Appendix C

Budget Needs

Budget Needs Reports

The purpose of this section is to answer the question: ***If the City had all the money in the world, what sections should be fixed and how much will it cost?*** Based on the Maintenance & Rehabilitation (M&R) decision tree and the PCIs of the sections, the program will then select a maintenance or rehabilitation action and compute the total costs over a period of ten years. The Budget Needs represents the "ideal world" funding levels, while the Budget Scenario reports in the next section represent the most "cost effective" prioritization possible for the actual funding levels.

A budget needs analysis has been performed. The summary results from the analysis are shown below. An interest rate of 3% and an inflation factor of 3% were used to project the costs for the next ten years. This report shows the total ten-year budget that would be required to meet the City's standards as exemplified in the M&R decision tree.

Budget Needs reports included in this appendix are listed below:

- Projected PCI/Cost Summary
- Preventive Maintenance Treatment/Cost Summary
- Rehabilitation Treatment/Cost Summary

Appendix C-1

Projected PCI Cost Summary

Needs - Projected PCI/Cost Summary

This report summarizes and projects the network PCI over the ten-year analysis period, both with and without treatments applied. It also reports the associated costs, which are based on the treatment unit costs presented in the M&R decision tree.

Column	Description
Year	Year in the analysis period.
PCI Treated	Projected network average PCI with all needed treatments applied.
PCI Untreated	Projected network average PCI without any treatments applied.
PM Cost	Total preventive maintenance treatment cost.
Rehab Cost	Total rehabilitation treatment cost.
Cost	The budget required for each year in the analysis period to meet the City's standard as shown on the M&R decision tree.
Total Cost	Total budget required over a ten-year period.

City of Fresno

Appendix C-2

Preventive Maintenance Treatment Cost Summary

Needs - Preventive Maintenance Treatment/Cost Summary

This report summarizes each preventive maintenance treatment type, quantity of pavement affected, and total costs over the analysis period. It also summarizes the total quantities and costs over the next ten years.

Column	Description
Treatment	Type of preventive maintenance treatments needed.
Year	Year in the analysis period (i.e., 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034).
Area Treated	Quantities in linear feet (Seal Cracks) or square yard (Slurry Seal).
Cost	Maintenance treatment cost.

Rehabilitation Treatment Cost Summary

Needs - Rehabilitation Treatment/Cost Summary

This report summarizes each rehabilitation treatment type, quantity of pavement affected, and total costs over the analysis period. It also summarizes the total quantities and costs over the next ten years.

Column	Description
Treatment	Type of rehabilitation treatments needed.
Year	Year in the analysis period (i.e., 2025, 2026, 2027, 2028, 2029, 2030, 2031, 2032, 2033, 2034).
Area Treated	Quantities in square yard.
Cost	Rehabilitation treatment cost.

** - Treatment from Project Selection

486

MTC StreetSaver

Scenarios Criteria: Area ID = CC - City and County OR Area ID = CF - City of Fresno

City of Fresno
2600 Fresno Street
RM 4036
Fresno, CA 93721
(559) 621-8654

Scenarios - Sections Selected for Treatment

Interest: 3.00%

Inflation: 3.00%

Printed: 8/29/2025

Scenario: Sc2: Improve PCI to 70

Year: 2030
