system mileage reporting reliable truck travel times

CMAQ PROGRAM (PM 3)

- Annual hours of peak-hour excessive delay per capita
- Total emissions reduction by criteria pollutant (PM10, PM2.5, Ozone, CO)
- Non-Single Occupancy Vehicle mode share

TRANSIT ASSET MANAGEMENT (TAM)

- Equipment: Share of non-revenue vehicles that meet or exceed useful life benchmark
- Rolling Stock: Share of revenue vehicles that meet or exceed useful life benchmark
- Infrastructure: Share of track segments with performance restrictions
- Facilities: Share of transit assets with condition rating below 3.0 on FTA Transit Economic Requirements Model (TERM) scale[iii]

TRANSIT SAFETY

- Number of transit-related fatalities
- Number of transit-related injuries
- Number of transit system safety events
- Transit system reliability

TRANSPORTATION SYSTEM SAFETY (PM 1)

Fresno COG has adopted evidence-based safety performance targets for 2018 for all five performance measures that MAP-21 and the FAST Act require. The evidence-based targets project future year fatalities and serious injuries based on recent trends. Below are the targets for PM 1.

Table 1 - Safety Performance Management (PM1): Fatalities and Injuries

	Data Source	5- Yr. Rolling Average Targets[1]		Percent Reduction Targets[1]	
		2018	2019	2018	2019
Number of Fatalities	FARS[2]	3590.8	3445.4	7.69%	3%
Rate of Fatalities (per 100 million VMT)	FARS & HPMS[3]	1.029	0.995	7.69%	3%
Number of Serious Injuries	SWITRS[4]	12,823.4	12,688.1	1.5%	1.5%
Rate of Serious Injuries (per 100 million VMT)	SWITRS & HPMS	3.831	3.661	1.5%	1.5%
Number of Non-Motorized Fatalities and Non-Motorized Severe Injuries	FARS & SWITRS	4271.1	3949.8	10%	3% for Fatalities and 1.5% for Serious Injuries

Caltrans 2020 Statewide SPMT Based on a 5-Year Rolling Average

Performance Target	Data Source	5-Yr. Rolling Average (2019)
Number of Fatalities	FARS	3518.0
Rate of Fatalities (per 100M VMT)	FARS & HPMS	1.023
Number of Serious Injuries	SWITRS	13,740.4
Rate of Serious Injuries (per 100M VMT)	SWITRS & HPMS	3.994
Number of Non-Motorized Fatalities and Non-Motorized Severe Injuries	FARS & SWITRS	4147.4

Fresno COG has encouraged local governments to address transportation safety issues by submitting more safety-related projects. Fresno COG conducted collision analysis using Transportation Injury Mapping System (TIMS) data for the Congestion Management Process (CMP), which was incorporated into the STBG scoring process. The TIMS data is based on the California Statewide Integrated Traffic Records System (SWITRS). The collisions are geocoded and mapped statewide with a consistent methodology. CMP projects that address safety issues and fall on the segments that had the top 10th percentile in collision rates -- measured by number of collisions per 10,000 average daily traffic (ADT) -- were awarded two points in the STBG process; CMP projects with safety components on locations that ranked among the top 25th percentile in total number of collisions over the analysis timeframe received one point. Projects that meet both of the criteria received the maximum two points. Exhibit 5 illustrates the distribution of locations that were eligible to receive safety-based points.

Many of the projects programmed in the FTIP improve safety. For some, safety is the primary aim, and for others, safety may be a component.

Fresno COG has three funding programs dedicated to improving safety.

1. Active Transportation Program (ATP)
2. Highway Safety Improvement Program (HSIP)
3. State Highway Operations and Protection Program (SHOPP) Collision Reduction

ATP

The ATP funds bicycle and/or pedestrian projects. Since people are more vulnerable while walking or biking as compared to traveling in a vehicle, any project that helps them do so is likely to yield safety benefits. The ATP further emphasizes safety by allotting points for projects applications that promise to reduce the rate or number of pedestrian and bicyclist fatalities and injuries.

HSIP

The HSIP directly addresses safety. The program's stated purpose is to "achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal land." Successful project applications promise to reduce fatalities and injuries. The program is designed to focus local efforts on locations/corridors with the greatest safety needs and countermeasures with lower costs.

SHOPP Collision Reduction

The SHOPP is the State Highway System's "fix-it-first" program that funds repairs and preservation, emergency repairs, safety improvements, and some highway operational improvements on the State Highway System (SHS). All SHOPP projects are limited to capital improvements that do not add capacity (no new highway lanes) to the SHS, though some new auxiliary lanes are eligible for SHOPP funding.

The Collision Reduction category is one of eight categories that make up the SHOPP, with the intention to reduce the number or severity of collisions; within this category are two programs:

1. 201.010 - Safety Improvements: reactive approach based on analysis of collision history
2. 201.015 - Collision Severity Reduction: proactive approach targeted to reduce the potential for traffic collisions based on past performance of roadway characteristics

201.010 – Safety Improvements

This program is designed to reduce the number or severity of collisions on the State Highway System. Projects with a safety index above 200 qualify as safety improvement projects. Projects may be individual locations where the collision history indicates a pattern potentially correctable by a safety improvement, such as unsafe traffic (school zone signals included), wet pavement corrections, curve corrections, shoulder widening, left-turn channelization, etc. All proposed projects will be verified by HQ Office of Traffic Safety Programs in the Division of Traffic Operations before being certified as safety improvement projects.

This task also includes sites identified in monitoring programs to reduce collisions for motorists, such as for wrong-way collisions, multilane, cross-median collisions, two-and three-lane cross center-line collisions and run-off-the-road collisions. It also includes non-motorized modes, such as pedestrian and bicycle facilities.

It does not include relocating existing highways or projects that would add new through lanes or upgrade existing highways to a higher classification, such as conventional to expressway, regardless of the safety benefits. This task does not include projects where the prime purpose is reducing congestion.

Improving a highway, generally on existing alignment, to improve standards of width, grade, alignment or other geometric consideration is new highway construction that is included in STIP programs.

201.015 - Collision Severity Reduction

This program seeks to upgrade existing highway safety features within the roadbed's clear recovery area, resulting in reduced collisions and/or severity. Projects will include new guardrail end treatments and crash cushions, rumble strips, glare screen, rock fall mitigation, overcrossing pedestrian fencing, crosswalk safety enhancements, and improvements that prevent roadway departure.

The program is designed to be proactive in enhancing safety on the State Highway System. As such, this program will not be subject to a safety index analysis but will define projected collision severity reduction numerically. Projects will be prioritized based on the projected collision severity reduction benefits.

2020 SHOPP Collision Reduction Numbers, Statewide

A total of 920 projects are included in the 2020 SHOPP that the CTC adopted in May 2020. The 2020 SHOPP is valued at $17.4 billion, which includes reservation amounts for programs such as the Collision Reduction Program. **The SHOPP Collision Reduction Program has 161 programmed safety projects totaling $1,841,082,000.** The SHOPP reserves $3,120,000,000 for 201.010 safety improvements. The reserved amount will address future safety improvements as they are identified.

Fresno COG Funding Programs

Surface Transportation Block Grant Program (STBG):

To encourage projects funded through STBG that address safety concerns, FCOG implemented a ranking criteria that prioritizes projects that have a safety component, which accounts for 10 percent of the total score. Eleven projects were awarded funding under the most recent call for projects in September 2019, all of which included a safety aspect.

Fresno COG Regional Transportation Safety Improvement Plan:
Fresno COG is developing a regional safety plan to address Fresno County's disproportionate share of the state's traffic fatalities. Fresno County's fatality rate is approximately 50% higher than California overall. While Fresno County makes up approximately 2.5% of the State's population and vehicle miles travelled, it also makes up approximately 4% of the State's traffic fatalities. As part of the plan, Fresno COG intends to convene a steering committee of local stakeholders for input on developing an existing condition report, identifying counter measures and developing strategies for the counter measures, conduct public outreach to collect input on safety concerns, and develop a transportation safety education program. This regional safety plan is currently in development with a consultant.

Table 2: 2021 FTIP Safety Programs and Projects

(amounts in $1,000's)	Total Project Cost	Funding in the 4-Year Element	% of Funding in the 4-Year Element	Number of Projects
Safety Projects	$78,549	$72,138	5.54%	29
Other Projects (Not Primarily for Safety)	$473,112	$339,759	26.08%	84
Total	$550,644	$410,880	31.54%	112

Projects in the above table that are considered 'not primarily for safety' are projects that are not included within the three core safety programs (SHOPP-Collision Reduction, HSIP, ATP), but are part of an air quality exemption category specific to safety. (See page Appendix B – Air Quality Exempt Project Codes).

Safety Project Highlights

According to Caltrans' December 2017 edition of Mile Marker, roundabouts are identified as a proven safety measure by the Federal Highway Administration Office of Safety. Roundabouts reduce speeds, and 'points of conflict' where vehicles might collide. The 2021 FTIP makes way for several safety increasing roundabouts:

- Caltrans District 6 – near Camden on SR 41 at Mount Whitney (LSTMP708) - $13.75 Million
- Caltrans District 6 – near Wildflower on SR 41 at East Elkhorn Ave (LSTMP709) - $13.6 Million
- Caltrans District 6 – near Rolinda on Hwy 180 at Dickenson Ave - $12.08 Million
- City of Clovis – DeWolf and Owens Mountain Blvd intersection (LSTMP743) – $1.08 Million
- City of Kingsburg – Sierra St at Bethel Ave (LSTMP582) - $1.3 Million
- City of Mendota – Derrick (SR180) and Oller (SR33) (FRE150035) - $1.5 Million

NATIONAL HIGHWAY SYSTEM PAVEMENT AND BRIDGE CONDITION (PM 2)

Fresno County residents have consistently voiced a strong preference for prioritizing maintenance of roadways and bridges within the county. As such, Fresno COG implemented a ranking criteria that prioritizes projects primarily maintenance-related in nature, which accounts for 40 percent of the total competitive score. Fresno COG has also implemented a multi-jurisdictional pavement management system for nine local cities within the Region that currently do not have such a program in place. A Pavement Management System is designed to provide objective information and useful data for analysis so that local governments can make more consistent, cost-effective and defensible decisions related to the preservation of a pavement network. With the Pavement Management System, the cities will be able to prioritize roadway improvements and better manage their roadway repair and maintenance.

Table3: PM2: NATIONAL HIGHWAY SYSTEM PAVEMENT AND BRIDGE CONDITION	Values
Percentage of Interstate System pavement in 'Good' condition	44.5%
Percentage of non-interstate NHS pavement in 'Good' condition	29.9%
Percentage of Interstate System pavement in 'Poor' condition	3.8%
Percentage of non-interstate NHS pavement in 'Poor' condition	7.2%
Percentage of NHS bridges in 'Good' condition	70.5%
Percentage of NHS bridges in 'Poor' condition	4.4%

The following are funding sources and programs that help fund PM 2 projects:

Local Funds

Cities and counties spend billions each year to maintain local roads and bridges. They derive their funding from a myriad of sources. In a survey of California jurisdictions, for local funds alone, there are more than a hundred different sources of taxes and fees report to be spent on pavement.[iv] Some examples of local funding sources include:

- Local sales taxes
- Development impact fees
- General funds
- Various assessment districts – lighting, maintenance, flood control, special assessments, community facility districts
- Traffic impact fees
- Traffic safety/circulation fees
- Utilities (e.g., stormwater, water, wastewater enterprise funds)
- Transportation mitigation fees
- Parking and various permit fees
- Flood control districts
- Enterprise funds (solid waste and water)
- Investment earnings
- Parcel/property taxes
- Indian reservation roads
- Indian gaming funds
- Vehicle registration fees
- Vehicle code fines
- Underground impact fees
- Transient occupancy taxes

- Capital Improvement Program (CIP) reserves/capital funds

Local Funds tend to pay for non-regionally significant road maintenance, safety, and bridge projects. Even so, some of the PM 2 projects in the FTIP owe their funding to Local Funds.

State Funds

HUTA

The Highway Users Tax Account (HUTA), more commonly known as the state gas tax, is still the single largest funding source for cities and counties.

SB 1

California doubled down on PM 2 when it approved Senate Bill 1 on April 28, 2017. SB 1 increased several taxes and fees to raise more than $5 billion annually in new transportation revenues. Moreover, SB 1 provides for inflationary adjustments, so that purchasing power does not diminish as it has in the past. SB 1 prioritizes funding towards maintenance, rehabilitation, and safety improvements on state highways, local streets and roads, and bridges and to improve the state's trade corridors, transit, and active transportation facilities.

Many SB 1 funds are not captured in the FTIP because that document focuses on federally funded and regionally significant projects, while SB 1 is a non-federal fund that tends to pay for non-regionally significant road maintenance, safety, and bridge projects. Even so, some of the PM 2 projects in the FTIP owe their funding to SB 1.

Federal HBP

The Highway Bridge Program (HBP) provides federal aid to local agencies to replace and rehabilitate deficient, locally owned, public highway bridges. The HBP is intended to remove structural deficiencies from existing local highway bridges to keep the traveling public safe.[v] The HBP provides about $288 million annually for bridge projects. Off-system bridges are usually funded at 100% HBP, while on system bridges are funded at 88.53% HBP. An exception to the federal participating rate is "high-cost" bridges, in which sponsors enter into agreements with Caltrans Local Assistance and agree on a federal participating rate which may not equal 100% or 88.53%.

SHOPP

The SHOPP is already described above under PM 1. Two of the eight categories of the SHOPP that address PM 2 are Bridge Preservation and Roadway Preservation.

Although the SHOPP is a program, it is often thought of as a fund source as well. The FTIP lists the fund source for most SHOPP projects as "SHOPP Advance Construction." Caltrans blends funds from HUTA, SB 1, and federal highway funds into SHOPP, and "SHOPP Advance Construction" is a placeholder for what could be federal or state funds.

SHOPP Bridge Preservation

SHOPP Bridge Preservation category includes following programs:

- 201.110 – Bridge Rehabilitation and Replacement
- 201.111 – Bridge Scour Mitigation
- 201.112 – Bridge Rail Replacement and Upgrade
- 201.113 – Bridge Seismic Restoration

- 201.119 – Capital Bridge Preventative Maintenance Program
- 201.322 – Transportation Permit Requirements for Bridges

The 2020 SHOPP has 156 Bridge Preservation projects totaling $2,371,000,000. The SHOPP does not have a reservation for Bridge Preservation.

SHOPP Roadway Preservation

SHOPP Roadway Preservation category includes following programs:

- 201.120 – Roadway Rehabilitation
- 201.121 – Pavement Preservation
- 201.122 – Pavement Rehabilitation
- 201.150 – Roadway Protective Betterments
- 201.151 – Drainage System Restoration
- 201.170 – Signs and Lighting Rehabilitation

The 2020 SHOPP has 265 Roadway Preservation projects totaling $5,505,000,000. The SHOPP does not have a reservation for Roadway Preservation.

Table 4: PM 2 2021 FTIP Projects

Category	# of projects	$ in 4 years ($1,000)	$ Total ($1,000)
PM 2 Projects	57	$302,170	$975,187
Bridges	35	$8,064	$94,176
Total	92	$310,234	$464,208

PM 3 System Reliability, Freight, Congestion, and Air Quality

Fresno COG has consistently prioritized system reliability and mobility within the region's transportation system. A properly functioning, well-maintained streets and highway system is critical for public safety and mobility, emergency responders, law enforcement, the trucking industry and those dependent on farm-to-market commerce. Economic development experts tell us that regional mobility and access are key requirements of business and industry for job creation and retention. A side benefit is that it has an overall positive effect on property values in an area, effectively raising the value of our homes and businesses. For these reasons, Fresno COG recognizes the need to preserve our local streets and roads in order to maintain our regional mobility.

As such, Fresno COG has a 30-plus year history of local investment in transportation infrastructure via Measure C, the local ½-cent sales tax for transportation. This progress in local investment continues in the 2021 FTIP and by leveraging local and state funds in order to build many of the major streets, highways, and freeways that maintain and enhance system reliability and mobility in Fresno County.

The following are funding sources and programs that help fund Non-Interstate and Interstate:

SHOPP Mobility

The SHOPP Mobility category include following programs:

201.310 – Operational Improvements
201.315 – Transportation Management Systems
201.321 – Weigh Stations & Weigh-In-Motion Facilities

201.310 – Operational Improvements

The primary purpose of this program element is to improve traffic flow on existing State highways by reducing congestion and operational deficiencies at spot locations. Operational improvement projects do not expand the design capacity of the system.

Examples of Operational Improvements projects include, but are not limited to:

- Interchange modifications (but not to accommodate traffic volumes that are significantly larger than the existing facilities were designed for)
- Ramp modifications (acceleration - deceleration/weaving)
- Auxiliary lanes for merging or weaving between adjacent interchanges
- Curve corrections/improve alignment
- Signals and/or intersection improvements
- Two-way left turn lanes
- Channelization
- Turnouts
- Shoulder widening

201.315 – Transportation Management Systems

The primary purpose of this program element is to improve traffic flow on existing State highways by addressing system-wide congestion through system management techniques. Transportation Management Systems facilitate the real time management of the State highway system by providing accident and incident detection, verification, response, and clearance. These systems provide State highway system status information to travelers.

Examples of Transportation Management System projects include, but are not limited to:

- Traffic sensors
- Changeable message signs
- Close circuit television cameras
- Ramp meters
- Communications systems
- Highway advisory radio
- Traffic signal interconnect projects
- Traffic management systems housed in Transportation Management Centers (TMCs), including the necessary software and hardware (excluding facilities)
- TMC interconnect projects

201.321 – Weigh Stations & Weigh-in-Motion Facilities

The primary purpose of this program element is to provide for Commercial Vehicle Enforcement Facilities (commonly called Weigh Stations) and Weigh-in-Motion (WIM) systems. The Weigh Stations are needed to support the Commercial Vehicle Enforcement Plan; Truck safety, size and weight regulations are enforced by the California Highway Patrol reducing truck related accidents or incidents and protection our highways from premature damage. The WIM sites provide data for federally required data systems and special studies, design and maintenance strategies, size and weight policies, enforcement and planning strategies, and the traffic and truck volumes publications.

The 2020 SHOPP has 91 Mobility projects programmed totaling $1,440,000,000. The SHOPP does not have a reservation for Mobility.

SB 1 Trade Corridor Enhancement Program (Including National Highway Freight Program)

The purpose of the Senate Bill 1 (SB 1) Trade Corridor Enhancement Program (TCEP) is to provide funding for infrastructure improvements on federally designated Trade Corridors of National and Regional Significance, on California's portion of the National Highway Freight Network, as identified in California Freight Mobility Plan, and along other corridors that have a high volume of freight movement. The Trade Corridor Enhancement Program will also support the goals of the National Highway Freight Program, the California Freight Mobility Plan, and the guiding principles in the California Sustainable Freight Action Plan.

This statewide, competitive program will provide approximately $300 million per year in state funding and approximately $515 million in National Highway Freight Program funds if the federal program continues under the next federal transportation act.

Eligible applicants apply for program funds through the nomination of projects. All projects nominated must be identified in a currently adopted regional transportation plan. The Commission is required to evaluate and select submitted applications based on the following criteria:

- Freight System Factors – Throughput, Velocity, and Reliability
- Transportation System Factors – Safety, Congestion Reduction/Mitigation, Key Transportation Bottleneck Relief, Multi-Modal Strategy, Interregional Benefits, and Advanced Technology
- Community Impact Factors – Air Quality Impact, Community Impact Mitigation, and Economic/Jobs Growth
- The overall need, benefits, and cost of the project

- Project Readiness – ability to complete the project in a timely manner
- Demonstration of the required 30% matching funds
- The leveraging and coordination of funds from multiple sources
- Jointly nominated and/or jointly funded

Truck Travel Discussion

Truck travel mobility, and the goods movement that it provides, is essential to the economic vitality in the central San Joaquin valley. Nearly all freight movement in the Central Valley is provided by trucks. Therefore, a reliable and efficient good movement systems is necessary to support economic vitality in Fresno County and the greater San Joaquin Valley. As such, transportation projects that support efficient truck travel, such as shoulder improvements, auxiliary lanes, traffic flow improvement, and intelligent transportation systems (such as signal synchronization of the urban areas) have been included on the 2021 FTIP to support our freight mobility. Fresno COG continually looks for ways to prioritize investment improvements and strategies to increase the efficiency and reliability of the region's goods movement system.

CMAQ

The CMAQ program supports improving air quality and relieving congestion. The purpose of the CMAQ program is to fund transportation projects or programs that will contribute to attainment or maintenance of the National Ambient Air Quality Standards (NAAQS) for ozone, carbon monoxide (CO), and particulate matter (both PM10 and PM2.5).

Table 5: PM 3 2021 FTIP Projects

Category	# of projects	$ in 4 years ($1,000)	$ Total ($1,000)
Non-Interstate	26	$770,866	$975,187
Interstate	4	$72,630	$94,176
CMAQ Projects	61	$52,420	$59,400
PM 3 Total	91	$895,916	$1,128,763

TRANSIT ASSET MANAGEMENT

The TAM targets below were produced collaboratively with regional transit agencies based on their agency TAM plans and local targets. In developing the targets, Fresno COG reviewed and considered the transit operators' TAM plans (including identified goals, objectives, measures, and targets), thereby incorporating them into the metropolitan planning process.

We will continue to work with the region's transit operators and county transportation commissions to seek ways to improve the methodology, data collection and analysis for future RTP updates, and to continue engaging in a regional discussion about transit state of good repair and the need for additional funding.

Transit Asset Management Performance

The FTIP includes funding from multiple FTA sources for projects that support Transit Asset Management. Examples of these projects include rural and urban capital assistance programs; rolling stock acquisition, maintenance, and overhauls; bus fleet rehabilitation and replacement; track and rail yard maintenance and improvements; and maintenance of passenger facilities. For the Fresno COG region, key projects that address Transit Asset Management are:

- *New Operations and Maintenance Facility*: Construction of a maintenance facility located in Selma; 6-8 bays to accommodate up to 40ft buses, offices for staff, training center and a dispatch center.(FCRTA -
- *Fleet replacement to electric:* Conversion of the existing FCRTA bus vehicle fleet to 100% zero emission bus fleet by 2025. We currently have 31 electric vehicles and we have allocated funding through awarded grants to purchase an additional 12 electric buses. (FCRTA -
- *Bus Wash/Vault Facility Improvements:* Modernize and relocate FAX Bus Wash and Vault Facility to improve efficiency and security. (FAX – FRE210004)
- *Zero-Emissions Bus Charging Infrastructure:* Installing charging equipment and necessary infrastructure to accommodate the charging needs of new zero-emissions battery-electric buses. (FAX – FRE210005)

Fresno Area Express (FAX) and the Fresno County Rural Transit Agency (FCRTA) have adopted Transit Asset Management plans, which are available from transit operators. Transit Asset Management category projects could also be supported by state, local, and other federal funding sources (e.g., flexible CMAQ and RSTP). The funding and the program of projects in the FTIP will enable FAX and FCRTA_ to achieve their respective transit asset management performance targets.

This section presents the TAM performance measures and targets adopted by FAX and FCRTA. Table 6 provides a summary of the performance measures designated as TAM.

Table 6: Transit Asset Management Performance Measures		
Asset Category	**Performance Measurement**	**Asset Class Examples**
Rolling Stock - (revenue service vehicles) (Age)	Percentage of revenue vehicles within a particular asset class that have met or exceeded useful life benchmark (ULB).	40-foot bus, 60-foot bus, vans, automobiles, locomotives, rail vehicles
Equipment – (non-revenue) service vehicles (Age)	Percentage of vehicles that have met or exceeded their ULB.	Cranes, prime movers, vehicle lifts, tow trucks, vans, automobiles
Infrastructure-rail fixed-guideway track, signals, and systems (Condition)	Percentage of track segments, signal, and systems with performance restrictions.	Signal or relay house, interlockings, catenary, mechanical, electrical and IT systems
Stations/Facilities (Condition)	Percentage of facilities within an asset class, rated below 3 on the Transit Economic Requirements Model scale.	Stations, depots, administration, parking garages, terminals, shelters

The two reporting entities for public transportation provided their targets to Fresno COG, as shown in Table 7. The targets for the planning region are presented in tabular form to account for the differences in targets and standards among the providers of public transportation. Targets are the threshold for the maximum percentage of assets at or exceeding acceptable standards. In most cases for the 2017 target-setting process, providers set targets that are approximately equivalent to their current performance. In future years, staff will work with the providers of public transportation to collate performance.

Table 7: Transit Asset Management Targets

	Rolling Stock	**Equipment**	**Facilities**	**Infrastructure**
Reporting Entity	*% of revenue vehicles > ULB*	*% of non-revenue vehicles > ULB*	*% of facilities < TERM scale 3*	*% of track segments with restrictions*
FAX - Fresno Area Express	20.36%	25.81%	20%	N/A
FCRTA – Fresno County Rural Transit Agency	33.98%	0%	0%	N/A

Notes: ULB = Useful Life Benchmark, TERM = Transit Economic Requirements Model (FTA)

The TAM Final Rule also requires that, in the future, the FTIP describe the anticipated effect toward achieving the TAM targets set in the RTP, linking investment priorities to those targets (23 CFR 450.326(d)). Each transit agency is encouraged to apply for funding through our various competitive

funding programs, and have been successful in acquiring a portion of these funds to help meet TAM targets. Fresno COG meets with each transit agency biannually to discuss and identify other funding sources and transit projects for inclusion on the FTIP that also help to meet TAM targets.

There are 24 projects in the 2021 FTIP with $44.22 million in FTA funds , $22.2 million in local funds, $6.59 million in state funds, and $2.83 million in CMAQ funds that support the maintenance or replacement of transit assets.

Public Transportation Agency Safety Plan Performance Measures

July 19, 2018, the FTA published the Public Transportation Agency Safety Plan (PTASP) Final Rule (49 CFR §673.15) regulating how Chapter 53 grantees would have to implement federally mandated safety standards. The rule's effective date is July 19, 2019 and the compliance date is July 20, 2020. In light of the extraordinary operational challenges presented by the COVID-19 public health emergency, FTA issued a Notice of Enforcement Discretion effectively extending the PTASP compliance deadline from July 20, 2020 to December 31, 2020. The MPO's initial transit safety targets are set within 180 days of receipt of the safety performance targets from the transit agencies. The first RTP update or amendment to be approved on or after July 20, 2021, is required to include the MPO's transit safety targets. Please visit FTA's COVID-19 FAQs page for more information about the Notice.[vi]

Fresno Area Express (FAX) is the sole transit agency in the Fresno region that is bound by the PTASP requirements. FAX adopted their Public Transportation Agency Safety Plan in May, 2020.

Safety targets must be set every four years in the MPO's Regional Transportation Plan (RTP) and must integrate into their RTP, either directly or by reference, the goals, objectives, performance measures, and targets from the transit providers' safety plans.

The National Public Transportation Safety Plan identifies four performance measures that must be included: fatalities, injuries, safety events, and system reliability. Definitions for safety performance measures are as described in the NTD Safety and Security Manual.

Transit providers may choose to establish additional targets for safety performance monitoring and measurement. The following table documents existing performance targets set by Fresno Area Express.

Initial Public Transportation Safety Performance Targets							
	Overall			**Per 10 Million VRM**			
Mode of Service	**Fatalities**	**Injuries**	**Safety Events**	**Fatalities**	**Injuries**	**Safety Events**	**System Reliability**
Rail Transit	N/A	N/A	N/A	N/A	N/A	N/A	N/A
Bus Transit	0	42	46	0	8.19×10^{-3}	8.97×10^{-3}	85.3%
ADA/Paratransit	TBD	TBD	TBD	TBD	TBD	TBD	TBD
Vans/Autos	N/A	N/A	N/A	N/A	N/A	N/A	N/A
Rail	N/A	N/A	N/A	N/A	N/A	N/A	N/A

APPENDIX O

TRIBAL TRANSPORTATION PROGRAM - TRANSPORTATION IMPROVEMENT PROGRAM (TTPTIP)

PROJECTS WITHIN FRESNO COUNTY

Page intentionally left blank.

State of

California

Tribal Transportation Program
Transportation Improvement Program
2020

This report includes all construction projects on current approved Tribal TIPs in this State.

Table Mountain Rancheria

Construction Year 2018

Type of Work	Route	Length	Location	County	Funds	Amount
Millerton Road Improvements/underground Utilities Design						
Reconstruction	C002	1.0	Millerton Road	Fresno	TTP	$2,541,129
Comments: PS&E relocation of utilities and construction						
Metal Warehouse Road Construction and Parking Lot						
New Construction	P021	0.5	Adjacent to Table Mountain Road	Fresno	TTP;	$165,000
Comments: New construction including pavement, grading, curbing, drainage, gutter, sidewalk, etc.						
Total Amount for Construction Year 2018						$2,706,129

Exported on 10/28/2020 4:25:48 PM

Table Mountain Rancheria

Construction Year 2020

Type of Work	Route	Length	Location	County	Funds	Amount
IS Road Construction & Parking Lot						
New Construction	P020	0.5	Road from Table Mountain Road	Fresno	TTP	$165,000

Comments: New construction including pavement, grading, curbing, drainage, gutter, sidewalk, etc.

Total Amount for Construction Year 2020 $165,000

Exported on 10/28/2020 4:25:50 PM
