December 12, 2019

Ms. Susan Bransen, Executive Director California Transportation Commission 1120 N Street, (MS-52) Sacramento, CA 95814

Subject: 2020 Regional Transportation Improvement Program for Fresno Council of Governments

Dear Ms. Bransen,

Consistent with the guidance provided by the California Transportation Commission, the Fresno Council of Governments (Fresno COG) has adopted Resolution 2019-34 setting forth the 2020 Regional Transportation Improvement Program (RTIP) for submittal to the California Transportation Commission and inclusion in the 2020 State Transportation Improvement Program (STIP).

Attached is Fresno COG's proposed 2020 Regional Transportation Improvement Program packet.

The proposed 2020 RTIP is consistent with Fresno COG's approved 2018 Regional Transportation Plan and Sustainable Communities Strategies. To the best of Fresno COG's knowledge, at this time, the projects identified for funding in the proposed 2020 Regional Transportation Improvement Program are not anticipated to be impacted by implementation of the Safer Affordable Fuel Efficient Vehicles Rule Part One – One National Program which became effective on November 26, 2019.

Thank you for your consideration in this matter. If you have any questions, please feel free to contact Jennifer Soliz, Associate Regional Planner, at (559) 233-4148 Extension 223.

Sincerely,

TONY BØREN, Executive Director

A. Overview and Schedule

Section 1. Executive Summary

The Fresno Region has a policy of leveraging state and federal funding on major improvements by partnering with our local sales tax, Measure C. As in previous STIP cycles, this plan reflects the partnership among Fresno COG, the Fresno County Transportation Authority, Caltrans, and the California Transportation Commission that enables the region to maximize project delivery with a combination of local Measure C, state and federal resources. The Commission has adopted the 2020 STIP Fund Estimate. The estimates from Fiscal Years 2020/21 through 2024/25 provide our region with a target of \$49,294,000. The 2020 RTIP submittal programs our target funding of \$49,294,000 million in STIP County Shares bringing the total programmed for the Fresno Region to \$75,451,000. Fresno COG's 2020 RTIP proposed projects include the following projects:

South Fresno Interchange: Approximately \$3 million in 2018 STIP funds were programmed to environmentally clear three obsolete "half" interchanges along State Route 99. These interchanges are: North/Cedar, Central/Chestnut, and American Avenue. This project has been obligated and environmental work may be complete as early as FY 2020-21. The City of Fresno and Caltrans have requested that Fresno COG defer the Central/Chestnut interchange to a future date and proceed with North/Cedar and American Avenue interchanges as one project and still known as the South Fresno Interchange project. The Measure C Expenditure Plan will reserve funding to begin design and right-of-way acquisition in FY 2020-21 using Measure C funding. RTIP funds will be used on construction, which is planned in FY 2023-24. The total project cost is expected to be \$148.5 million. Fresno COG is requesting \$42.3 million in additional STIP county shares.

SR 41 Excelsior Expressway: This project widens 24 lane miles of SR 41 between Elkhorn Avenue and the Kings County Line, completing the improvement begun under the original measure. The primary funding comes from Caltrans' ITIP with a small component of the project being funded by RTIP funding. The ITIP will program construction with future ITIP funds. Total project costs have increased \$16.4 million to \$78.9 million. Additional RTIP funds of \$5.75 million are requested bringing the total Fresno County shares on the project to \$7,750,000.

<u>Planning, Programming, & Monitoring (PPM):</u> Fresno COG is requesting an additional \$399,000 per year for the final two years (2023-24/24-25) in the STIP, for a total of \$798,000. This is below the 5 percent PPM limitation the CTC allows. Over the five year STIP period, \$1.99 million is programmed for administering the federal aid and STIP process.

Programming in the 2020 RTIP also includes the following carryover projects that have not yet been allocated:

<u>State Route (SR) 180 W – Freeway landscaping:</u> This landscaping project is required mitigation for the SR 180 freeway extension west of SR 99 that was constructed by the original (1986-2006) Measure C program. The project has been carried over due to a lack of STIP funding. As a result of the delay, project costs have increased \$400,000 to \$6.29 million. With this cost

increase in mind, \$400,000 in additional STIP funds are requested in FY 2020-21, bringing the total committed STIP funds on the project to \$5.74 million.

<u>Veterans Boulevard:</u> STIP funds for Veterans Boulevard are programmed for construction in FY 2019-20; however, the City of Fresno has broken the project into five phases for better delivery. Phase 3 is construction of the actual interchange that includes \$14.6 million in STIP funds in FY 2020-21. This phase is being delayed due to construction sequencing of the various phases. As a result, Fresno will request an extension to FY 2020-21. Total project cost is estimated at \$139.8 million. No additional STIP funds are requested.

Section 3. Background of Regional Transportation Improvement Program (RTIP)

A. What is the Regional Transportation Improvement Program?

The Regional Transportation Improvement Program (RTIP) is a program of highway, local road, transit and active transportation projects that a region plans to fund with State and Federal revenue programmed by the California Transportation Commission in the State Transportation Improvement Program (STIP). The RTIP is developed biennially by the regions and is due to the Commission by December 15 of every odd numbered year. The program of projects in the RTIP is a subset of projects in the Regional Transportation Plan (RTP), a federally mandated master transportation plan which guides a region's transportation investments over a 20 to 25 year period. The RTP is based on all reasonably anticipated funding, including federal, state and local sources. Updated every 4 to 5 years, the RTP is developed through an extensive public participation process in the region and reflects the unique mobility, sustainability, and air quality needs of each region.

B. Regional Agency's Historical and Current Approach to developing the RTIP

Fresno COG's RTIP is developed through collaboration with Caltrans, Fresno County Transportation Authority, and its 16 member agencies. Fresno COG's policy for the RTIP is that 75% or more of the region's STIP county shares shall be used on projects from our local measure's expenditure plan tier I project list. This policy was created when the measure passed to ensure the regionally significant projects on the tier I project list were delivered as promised to the voters.

Section 4. Completion of Prior RTIP Projects (Required per Section 68)

Approximately \$3 million in 2018 STIP funds were programmed to environmentally clear three obsolete "half" interchanges along State Route 99. These interchanges are: North/Cedar, Central/Chestnut, and American Avenue. This project has been allocated and environmental work may be complete as early as FY 2020-21. The South Fresno Interchange Project will be programmed for construction as submitted in the 2020 RTIP submittal.

Section 5. RTIP Outreach and Participation

A. RTIP Development and Approval Schedule

Action	Date
CTC adopts Fund Estimate and Guidelines	August 14, 2019
Caltrans identifies State Highway Needs	September 15, 2019
Caltrans submits draft ITIP	October 1, 2019
CTC ITIP Hearing, North	October 8, 2019
CTC ITIP Hearing, South	October 15, 2019
Regional Agency adopts 2020 RTIP	December 11, 2019
Regions submit RTIP to CTC (postmark by)	December 15, 2019
Caltrans submits ITIP to CTC	December 15, 2019
CTC STIP Hearing, South	January 30, 2020
CTC STIP Hearing, North	February 6, 2020
CTC publishes staff recommendations	February 28, 2020
CTC Adopts 2020 STIP	March 25-26, 2020

B. Public Participation/Project Selection Process

Fresno COG's policy for the RTIP is that 75% or more of the region's STIP county shares shall be used on projects from our local measure's expenditure plan Tier I project list. This policy was created when Measure C passed to ensure the regionally significant projects on the Tier I project list were delivered as promised to the voters. The Tier I project list, which includes current STIP candidates, was developed and vetted with a Measure C Oversight Committee and included on the ballot and passed by the voters. Subsequently, we update the plan every two years. The process goes through three advisory committees and two boards of elected officials, Fresno COG and Fresno County Transportation Authority. All meetings are publically noticed and public input is invited. In addition, the Transportation Authority has a public relations consultant that schedules public events periodically to communicate the "Promise of Measure C" to the public.

C. Consultation with Caltrans District (Required per Section 17)

Caltrans District: 6

Collaboration with Caltrans has always been a vital part of our process for developing the RTIP. Caltrans sits on our Policy Advisory Committee, which convenes monthly to advise the Fresno COG Board on transportation issues. Caltrans also sits as a cooperative member of our Policy Board and provides monthly input during formal meetings. Caltrans also attends the Technical Advisory Committee and board meetings for the Fresno County Transportation Authority, which is the implementing agency for our local sales tax measure and key partner in delivering major transportation projects for the region. As the statutory regional planning agency for the Fresno County Transportation Authority, Fresno COG develops the long range Regional Transportation Plan. This comprehensive 20-year plan includes major multimillion dollar improvements and all funding available to deliver these regional projects including local measure, regional transportation mitigation fees, State funds such as SHOPP, STIP, LPP, and federal funds including ARRA, STBG, CMAQ, or any other state, federal or local source applicable to the program. Since a significant portion of this program is dedicated to the state highway system, communication among Fresno COG, Caltrans and the Transportation Authority are frequent and at a high level. The results of this cooperative planning process is reflected by our success in leveraging the funds necessary to build out the network of freeways and connected highways in, out and through Fresno over the last thirty years. This current proposed RTIP included significant interaction with Caltrans as we are partnering on a Caltrans ITIP project, SR 41, requesting construction funding for a major interchange over SR 99, Veterans Blvd., and laying the groundwork to make a significant and much needed improvement to interchanges along SR 99, South Fresno Interchange Project.

B. 2020 STIP Regional Funding Request

Section 6. 2020 STIP Regional Share and Request for Programming

A. 2020 Regional Fund Share Per 2020 STIP Fund Estimate

Per the adopted 2020 STIP fund estimate, the total target for the Fresno region through 2024/2025 is \$49,294,000 in programming capacity. Additionally, the Fresno region has carryover funding from the 2018 RTIP. Please refer to Appendices Section 17, Detailed Project Programming Summary Table, for more information.

B. Summary of Requested Programming

Project Name and Location	Project Description	Requested RIP Amount
SR 180W Landscape Project	Landscape Mitigation	\$5,100,000
SR 41 Excelsior Expressway	Construct a 4-lane divided expressway from an existing 2-lane expressway and close a 6-mile unimproved gap.	\$5,750,000
South Fresno Interchange Project	Modify the existing interchanges along SR 99, American Avenue and North Avenue, utilizing standard interchange designs.	42,346,000
Planning, Programming, Monitoring – Fresno Council of Governments	Planning, Programming, and Monitoring	1,995,000

Section 7. Overview of Other Funding Included With Delivery of Regional Improvement Program (RIP) Projects

		Other Funding				
Proposed 2020 RTIP	Total RTIP	ITIP	Measure C- Local	Total Project Cost		
SR 180W Landscape Project	\$5,100,000			\$6,844,000		
SR 41 Excelsior Expressway	\$5,750,000	\$52,500,000*		\$62,500,000		
South Fresno Interchange Project	\$42,346,000		\$103,154,000	\$148,500,000		
Planning, Programming, Monitoring	\$1,995,000			\$1,995,000		
Totals	\$55,191,000	\$52,500,000	\$103,154,000	\$219,839,000		

Notes: *Construction funding for the SR 41 Excelsior Expressway was delayed and not programmed in the 2020 ITIP however, it is anticipated to be programmed in future ITIPs.

Total project cost includes prior funding that is reflected in the Detailed Project Programming Summary Table, Appendices Section 17.

Section 8. Interregional Transportation Improvement Program (ITIP) Funding

The purpose of the Interregional Transportation Improvement Program (ITIP) is to improve interregional mobility for people and goods in the State of California. As an interregional program, the ITIP is focused on increasing the throughput for highway and rail corridors of strategic importance outside the urbanized areas of the state. A sound transportation network between and connecting urbanized areas ports and borders is vital to the state's economic vitality. The ITIP is prepared in accordance with Government Code Section 14526, Streets and Highways Code Section 164 and the STIP Guidelines. The ITIP is a five-year program managed by Caltrans and funded with 25% of new STIP revenues in each cycle. Developed in cooperation with regional transportation planning agencies to ensure an integrated transportation program, the ITIP promotes the goal of improving interregional mobility and connectivity across California.

ITIP funding was previously allocated to the SR 41 Excelsior Expressway project for engineering and right of way phases. Construction funding was not programmed in the 2020 ITIP however, is anticipated to be programmed in future ITIPs.

Fresno COG's original measure built SR 41 out to Elkhorn, and Kings County has improved SR41 on the county line to Lemoore, leaving this six-mile, unimproved gap on the remaining segment in Fresno County. Fresno COG will continue to partner with Caltrans until this project is complete.

Section 9. Projects Planned Within Multi-Modal Corridors (per Sections 11 and 20e)

There are no projects in the corridor that are planned or underway that will be impacted by the South Fresno Interchange Project or any other projects proposed in the 2020 RTIP.

C. Relationship of RTIP to RTP/SCS/APS and Benefits of RTIP

Section 10. Regional Level Performance Evaluation (per Section 19A of the guidelines)

The 2020 RTIP furthers the goals of Fresno COG's adopted 2018 RTP/SCS. At a regional level, Fresno COG's adopted 2018 RTP/SCS meets the recommended GHG reduction targets set forth by the California Air Resources Board, reduces per capita VMT (as shown in table B1), and the projects proposed in the 2020 RTIP are consistent with the goals, policies and funding capacity demonstrated in the RTP/SCS. The RTIP is one of various funding sources the region relies upon to support transportation projects that support the goals of Fresno COG's RTP/SCS. These goals include:

Goal 1: An efficient, safe, integrated, multimodal transportation system

Goal 2: Support cooperative efforts between local, state, federal agencies and the public to plan, develop and manage our transportation system

Goal 3: Achieve a safe transportation system for all motorized and non-motorized users on all public roads in Fresno County

Goal 4: An integrated and efficient highways, streets and roads network

Goal 5: Utilize a partnership of federal, state, regional, local, community, and industry stakeholders to move freight on a safe, integrated, modern, efficient, and resilient system that contributes to the Fresno Region's economy, jobs, and healthy, livable communities

A. Regional Level Performance Indicators and Measures (per Appendix B of the STIP Guidelines).

		ole B1	
Eval Goal	uation – Regional Level Per Indicator/Measure	formance Indicators an Current System Performance (Baseline)	Projected System Performance (indicate timeframe)
Congestion Reduction	Vehicle Miles Traveled (VMT) per capita.	24.85	24.52
	Percent of congested VMT (at or below 35 mph)	11.98%	11.58%
	Commute mode share (travel to work or school)	Auto:92.3% Transit: 1.8% Walk: 4.6% Bike: 1.3%	Auto:90.1% Transit: 2.8% Walk: 5.5% Bike: 1.6%
Infrastructure Condition	Percent of distressed state highway lane-miles	4.29% (2016)	n/a
	Pavement Condition Index (local streets and roads)	n/a	n/a
	Percent of highway bridges by deck area classified in Poor condition	0.84% (2017)	n/a
	Percent of transit assets that have surpassed the FTA useful life period	21% (2017)	n/a
System Reliability	Highway Buffer Index (the extra time cushion that most travelers add to their average travel time when planning trips to ensure on-time arrival)	1.6	n/a
	Accessibility and on-time performance for rail and transit	n/a	n/a
Safety	Fatalities and serious injuries per capita	11.9/37.9 (per 100,000)	n/a
	Fatalities and serious injuries per VMT	1.294/4.118 (per 100 million)	n/a
Economic Vitality	Percent of housing and jobs within 0.5 miles of transit stops with frequent transit service	8.68% housing / 20.6% jobs	n/a
	Mean commute travel time (to work or school)	20.0 minutes	20.4 minutes

	Farebox recovery ratio	0.203 (2017)	n/a
Environmental Sustainability	Change in acres of agricultural land	n/a	-38.2 acres
-	CO ₂ emissions reduction per capita	n/a	-10%

Section 11. Regional and Statewide Benefits of RTIP

The projects programmed in the 2020 RTIP provide both regional and statewide benefits. The projects will contribute to an efficient, safe, integrated and sustainable transportation system. The transportation system plays an important role in the region's economy helping move both people and goods. The South Fresno Interchange project will serve an area planned for approximately 1,000 acres of industrial use. The area is already home to major fulfilment centers and has improved the region's economy by creating thousands of jobs. The region's unemployment rates have reduced drastically and the improvements of the South Fresno Interchange project will continue to serve the economic vitality for the region. The projects will include increased traffic capacity and operations and will accommodate the future transportation needs of the region. Key benefits for the proposed projects also include:

South Fresno Interchange Project – This project is a series of five interchanges that were designed as half interchanges allowing traffic to exit in one direction only. To get back on the freeway the traveler must find the corresponding on-ramp at the next interchange. Furthermore, the access and exit points are alternately connected to north/south, then east/west arterials, making it confusing to navigate. Caltrans no longer uses this 'half interchange' concept and has plans to replace the five half interchanges with three full interchanges. This will create significant economies of scale and the new interchanges will improve local circulation by having one central freeway access point for each location instead of multiple locations as currently designed. The project will improve safety along the SR 99 corridor by improving ingress/egress from the freeway to the local streets. Other benefits include increased traffic capacity and improved traffic operations which will reduce truck idling times which will help improve air quality.

SR 41 Excelsior Expressway Project – This project will improve the regional movement of freight and goods, and local farm to market travel. The project will relieve congestion, separate oncoming traffic with a divided median, and break up traffic queues by providing major passing opportunities. The project is consistent with the Transportation Concept Report and the Regional Transportation Plan. This project will provide for continuity of the Route 41 corridor, meet present and future vehicular and goods movement traffic demands, and bring the highway up to current design standards. It will include Complete Streets elements, such as, new shoulders and intersection improvements that could benefit pedestrian and bicycle mobility.

D. Performance and Effectiveness of RTIP

Section 12. Evaluation of Cost Effectiveness of RTIP (Required per Section 19)

The cost-effectiveness of the RTIP on a regional level is based upon the following metrics and previously identified in Table B1. The programmed projects in the 2020 RTIP will improve traffic circulation and reduce congestion, enhance access and connectivity, improve regional movement of freight and goods and local farm to market travel, and improve safety.

Table B2 Evaluation – Cost-Effectiveness Indicators and Measures				
Goal	Indicator/Measure (per thousand dollar invested)	Current Level of Performance (Baseline)	Projected Performance Improvement (indicate timeframe)	
Congestion Reduction	Reduce Vehicle Miles Traveled (VMT) per capita	24.85	24.52	
	Reduce Percent of congested VMT (at or below 35 mph)	11.98%	11.58%	
	Change in commute mode share (travel to work or school)	Auto:92.3% Transit: 1.8% Walk: 4.6% Bike: 1.3%	Auto:90.1% Transit: 2.8% Walk: 5.5% Bike: 1.6%	
Infrastructure Condition	Reduce percent of distressed state highway lane-miles	4.29% (2016)	n/a	
	Improve Pavement Condition Index (local streets and roads)	n/a	n/a	
	Reduce percent of highway bridge deck area in Poor Condition	0.84% (2017)	n/a	
	Reduce percent of transit assets that have surpassed the FTA useful life period	21% (2017)	n/a	
System Reliability	Reduce Highway Buffer Index (the time cushion added to the average commute travel times to ensure on-time arrival).	1.6	n/a	
	Improve accessibility and on-time performance for rail and transit	n/a	n/a	
Safety	Reduce fatalities and serious injuries per capita	11.9/37.9 (per 100,000)	n/a	
	Reduce fatalities and serious injuries per VMT	1.294/4.118 (per 100 million)	n/a	
Economic Vitality	Increase percent of housing and jobs within 0.5 miles of transit stops with frequent transit service	8.68% housing / 20.6% jobs	n/a	
	Reduce mean commute travel time (to work or school)	20.0 minutes	20.4 minutes	
	Increase farebox recovery ratio	0.203 (2017)	n/a	
Environmental Sustainability	Change in acres of agricultural land	n/a	-38.2 acres	
	CO ₂ emissions reduction per capita	n/a	-10%	

Section 13. Project Specific Evaluation (Required per Section 19D)

Each RTIP shall include a project specific benefit evaluation for each new project proposed that estimates its benefits to the regional system from changes to the built environment, including, but limited to the items listed on page 10 of the STIP Guidelines. A project level evaluation shall be submitted for projects for which construction is proposed if:

- The total amount of existing and proposed STIP for right-of-way and/or construction of the project is \$15 million or greater, or
- The total project cost is \$50 million or greater.

The project level benefit evaluation shall include a Caltrans generated benefit/cost estimate, including life cycle costs for projects proposed in the ITIP. For the RTIP, the regions may choose between the Caltrans estimate and their own estimate (explain why the Caltrans estimate was not used). The project level benefit evaluation must explain how the project is consistent with Executive Order B-30-15 (Climate Change).

Please refer to Appendices 15 and 18, Projects Programming Request (PPR) Forms and the following Cal B/C analysis for project level benefit evaluation.

E. Detailed Project Information

Section 14. Overview of Projects Programmed with RIP Funding

South Fresno Interchange: Approximately \$3 million in 2018 STIP funds were programmed to environmentally clear three obsolete "half" interchanges along State Route 99. These interchanges are: North/Cedar, Central/Chestnut, and American Avenue. This project has been obligated and environmental work may be complete as early as FY 2020-21. The City of Fresno and Caltrans have requested that Fresno COG defer the Central/Chestnut interchange to a future date and proceed with North/Cedar and American Avenue interchanges as one project and continued as the South Fresno Interchange Project. The Measure C Expenditure Plan will reserve funding to begin design and right-of-way acquisition in FY 2020-21 using Measure C funding. STIP funds will be used on construction, which is planned in FY 2023-24. The total project cost is expected to be \$148.5 million. Fresno COG is requesting \$42.3 million in additional STIP county shares.

SR 41 Excelsior Expressway: This project widens 24 lane miles of SR 41 between Elkhorn Avenue and the Kings County Line, completing the improvement begun under the original measure. The primary funding comes from Caltrans' ITIP with a small component of the project being funded by RTIP funding. The ITIP will program construction with future ITIP funds. Total project costs have increased \$16.4 million to \$78.9 million. Additional STIP funds of \$5.75 million are requested bringing the total Fresno County shares on the project to \$7,750,000.

<u>State Route (SR) 180 W – Freeway landscaping:</u> This landscaping project is required mitigation for the SR 180 freeway extension west of SR 99 that was constructed by the original (1986-2006) Measure C program. The project has been carried over due to a lack of STIP funding. As a result of the delay, project costs have increased \$400,000 to \$6.29 million. With this cost increase in mind, \$400,000 in additional STIP funds are requested in FY 2020-21, bringing the total committed STIP funds on the project to \$5.74 million.

<u>Planning, Programming, & Monitoring (PPM):</u> Fresno COG is requesting an additional \$399,000 per year for the final two years (2023-24/24-25) in the STIP, for a total of \$798,000. This is below the 5 percent PPM limitation the CTC allows. Over the five year STIP period, \$1.99 million is programmed for administering the federal aid and STIP process.

Project Benefits

This project would eliminate the last two-lane segment of Route 41 between the City of Fresno and Route 198 in the City of Lemoore, a distance of over thirty miles. The project will also improve the regional movement of freight and goods, and local farm to market travel. The project would relieve congestion, separate oncoming traffic with a divided median, and breakup traffic queues by providing major passing opportunities. Route 41 is an Interregional High Emphasis Focus Route corridor essential to the economic development of the

Purpose and Need

Reduce congestion, Improve Safety, provide route continuity with the four-lane roads north and south of the project segment.□
Need: Caltrans has identified traffic queues, accident rates above average for similar facilities, and a lack of passing opportunities as issues in the operation of this segment.

Project Title

Veterans Boulevard Interchange and Extension Project

Location (Project Limits), Description (Scope of Work)

This project is part of a multiphase interchange and roadway extension project. Its located on Veterans Boulevard between Bullard Avenue/Riverside Drive and Bryan Avenue. The Veterans Boulevard project will result in the construction of a six-lane arterial roadway in northwest Fresno, a freeway interchange at SR-99, grade separations over the Union Pacific Railroad, High Speed Rail line and Golden State Boulevard and improvements to the roadways surrounding the project. This PPR updates the prior submission to reflect costs for Veterans Boulevard Interchange - Phase 3 for which STIP funds are being appropriated. Phase 3 schedule is below. Other phases are included on project info page 2.

Component		Implementing Agency									
PA&ED	Fresno, City of										
PS&E	Fresno, City of										
Right of Way	Fresno, City of										
Construction	Fresno, City of										
Legislative Distr	ricts										
Assembly:	23	Senate:	8	Congressional:	16,22						

Project Benefits

Veterans Boulevard is a regionally significant project wihich will improve traffic capacity and enhance traffic operations and mobility to accommodate traffic demands in California's Central Valley along State Route 99. The project also addresses east-west traffic issues faced when navigating local roadways.

Purpose and Need

The Veterans Boulevard project serves the needs of the local community along State Route 99 and accommodates future land use □ expansion. It also improves the east-west connectivity between north Fresno and the rural communities west of State Route 99 by □ reducing transportation barriers.

2020 RTIP FCOG Board Adoption Resolution

BEFORE THE FRESNO COUNCIL OF GOVERNMENTS RESOLUTION NO. 2019-34

In the Matter of: The 2020 STIP REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM

RESOLUTION ADOPTING THE 2020 STIP REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, the Fresno Council of Governments (Fresno COG) is a Regional Transportation Planning Agency and a Metropolitan Planning Organization, pursuant to State and Federal designation; and

WHEREAS, the CTC has adopted programming policies, instructions and criteria for the 2020 State Transportation Improvement Program process and fund estimate; and

WHEREAS, pursuant to the adopted CTC policies, instructions and criteria the Fresno COG, after consultation with Caltrans, is the responsible agency for adopting the Regional Transportation Improvement Program (RTIP) portion of the 2020 State Transportation Improvement Program for Fresno County and submitting the adopted RTIP to the California Transportation Commission (CTC) by December 15, 2019; and

WHEREAS, a Fresno County Regional Transportation Improvement Program has been prepared by Fresno COG in cooperation with its member agencies, Caltrans and the CTC in accordance with the 2020 STIP programming policies, instructions and criteria and fund estimate; and

WHEREAS, the Fresno County region RTIP identifies candidate projects for the 2020 STIP in the attached exhibit; and

WHEREAS, the 2020 Fresno County RTIP has been reviewed for consistency with the adopted Regional Transportation Plan for Fresno County,

NOW, THEREFORE, BE IT RESOLVED, that the Fresno COG does hereby adopt the Fresno County Regional Transportation Improvement Program for the expenditure of revenues derived from the 2020 State Transportation Improvement Program as identified in the attached exhibit.

THE FOREGOING RESOLUTION was passed and adopted by the Fresno Council of Governments this 11th day of December, 2019.

AYES: Clovis, Firebaugh, Fowler, Fresno City, Kerman, Kingsburg, Orange Cove, Parlier, Sanger, San Joaquin, Selma, Fresno County
