Item 1. Constrained Project List

FRESNO COUNCIL OF GOVERNMENTS
2026 REGIONAL TRANSPORTATION PLAN
FINANCIALLY CONSTRAINED PROJECT LISTING (in \$1,000)

AGENCY	PROJECT ID	PROJECT TITLE	PROJECT DESCRIPTION	PROJECT TYPE	ESTIMATED OPEN TO TRAFFIC	ESTIMATED TOTAL COST (\$1,000)
Caltrans	FRE504145	Excelsior Expressway II	Convert SR 41 from 2 lane expressway to 4 lane expressway from Excelsior to Elkhorn Ave.	Streets & Roads - Capacity Increasing	2027-2031	\$55,000
Caltrans	FRE503997	Dickenson/SR-180 Roundabout	Construct Roundabout: Near Rolinda from 0.3 mi. west to 0.3 mi east of Dickenson Avenue Postmile: 47.65 / 47.65	Streets & Roads - Maintenance	2022-2026	\$12,080
Caltrans	FRE504124	SR 99/Mountain View Interchange	Modify/Reconstruct Interchange	Streets & Roads - Maintenance	2037-2041	\$12,600
Caltrans	FRE504142	SR 99/Ashlan Interchange	Reconstruct Interchange	Streets & Roads - Maintenance	2027-2031	\$10,000
Caltrans	FRE504151	SR 269/SR 145	Intersection Improvements Operational	Streets & Roads - Maintenance	2032-2036	\$6,000
Caltrans	FRE504154	Mendota Roundabout	Roundabout at SR 180/SR 33Operational/Safety	Streets & Roads - Maintenance	2032-2036	\$6,900
Caltrans	FRE504163	SR 41-Friant to Herndon: SB On-Ramp & Auxiliary Lane	Widen SB On-Ramp and Add 1 SB Auxiliary Lane Operational	Streets & Roads - Maintenance	2027-2031	\$40,000
Caltrans	FRE505086	Coalinga SR 33 2R Rehab	Pavement Rehabilitation (2R): In Coalinga from Merced Avenue to Los Gatos Creek South Channel Postmile: 14.7 / 16.7	Streets & Roads - Maintenance	2027-2031	\$16,500
Caltrans	FRE505087	El Dorado To Clinton Rehab	Roadway Rehabilitation (3R): In Fresno from 0.2 mi south of El Dorado Ave. Overcrossing to Clinton Ave. Overcrossing. Postmile: 21.2 / 24.4	Streets & Roads - Maintenance	2032-2036	\$367,300
Caltrans	FRE505088	Firebaugh 3R Rehab	Roadway Rehabilitation (3R): In and near Firebaugh from Morris Kyle Drive to 0.6 mi north of Clyde Fannon Drive Postmile: 69.4 / 72.9	Streets & Roads - Maintenance	2027-2031	\$19,361
Caltrans	FRE505089	FRE 168 Culvert Rehab	Repair & replace culverts: In Fresno County from 0.3 mi. east of Fowler Avenue Overcrossing to 0.1 mi. east of Warbler Road Postmile: R8.1 / 45.8	Streets & Roads - Maintenance	2027-2031	\$28,170
Caltrans	FRE505090	Fresno 198 Culvert Rehab	Repair, replace and reline culverts: In Fresno County on Route 198 from Monterey County Line to Kings County Line at various locations Postmile: 0 / 43	Streets & Roads - Maintenance	2027-2031	\$24,560
Caltrans	FRE505091	Fresno SR 41 Rehab	Rehabilitate Pavement: In Fresno County from the county line to 0.1 mile north of Elkhorn Avenue Postmile: R0.0 / M6.19	Streets & Roads - Maintenance	2027-2031	\$17,082
Caltrans	FRE505092	I-5 Rehab	Interstate 5 Rehab Postmile: 0 / 10	Streets & Roads - Maintenance	2027-2031	\$89,484
Caltrans	FRE505093	Selma To Fowler Rehab	Pavement Rehabilitation (2R): In and near Selma from 0.1 mi south of Second Street UC to 0.5 mi north of Merced Street UC. Postmiles: 5.7 / 11.1	Streets & Roads - Maintenance	2027-2031	\$9,543
Caltrans	FRE505094	Shields To Nees CAPM	Pavement Preservation (CAPM) with TMS, Signs & Lighting Upgrades: In Fresno County on I-5 from Shields Avenue OC to Merced County line. Postmiles: 60.1 / 66.16SHOPP PROJECT, NO SCORING NEEDEDVARIOUS LOCATION	Streets & Roads - Maintenance	2027-2031	\$20,750
Caltrans	FRE504137	SR 99/Shaw Interchange	Reconstruct Interchange	Streets & Roads - Operations	2032-2036	\$84,000

FRESNO COUNCIL OF GOVERNMENTS
2026 REGIONAL TRANSPORTATION PLAN
FINANCIALLY CONSTRAINED PROJECT LISTING (in \$1,000)

Caltrans	FRE504138	SR 99 @ American Avenue Interchange	American Ave @ SR 99-Interchange Improvements (Measure C Project RK in the Rural Regional Program)	Streets & Roads - Operations	2027-2031	\$61,600
Caltrans	FRE504144	SR 99/ Mendocino Interchange	Modify/Reconstruct Interchange	Streets & Roads - Operations	2042-2046	\$12,800
Caltrans	FRE504147	SR 168/Academy Roundabout	Construct Roundabout	Streets & Roads - Operations	2042-2046	\$6,250
Caltrans	FRE504152	SR 269/SR 198	Intersection Improvements Operational	Streets & Roads - Operations	2032-2036	\$6,000
Caltrans	FRE504153	SR 180/Academy intersection improvements	Add right turn channelization Operational	Streets & Roads - Operations	2032-2036	\$5,000
Caltrans	FRE504155	SR 180 Passing Lanes	Add passing lanes between Kerman and Mendota Operational	Streets & Roads - Operations	2032-2036	\$9,000
Caltrans	FRE504156	SR 33 Passing Lanes	Add passing lanes between Firebaugh and Mendota Operational	Streets & Roads - Operations	2027-2031	\$9,000
Caltrans	FRE504157	SR 198 Passing Lanes	Add passing lanes between between NAS Lemoore and I-5 Operational	Streets & Roads - Operations	2027-2031	\$9,000
Caltrans	FRE504160	WB SR 180 to NB SR 99 connector	Add additional lane Operational	Streets & Roads - Operations	2027-2031	\$4,500
Caltrans	FRE504161	SR 99/Stanslaus Interchange	Reconstruct Overcrossing Operational	Streets & Roads - Operations	2032-2036	\$7,000
Caltrans	FRE504162	SR 99/Tuolumne Interchange	SR 99/Tuolumne Interchange Operational	Streets & Roads - Operations	2032-2036	\$7,000
Caltrans	FRE505074	Connected and automated vehicle (CAV) ready infrastructure	Develop/Deploy Cloud-based and field infrastructure for CAV in partnership with City of Fresno, City Of Clovis, Fresno Co and Caltrans. Regional project to be implemented in both rural and urban areas.	Streets & Roads - Operations	2027-2031	\$5,000
Caltrans	FRE505075	SR 99 Interchange - North & Cedar	North/Cedar/SR 99-Improve Interchange	Streets & Roads - Operations	2027-2031	\$112,300
Caltrans	FRE505076	Changeable Message Signs (CMS)	Install new CMS in Fresno Co to enhance Traffic Management and provide real-time information to the traveling public. Regional project to be implemented in both rural and urbanized areas.	Streets & Roads - Operations	2027-2031	\$8,000
Caltrans	FRE505077	ITS Cameras	Install new ITS Cameras in Fresno Co for enhanced traffic visibility, proactive Traffic Management, and public access. Regional project to be implemented in both rural and urban areas.	Streets & Roads - Operations	2027-2031	\$2,000
Caltrans	FRE505078	Weather and Speed Warning System - central control system upgrade	Develop visibility and weather warning system software module for enhanced motorist safety. Regional project to be implemented in both rural and urban areas.	Streets & Roads - Operations	2027-2031	\$2,000
Caltrans	FRE505079	SR 41 SB off ramp widening to Friant	Widen SB off ramp to 4 lanes for operational improvements	Streets & Roads - Operations	2027-2031	\$12,000

FRESNO COUNCIL OF GOVERNMENTS
2026 REGIONAL TRANSPORTATION PLAN
FINANCIALLY CONSTRAINED PROJECT LISTING (in \$1,000)

Caltrans	FRE505080	SR 99 / Veterans Blvd - lighting improvements	Install lighting at the merge point of SR 99 SB on ramp at Veterans Blvd	Streets & Roads - Operations	2027-2031	\$400
Caltrans	FRE505081	Construction of new Traffic Management Center (TMC) Building	New TMC building - Relocate existing TMC to new location just West of Caltrans District Office on Olive Ave at 1352 W. Olive Ave.	Streets & Roads - Operations	2027-2031	\$15,000
Caltrans	FRE505082	Central control systems for new Traffic Management Center (TMC).	ITS central control systems to include Video wall, Server/Network systems, Operator Stations, Generator, UPS system, for new TMC building. District Office at 1352 W. Olive Ave	Streets & Roads - Operations	2027-2031	\$2,000
Caltrans	FRE505083	Broadband Wireless Communications for ITS	Install wireless broadband radios for ITS communications on Route 180. Connect Transportation Management System elements to TMC systems.	Streets & Roads - Operations	2027-2031	\$1,900
Caltrans	FRE505084	Fiber Optic Installation for ITS Communications	Install fiber optic cables, conduits, and vaults for ITS communications in partnership with State, City of Fresno, and Fresno County	Streets & Roads - Operations	2027-2031	\$15,000
Caltrans	FRE505085	Fiber Optic Hubs for ITS Communications	Upgrade to next generation fiber optic hubs for ITS communications. Regional project to be implemented in urbanized area.	Streets & Roads - Operations	2027-2031	\$900
Clovis Transit	FRE503805	Transit Operations Center: Site, Utilities, Electric Infrastructure	Transit	Transit	2027-2031	\$60,000
Clovis Transit	FRE504130	Clovis Transit Route Restructure Study	Study to strengthen network connectivity	Transit	2027-2031	\$250
Clovis Transit	FRE505022	Zero-Emission Buses and Supporting Infrastructure for Existing Fleet	Purchase zero-emission buses and related supporting infrastructure for transit service to replace existing fleet	Transit	2032-2036	\$60,000
Clovis Transit	FRE505025	Paratransit - Round Up	Fund Paratransit service operations	Transit	2022-2026	\$35,000
Clovis Transit	FRE505026	Transit Security Projects including Solar Lighting	Implement security and safety projects on buses and at transit stops including; building and lot access control; video surveillance; improved solar lighting at stops; etc.	Transit	2027-2031	\$2,000
Clovis Transit	FRE505028	Bike Racks	Acquire and install bicycle racks and other bike-related amenities on Clovis buses and facilities to encourage bike/bus connections	Transit	2027-2031	\$300
Clovis Transit	FRE505029	New/Expanded Bus Yard Facilities Study	Evaluate need for property acquisition for new operations facility, such as a new bus yard to accommodate future service expansions, vehicle increases, and infrastructure.	Transit	2027-2031	\$350
Clovis Transit	FRE505031	TNC Partnerships	Partner with transportation network company (TNC) providers to offer transportation alternatives/services and improve transportation options in the region.	Transit	2027-2031	\$2,000

FRESNO COUNCIL OF GOVERNMENTS
2026 REGIONAL TRANSPORTATION PLAN
FINANCIALLY CONSTRAINED PROJECT LISTING (in \$1,000)

Clovis Transit	FRE505032	Micromobility Service	Implement micromobility connections serving outlying service areas in the northeast, northwest, and east locations of the city. Purchase accessible vehicles to support this project.	Transit	2027-2031	\$2,000
Clovis Transit	FRE505033	Zero-Emission Buses and Supporting Infrastructure for Future Fleet (based on service expansions)	Purchase zero-emission buses and related supporting infrastructure for transit service expansions	Transit	2032-2036	\$12,500
Clovis Transit	FRE505035	Mobility Hubs Implementation	Implement mobility hubs at transit centers/stations around the city (Landmark Square, Dry Creek Park, Loma Vista) connecting different travel options - walking, biking, transit, and shared mobility to better connect high-frequency transit to individual points of origin/destination.	Transit	2027-2031	\$500
Clovis Transit	FRE505036	Extend Weekend Service Hours	Extend weekend service hours.	Transit	2032-2036	\$2,500
Clovis Transit	FRE505037	Real-Time Passenger Information	Deploy operational and infrastructure improvements such as "real time" bus arrival and departure information displays at higher-ridership stops to provide better service to transit users.	Transit	2027-2031	\$300
Clovis Transit	FRE505038	Microtransit Study	Evaluate micro-transit in areas with less frequent fixed route transit services and/or for night service or paratransit service.	Transit	2027-2031	\$350
Clovis Transit	FRE505039	Microtransit Service	Implement microtransit in select areas; for night service; and/or for paratransit service.	Transit	2032-2036	\$1,500
Clovis Transit	FRE505040	ADA Compliance and Associated Transit Improvements	Invest in enhanced transit station amenities, including ADA compliance, and improved passenger-waiting environments for existing bus stops across the city.	Transit	2027-2031	\$500
Clovis Transit	FRE505041	Park and Ride Lots Study	Evaluate need and feasibility of park and ride lots to serve future express transit corridors.	Transit	2032-2036	\$200
Clovis Transit	FRE505042	Preventive Maintenance for Facilities and Non-Revenue Vehicles	Maintain/repair all Clovis Transit vehicles as needed - Non-Revenue Vehicles.	Transit	2027-2031	\$200
Clovis Transit	FRE505043	Paratransit Vehicle and Equipment Purchase	Purchase zero-emission replacement paratransit cutaway buses, other revenue vehicles (like sedans), and associated radio/GPS and video equipment.	Transit	2027-2031	\$10,000
Clovis Transit	FRE505044	Enhanced Marketing and Public Outreach	Conduct public outreach on service expansions and market Clovis Transit services more proactively.	Transit	2027-2031	\$100
Clovis Transit	FRE505045	Passenger Training Initiative: Empowering Travelers Through Transit Education	Develop a travel training program to include schools and other social service programs.	Transit	2027-2031	\$500
Clovis Transit	FRE505047	Zero Emission Vehicle Maintenance Training	Train staff on operation, diagnosis and maintenance of zero emission vehicles.	Transit	2027-2031	\$1,500
Clovis Transit	FRE505048	Back-up Energy Storage	Implement large scale energy storage for back-up and emergency power of zero-emission vehicle chargers.	Transit	2027-2031	\$5,000
Clovis, City of	FRE500002	Fowler-Bullard to Barstow: Bike Lane	Bike Lane	Bike & Ped	2027-2031	\$17
Clovis, City of	FRE500005	Nees-Armstrong to Enterprise Canal: Bike Lane	Bike Lane	Bike & Ped	2027-2031	\$14

Appendix B. Financial

Item 3. Project Evaluation Criteria

Appendix B-3: Fresno COG Project Evaluation Criteria

This appendix provides detailed documentation of the Project Evaluation Criteria used to score and prioritize projects submitted through the 2026 Regional Transportation Plan (RTP) Call for Projects. The evaluation framework supports a transparent, consistent, and performance-based approach to project selection, ensuring alignment with RTP goals, policies, and objectives.

Projects are evaluated using a multi-criteria scoring system designed to assess how well each project contributes to key regional priorities, including mobility and access, safety, equity, system preservation, environmental sustainability, and deliverability. Each project receives a numerical score based on defined criteria, and projects with higher scores are prioritized for inclusion in the RTP's financially constrained project list, subject to available funding.

A key enhancement in the 2026 RTP is the use of a project-type-specific evaluation framework. Rather than applying a single set of criteria to all projects, each project is evaluated based on its primary category: Bike and Pedestrian, Roads – Non-Capacity Increasing Maintenance, Roads - Non-Capacity Increasing Operation, Roads-Capacity Increasing, Transit, or Miscellaneous. Each category includes tailored criteria and weighting structures to better reflect the intended function and outcomes of the project. This approach improves the accuracy and fairness of project evaluation while reducing potential scoring bias.

Multimodal projects are evaluated based on their primary category but may receive additional scoring consideration through criteria related to multimodal connectivity and system integration.

Evaluation criteria are organized into topic areas (e.g., Mobility & Access, Safety, Equity, Resiliency, and Deliverability), with weights that vary by project category. Quantitative criteria are evaluated by Fresno COG staff using GIS-based analysis and standardized datasets, while qualitative criteria are informed by information provided by project sponsors.

The detailed criteria, scoring scales, and weighting structures for each project category are presented in the following sections of this appendix. Together, these criteria provide the technical foundation for project scoring and support a consistent and defensible decision-making process for RTP project prioritization.

Project Category & Topic Areas weights

Topic weights	Bike & Ped	Maintenance	Capacity increasing	Operation	Transit
Mobility & Access	25%	20%	45%	30%	35%
Equity	20%	15%	15%	15%	20%
Safety	15%	10%	10%	20%	10%
Resiliency	20%	35%	10%	20%	20%
Deliverability	20%	20%	20%	15%	15%
Total	100%	100%	100%	100%	100%

Evaluation Criteria Structure

Bicycle and Pedestrian Projects

Criteria scored by sponsor or need additional info from sponsor are marked in yellow

Q1	Bike/ped Connectivity	Note	Total weights by criteria group
10%	Would this facility connect to an existing or planned bike or pedestrian network?	Scored by project sponsor	
	100 (1) Bike infrastructure connecting to existing Class I & IV bikeways (Bike Paths & Cycle Tracks) OR (2) Pedestrian infrastructure gap closure		
	50 (1) Bike infrastructure connecting to existing Class II bikeways / Bike Lanes OR (2) Bike infrastructure connecting to planned Class I & IV bikeways / Bike Paths & Cycle Tracks OR (3) Pedestrian infrastructure connecting to existing sidewalks or trails		
	25 (1) Bike infrastructure connecting to existing Class III bikeways/ Bike Routes OR (2) Bike infrastructure connecting to planned Class II bikeways/ Bike Lanes OR (3) Pedestrian infrastructure connecting to planned sidewalks or trails		
	15 Bike infrastructure connecting to planned Class III bikeways/ Bike Routes		
	0 Not connecting to existing or planned bike or Pedestrian network		
Q2	Transit Connectivity	Note	
5%	How far from this project location to a transit stop	Scored by FCOG staff based on GIS file provided by project sponsor.	
	100 < 0.25 mile		
	50 0.25 - 0.5 mile		
	25 0.5 - 1 mile		
	0 > 1 mile		
Q3	Improve Access to Destinations	Note	
5%	How many housing units and jobs are along the new route (1/4 miles buffer) ?	Scored by FCOG staff based on GIS file provided by project sponsor and ranking of all proposed new bike/ped projects	
	100 80 - 100th percentile		
	75 60 - 70th percentile		
	50 40 - 50th percentile		
	25 20 - 30th percentile		
	0 0 - 10th percentile		
Q4	Serve communities lacking multimodal accessibility	Note	
5%	What are the Caltrans Transportation Equity Index (EQI) access-to-destinations indicators of the project location	Scored by FCOG staff based on GIS file provided by project sponsor	
	100 Poor relative bike AND pedestrian access to destinations		
	50 Poor relative bike OR pedestrian access to destinations		
	0 Relatively good access to destinations by bike or ped		

Mobility & Access
25%

A

B

C

- Part A: The weight of a question
- Part B: Points of a project got by answer to a question.
- Part C: The weight of a question group
- Total score = Sum of products of A & B = (A1 * B1 + A2 * B2 + ... + An * Bn)
- Maximum is 100 points

Question to be answered by project sponsor

Q1	Bike/ped Connectivity	Note
10%	Would this facility connect to an existing or planned bike or pedestrian network?	Scored by project sponsor
	100 (1) Bike infrastructure connecting to existing Class I & IV bikeways (Bike Paths & Cycle Tracks) OR (2) Pedestrian infrastructure gap closure	
	50 (1) Bike infrastructure connecting to existing Class II bikeways / Bike Lanes OR (2) Bike infrastructure connecting to planned Class I & IV bikeways / Bike Paths & Cycle Tracks OR (3) Pedestrian infrastructure connecting to existing sidewalks or trails	
	25 (1) Bike infrastructure connecting to existing Class III bikeways/ Bike Routes OR (2) Bike infrastructure connecting to planned Class II bikeways/ Bike Lanes OR (3) Pedestrian infrastructure connecting to planned sidewalks or trails	
	15 Bike infrastructure connecting to planned Class III bikeways/ Bike Routes	
	0 Not connecting to existing or planned bike or Pedestrian network	

Question to be answered by FCOG GIS analysis

Q2	Transit Connectivity	Note
5%	How far from this project location to a transit stop	Scored by FCOG staff based on GIS file provided by project sponsor.
	100 < 0.25 mile	
	50 0.25 - 0.5 mile	
	25 0.5 - 1 mile	
	0 > 1 mile	

Supply info project sponsor could provide

Q5	Addresses Equity	Note
10%	Would this facility serve an EJ community or improve accessibility for disadvantaged population?	If the project serves a specific EJ community or EJ population, please identify details (Community location or specific EJ groups, e.g. poverty, race/ethnicity, linguistic isolation, zero vehicle family, people with disabilities) in the project description and score 100 for Q5
	100 Will serve an area identified as FCOG Equity Priority Communities or serve specific EJ group	
	50 Will serve an area identified as FCOG Disadvantaged Communities	
	0 Will not serve a disadvantaged community or serve specific EJ group	

If service specific EJ community or EJ group, please list here

Evaluation Criteria by Project Category

Bicycle and Pedestrian Projects

Criteria scored by sponsor or need additional info from sponsor are marked in yellow

10%	Q1	Bike/ped Connectivity	Note	Mobility & Access 25%
	Would this facility connect to an existing or planned bike or pedestrian network?		Scored by project sponsor	
	100	(1) Bike infrastructure connecting to existing Class I & M bikeways (Bike Paths & Cycle Tracks) OR (2) Pedestrian infrastructure gap closure		
	50	(1) Bike infrastructure connecting to existing Class II bikeways / Bike Lanes OR (2) Bike infrastructure connecting to planned Class I & IV bikeways / Bike Paths & Cycle Tracks OR (3) Pedestrian infrastructure connecting to existing sidewalks or trails		
	25	(1) Bike infrastructure connecting to existing Class III bikeways / Bike Routes OR (2) Bike infrastructure connecting to planned Class II bikeways / Bike Lanes OR (3) Pedestrian infrastructure connecting to planned sidewalks or trails		
	15	Bike infrastructure connecting to planned Class III bikeways / Bike Routes		
0	Not connecting to existing or planned bike or pedestrian network			
5%	Q2	Transit Connectivity	Note	
	How far from this project location to a transit stop		Scored by FCOG staff based on GIS file provided by project sponsor.	
	100	< 0.25 mile		
	50	0.25 - 0.5 mile		
	25	0.5 - 1 mile		
0	> 1 mile			
5%	Q3	Improve Access to Destinations	Note	
	How many housing units and jobs are along the new route (1/4 miles buffer)?		Scored by FCOG staff based on GIS file provided by project sponsor and ranking of all proposed new bike/ped projects	
	100	80 - 100th percentile		
	75	60 - 79th percentile		
	50	40 - 59th percentile		
	25	20 - 39th percentile		
0	0 - 19th percentile			
5%	Q4	Serve communities lacking multimodal accessibility	Note	
	What are the Caltrans Transportation Equity Index (EQI) access-to-destinations indicators of the project location		Scored by FCOG staff based on GIS file provided by project sponsor	
	100	Poor relative bike AND pedestrian access to destinations		
	50	Poor relative bike OR pedestrian access to destinations		
	0	Relatively good access to destinations by bike or ped		
10%	Q5	Addresses Equity	Note	Equity 20%
	Would this facility serve an EJ community or improve accessibility for disadvantaged population?		If the project serves a specific EJ community or EJ population, please identify details (Community location or specific EJ group, e.g., poverty, race/ethnicity, linguistic isolation, zero vehicle family, people with disabilities) in the project description and score 100 for Q5	
	100	Will serve an area identified as FCOG Equity Priority Communities or serve specific EJ group		
	50	Will serve an area identified as FCOG Disadvantaged Communities		
	0	Will not serve a disadvantaged community or serve specific EJ group		
If service specific EJ community or EJ group, please list here				
5%	Q6	Health promotion	Note	
	Would this project serve a community with high health burdens?		Scored by FCOG staff based on GIS file provided by project sponsor, and Health Priority Index (HPI). Health measures include: (1) Diabetes (2) Infant birth rate (3) Cancer (4) Asthma (5) Coronary Heart Disease (6) YPLL Years of potential life lost	
	100	In highest 25% of census tracts with regard to the prevalence of 4 and 4+ HPI individual health measures		
	75	In highest 25% of census tracts with regard to the prevalence of 3 HPI individual health measures		
	50	In highest 25% of census tracts with regard to the prevalence of 2 HPI individual health measures		
	25	In highest 25% of census tracts with regard to the prevalence of 1 HPI individual health measure		
0	Not in highest 25% of census tracts with regard to the prevalence of any HPI individual health measures			
5%	Q7	Promote affordable housing	Note	
	Would this bike/ped facility serve an existing or planned affordable housing?		Scored by project sponsor: Existing affordable housing: (1) Public Housing, (2) Housing Choice Voucher (HCV, formerly Section 8) housing, (3) Low Income Housing Tax Credit Properties, (4) Low Income, Elderly, and Special Needs Housing, (5) Farm Labor Housing, (6) Migrant Worker Housing, etc. Planned affordable housing: zoning or development codes that include inclusionary housing or ordinances, or subsidies or requirements that support or permit affordable housing.	
	100	Will serve an existing or planned affordable housing		
0	Won't serve an existing or planned affordable housing			

Q8	Historical safety	Note	Safety 15%										
5%	What is the ranking percentile of the Caltrans Transportation Equity Index (EQI) Crash exposure indicator of the project location? <table border="1"> <tr><td>100</td><td>80 -100th percentile</td></tr> <tr><td>75</td><td>60 -79th percentile</td></tr> <tr><td>50</td><td>40 -59th percentile</td></tr> <tr><td>25</td><td>20 -39th percentile</td></tr> <tr><td>0</td><td>0 -19th percentile</td></tr> </table>	100		80 -100th percentile	75	60 -79th percentile	50	40 -59th percentile	25	20 -39th percentile	0	0 -19th percentile	Scored by FCOG staff based on GIS file provided by project sponsor; If a project located < 0.25 miles from a school, score 100 for Q8
100	80 -100th percentile												
75	60 -79th percentile												
50	40 -59th percentile												
25	20 -39th percentile												
0	0 -19th percentile												
Q9	Safety Countermeasures	Note											
10%	What is the potential effectiveness of safety countermeasures in this project <table border="1"> <tr><td>100</td><td>High (Walkways, Separated bicycle lane, Pedestrian Hybrid Beacons...)</td></tr> <tr><td>75</td><td>Medium-High (Medians and Pedestrian Refuge Islands, Rectangular Rapid Flashing Beacons (RRFB) ...)</td></tr> <tr><td>50</td><td>Medium-Low (Lighting, Leading Pedestrian Interval...)</td></tr> <tr><td>25</td><td>Low (Enhanced signing and pavement markings...)</td></tr> <tr><td>0</td><td>None</td></tr> </table>	100	High (Walkways, Separated bicycle lane, Pedestrian Hybrid Beacons...)	75	Medium-High (Medians and Pedestrian Refuge Islands, Rectangular Rapid Flashing Beacons (RRFB) ...)	50	Medium-Low (Lighting, Leading Pedestrian Interval...)	25	Low (Enhanced signing and pavement markings...)	0	None	Scored by project sponsor. Verified by FCOG staff based on FHWA's Proven Safety Countermeasures	
100	High (Walkways, Separated bicycle lane, Pedestrian Hybrid Beacons...)												
75	Medium-High (Medians and Pedestrian Refuge Islands, Rectangular Rapid Flashing Beacons (RRFB) ...)												
50	Medium-Low (Lighting, Leading Pedestrian Interval...)												
25	Low (Enhanced signing and pavement markings...)												
0	None												
Safety countermeasure if any													
Q10	Compact (Infill) development	Note	Resiliency 20%										
5%	Would the project support compact development (e.g. Mixed Uses, Narrower Streets, Pedestrian Orientation, Transit Orientation...)? <table border="1"> <tr><td>100</td><td>Yes</td></tr> <tr><td>0</td><td>No</td></tr> </table>	100		Yes	0	No	Scored by project sponsor.						
100	Yes												
0	No												
Q11	Climate Adaptation	Note											
5%	Does the project reflect designs to mitigate or adapt to climate (extreme heat, flood risk...)? <table border="1"> <tr><td>100</td><td>Yes</td></tr> <tr><td>0</td><td>No</td></tr> </table>	100	Yes	0	No	Scored by project sponsor. Please list the detail the climat adaptation design							
100	Yes												
0	No												
Please list the climate adaptation design in this project													
Q12	Emission reduction	Note	Feasibility 20%										
10%	Where does this project rank in the potential vehicle trip replacement by all proposed bike and ped projects? <table border="1"> <tr><td>100</td><td>80 -100th percentile</td></tr> <tr><td>75</td><td>60 -79th percentile</td></tr> <tr><td>50</td><td>40 -59th percentile</td></tr> <tr><td>25</td><td>20 -39th percentile</td></tr> <tr><td>0</td><td>0 -19th percentile</td></tr> </table>	100		80 -100th percentile	75	60 -79th percentile	50	40 -59th percentile	25	20 -39th percentile	0	0 -19th percentile	Scored by FCOG staff based on Miles of new bike/ ped lanes AND traffic volume of parallel collectors or local roads. Please list the project lane miles
100	80 -100th percentile												
75	60 -79th percentile												
50	40 -59th percentile												
25	20 -39th percentile												
0	0 -19th percentile												
Please list the project type (new bike or new ped) and length in miles													
Q13	Complete year	Note	Feasibility 20%										
10%	When will the project be complete? <table border="1"> <tr><td>100</td><td>2026 - 2030</td></tr> <tr><td>75</td><td>2031 - 2040</td></tr> <tr><td>50</td><td>2041 - 2050</td></tr> <tr><td>25</td><td>2051 - 2060</td></tr> <tr><td>0</td><td>After 2060</td></tr> </table>	100		2026 - 2030	75	2031 - 2040	50	2041 - 2050	25	2051 - 2060	0	After 2060	Scored by project sponsor. 25	2051 - 2060												
0	After 2060												
Please list the estimated project complete year													
Q14	Potential environmental effect	Note	Feasibility 20%										
5%	What is the percentage of the project footprint overlaid with an area of critical environmental resources? <table border="1"> <tr><td>100</td><td>0%</td></tr> <tr><td>75</td><td>1%-25%</td></tr> <tr><td>50</td><td>26%-50%</td></tr> <tr><td>25</td><td>51%-80%</td></tr> <tr><td>0</td><td>81%-100%</td></tr> </table>	100		0%	75	1%-25%	50	26%-50%	25	51%-80%	0	81%-100%	Scored by FCOG staff based on GIS file provided by project sponsor; The area with critical environmental resources includes wildlife habitat, greenspace, wetlands, flood plains, groundwater recharge area, important farmland, undeveloped area
100	0%												
75	1%-25%												
50	26%-50%												
25	51%-80%												
0	81%-100%												
Q15	Consistent with local plan	Note											
5%	Would the project be consistent with local plans and policies? <table border="1"> <tr><td>100</td><td>Yes</td></tr> <tr><td>0</td><td>No</td></tr> </table>	100	Yes	0	No	Scored by project sponsor.							
100	Yes												
0	No												

Roads - Non-Capacity Increasing MAINTENANCE Projects

Criteria scored by sponsor or need additional info from sponsor are marked in yellow

Q1	Regional Significance		Note	Total weights by criteria group	
10%	Would this facility be part of or connect to the road of regional significance?		Scored by FCOG staff based on GIS file provided by project sponsor	Mobility & Access 20%	
	100	The facility will be part of or connect to National Highway System (NHS)			
	50	The facility will be part of or connect to Fresno regional significant network			
	0	The facility won't be part of or connect to National Highway System (NHS), or Fresno regional significant network			
Q2	Complete Street		Note		
5%	Is complete street design included in the project?		Scored by project sponsor; Does the project reflect the designs and amenities of complete streets? Would it include road diet, bike lanes or sidewalks along the road, bus lanes, accessible public transportation stops or contain any other design that enables safe access for all users?		
	100	Yes			
	0	No			
Q3	Traffic volume		Note		
5%	What is the Annual Average Daily Traffic (AADT) on the project segment?		Scored by FCOG staff based on GIS file provided by project sponsor and ranking of all proposed new maintenance projects in two categories (Urban / Rural)		
	100	80 -100th percentile			
	75	60 -79th percentile			
	50	40 -59th percentile			
	25	20 -39th percentile			
	0	0 -19th percentile			
Q4	Addresses Equity		Note	Equity 15%	
10%	Would this facility serve a EJ community or improve accessibility for disadvantaged population?		If the project serve a specific EJ community or EJ population, please identify details (Community location or specific EJ group, e.g. poverty, race minority, Linguistic isolation, zero vehicle family, people with disabilities) in the project description and score 100 for Q5		
	100	Will serve an area identified as FCOG Equity Priority Communities or serve specific EJ group			
	50	Will serve an area identified as FCOG Disadvantaged Communities			
	0	Will not serve a disadvantaged community or serve specific EJ group			
If serve a specific EJ community or EJ group, please list here					
Q5	Promote affordable housing		Note		
5%	Would this facility serve an existing or planned affordable housing?		Scored by project sponsor; Existing affordable housing : (1) Public Housing, (2)Housing Choice Voucher (HCV, formerly Section 8) housing, (3) Low Income Housing Tax Credit Properties, (4) Low Income, Elderly, and Special Needs Housing, (5) Farm Labor Housing, (6) Migrant Worker Housing, etc. Planned affordable housing : zoning or development codes that include inclusionary housing ordinances, or subsidies or requirements that support or permit affordable housing.		
	100	Will serve an existing or planned affordable housing			
	0	Won't serve an existing or planned affordable housing			
Q6	Historical safety		Note		Safety 10%
5%	What is the ranking percentile of the Caltrans Transportation Equity Index (EQI) Crash exposure indicator of the project location?		Scored by FCOG staff based on GIS file provided by project sponsor; If a project located < 0.25 miles from a school, score 100 for Q6		
	100	80 -100th percentile			
	75	60 -79th percentile			
	50	40 -59th percentile			
	25	20 -39th percentile			
	0	0 -19th percentile			
Q7	Safety countermeasures		Note		
5%	What is the potential effectiveness of safety countermeasures in this project		Scored by project sponsor. Verified by FCOG staff based on FHWA's Proven Safety Countermeasures		
	100	High (Median Barriers ...)			
	75	Medium-High (Enhanced Delineation for Horizontal Curves ...)			
	50	Medium-Low (Pavement Friction Management, Roadside Design Improvements at Curves ...)			
	25	Low (SafetyEdge, Enhanced signing and pavement markings...)			
	0	None			
Safety countermeasure if any					

Q8	Compact (Infill) development		Note	Resiliency 35%	
5%	Would the project support compact development(E.g. Mixed Uses, Narrower Streets, Pedestrian Orientation, Transit Orietation...)?		Scored by project sponsor.		
	100	Yes			
	0	No			
Q9	Climate Adaptation		Note		Resiliency 35%
5%	Does the project reflect designs to mitigate or adapt to climate (extreme heat, flood risk...)?		Scored by project sponsor. Please list the detail the climat adaptation design		
	100	Yes			
	0	No			
Please list the climat adaptation design in this project					
Q10 a	Current condition (pavement)		Note		
20%	What is the pavement rating in the Pavement Condition Index (PCI) of this facility?		Scored by project sponsor		
	100	Very Poor; PCI < 25 (The pavement has severe weather-related distress as well as large quantities of load-related distresses. The pavement is nearing the end of its service life.)			
	75	Poor; PCI between 25-49 (The pavement has moderate to severe surface distresses. Extensive weathering or raveling, block cracking, and load-related distresses such as alligator cracking, rutting, and potholes may occur.)			
	50	Fair, Loaded; PCI between 50-69 (Pavements which have a significant level of distress that are predominantly load related such as alligator cracking and minor rutting, etc. The pavement structure is becoming deficient (minimal base failure).)			
	25	Fair, NonLoaded; PCI between 50-69 (Pavements which have a significant level of distress that are predominantly non-load related such as longitudinal/transverse cracks, bleeding, block cracking, weathering and raveling, etc. The pavement structure is sound and some oxidation has occurred.)			
	0	Good; PCI >= 70 (minimal surface distress)			
Q10 b	Current condition (other than pavement or PCI not available)		Note	Resiliency 35%	
20%	What is the ratio of the asset age (Years since built or the last repair) to the asset Useful Service Life?		Scored by project sponsor. Asset useful service life reference: NCHRP Report 713 study Estimating Life Expectancies of Highway Assets, Volume 2: Final Report (2012) (Traffic signals 13 years asphaltic pavement 25 years Pavements (Resurfacing) 12 years Pavement markings 2 years Bridge 50 years Culvert 30 Years traffic sign 12 years)		
	100	> 80% of Useful Service Life OR Very poor or serious deterioration, warranting replacement			
	75	61 - 80% of Useful Service Life OR Poor condition			
	50	41 - 60% of Useful Service Life OR Fair condition			
	25	21 - 40% of Useful Service Life OR Good condition			
	0	< 20% of Useful Service Life OR Excellent condition, like new			
Q11	Pavement Management System participation		Note		Resiliency 35%
5%	Does the project sponsor participate in a regularly updated Pavement Management System?		Scored by project sponsor		
	100	Yes			
	0	No			
Q12	Complete year		Note	Feasibility 20%	
15%	When will the project be complete?		Scored by project sponsor. Please list the project complete year		
	100	2026 - 2030			
	75	2031 - 2040			
	50	2041 - 2050			
	25	2051 - 2060			
	0	After 2060			
Please list the estimated project complete year					
Q13	Consistent with local plan		Note		Feasibility 20%
5%	Would the project be consistent with local plans and policies?		Scored by project sponsor.		
	100	Yes			
	0	No			

Roads - Capacity Increasing Projects

Criteria scored by sponsor or need additional info from sponsor are marked in yellow

15%	Q1Regional Significance		Note	Mobility & Access 45%	
	Would this facility be part of or connect to the road of regional significance?		Scored by FCOG staff based on GIS file provided by project sponsor.		
	100	The facility will be part of or connect to National Highway System (NHS)			
	50	The facility will be part of or connect to Fresno regional significant network			
0	The facility won't be part of or connect to National Highway System (NHS), or Fresno regional significant network				
10%	Q2Relieves congestion		Note		
	Is this project located in a highly congested area (peak hour TTI > 2 or LOS = F)		Scored by FCOG staff based on GIS file provided by project sponsor. Travel Time Index (TTI) is the ratio of travel times during congestion to during light traffic. TTI = 2 means double the time needed to pass a road segment during peak hours		
	100	< 0.25 mile			
	50	0.25 - 0.5 mile			
	25	0.5 - 1 mile			
0	> 1 mile				
10%	Q3Improve Access to Destinations		Note		
	Does this facility connect to an activity center (employment density greater than 5,000 per sq. mi.) ?		Scored by FCOG staff based on GIS file provided by project sponsor		
	100	Yes			
0	No				
10%	Q4Complete Street		Note		
	Is complete street design included in the project?		Scored by project sponsor; Does the project reflect the designs and amenities of complete streets? Would it include bike lanes or sidewalks along the road, bus lanes, accessible public transportation stops or any other design that enables safe access for all users?		
	100	Yes			
	0	No			
Complete street design in the project					
10%	Q5Addresses Equity		Note	Equity 15%	
	Would this facility serve a EJ community or improve accessibility for disadvantaged population?		If the project serve a specific EJ community or EJ population, please identify details (Community location or specific EJ group, e.g. poverty, race minority, Linguistic isolation, zero vehicle family, people with disabilities) in the project description and score 100 for Q5.		
	100	Will serve an area identified as FCOG Equity Priority Communities or serve specific EJ group			
	50	Will serve an area identified as FCOG Disadvantaged Communities			
0	Will not serve a disadvantaged community or serve specific EJ group				
If serve specific EJ community or EJ group, please list here					
5%	Q6Promote affordable housing		Note		
	Would this capacity-increasing project serve an existing or planned affordable housing?		Scored by project sponsor; Existing affordable housing : (1) Public Housing, (2)Housing Choice Voucher (HCV, formerly Section 8) housing, (3) Low Income Housing Tax Credit Properties, (4) Low Income, Elderly, and Special Needs Housing, (5) Farm Labor Housing, (6) Migrant Worker Housing, etc. Planned affordable housing : zoning or development codes that include inclusionary housing ordinances, or subsidies or requirements that support or permit affordable housing.		
	100	Will serve an existing or planned affordable housing			
0	Won't serve an existing or planned affordable housing				

Q7	Safety Countermeasures		Note	Safety 10%
10%	<i>What is the potential effectiveness of safety countermeasures in this project</i>		Scored by project sponsor. Verified by FCOG staff based on FHWA's Proven Safety Countermeasures	
	100	High (Walkways, Separated bicycle lane, Appropriate Speed Limits for All Road Users...)		
	75	Medium-High (Enhanced Delineation for Horizontal Curves ...)		
	50	Medium-Low (Pavement Friction Management, Roadside Design Improvements at Curves, Longitudinal Rumble Strips and Stripes on Two-Lane Roads ...)		
	25	Low (SafetyEdge, Enhanced signing and pavement markings ...)		
0	None			
Safety countermeasure if any				

Q8	Compact (Infill) development		Note	Resiliency 10%
5%	<i>Would the project support compact development(E.g. Mixed Uses, Narrower Streets, Pedestrian Orientation, Transit Orientation...)?</i>		Scored by project sponsor.	
	100	Yes		
	0	No		
Q9	Emission mitigation		Note	
5%	<i>Would the project add High Occupancy Vehicle Lane(HOV), High Occupancy Toll Lane(HOT), or Peak-Only Bus Lane?</i>		Scored by project sponsor.	
	100	Yes		
	0	No		

Q10	Complete year		Note	Feasibility 20%
10%	<i>When will the project be complete?</i>		Scored by project sponsor. Please list the project complete year	
	100	2026 - 2030		
	75	2031 - 2040		
	50	2041 - 2050		
	25	2051 - 2060		
	0	After 2060		
Please list the estimated project complete year				
Q11	Potential environmental effect		Note	
5%	<i>What is the percentage of the project footprint overlaid with an area of critical environmental resources?</i>		Scored by FCOG staff based on GIS file provided by project sponsor; The area with critical environmental resources include wildlife habitat, greenspace, wetlands, flood plains, groundwater recharge area, important farmland, undeveloped area	
	100	0%		
	75	1%-25%		
	50	26%-50%		
	25	51%-80%		
	0	81%-100%		
Q12	Consistent with local plan		Note	
5%	<i>Would the project be consistent with local plans and policies?</i>		Scored by project sponsor.	
	100	Yes		
	0	No		

Roads - Non-Capacity Increasing OPERATIONS Projects

Criteria scored by sponsor or need additional info from sponsor are marked in yellow

Q1	Regional Significance		Note	Total weights by criteria group	
10%	Would this facility be part of or connect to the road of regional significance?		Scored by FCOG staff based on GIS file provided by project sponsor	Mobility & Access 30%	
	100	The facility will be part of or connect to National Highway System (NHS)			
	50	The facility will be part of or connect to Fresno regional significant network			
	0	The facility won't be part of or connect to National Highway System (NHS), or Fresno regional significant network			
Q2	Congestion mitigation		Note		
10%	Would this project be located in a highly congested area (peak hour TTI > 2 or LOS = F) and relief the congestion?		Scored by FCOG staff based on GIS file provided by project sponsor.		
	100	Yes			
	0	No			
Q3	Traffic volume		Note		
5%	What is the Annual Average Daily Traffic (AADT) on the project segment?		Scored by FCOG staff based on GIS file provided by project sponsor and ranking of all proposed new operation projects in two categories (Urban / Rural)		
	100	80 - 100th percentile			
	75	60 - 75th percentile			
	50	40 - 50th percentile			
	25	20 - 30th percentile			
	0	0 - 10th percentile			
Q4	Complete Street		Note		
5%	Is complete street design included in the project?		Scored by project sponsor. Does the project reflect the design and amenities of complete streets? Would it include bike lanes or sidewalks along the road, bus lanes, accessible public transportation stops or contain any other design that enables safe access for all users		
	100	Yes			
	0	No			
Complete street design in the project					
Q5	Addresses Equity		Note	Equity 15%	
10%	Would this facility serve a EJ community or improve accessibility for disadvantaged population?		If the project serve a specific EJ community or EJ population, please identify details (Community location or specific EJ group, e.g. poverty, race minority, linguistic isolation, zero vehicle family, people with disabilities) in the project description and score 100 for Q5		
	100	Will serve an area identified as FCOG Equity Priority Communities or serve specific EJ group			
	50	Will serve an area identified as FCOG Disadvantaged Communities			
	0	Will not serve a disadvantaged community or serve specific EJ group			
If serve specific EJ community or EJ group, please list here					
Q6	Promote affordable housing		Note		
5%	Would this project serve an existing or planned affordable housing?		Scored by project sponsor; Existing affordable housing: (1) Public Housing, (2) Housing Choice Voucher (HCV, formerly Section 8) housing, (3) Low Income Housing Tax Credit Properties, (4) Low Income, Elderly, and Special Needs Housing, (5) Farm Labor Housing, (6) Migrant Worker Housing, etc. Planned affordable housing: zoning or development codes that include inclusionary housing or densities, or subsidies or requirements that support or permit affordable housing.		
	100	Will serve an existing or planned affordable housing			
	0	Won't serve an existing or planned affordable housing			
Q7	Historical safety		Note	Safety 20%	
10%	What is the ranking percentile of the Caltrans Transportation Equity Index (EQI) Crash exposure indicator of the project location?		Scored by FCOG staff based on GIS file provided by project sponsor; If a project located < 0.25 miles from a school, score 100 for Q7		
	100	80 - 100th percentile			
	75	60 - 75th percentile			
	50	40 - 50th percentile			
	25	20 - 30th percentile			
	0	0 - 10th percentile			
Q8	Safety Countermeasures		Note		
10%	What is the potential effectiveness of safety countermeasures in this project?		Scored by project sponsor. Verified by FCOG staff based on FHWA's Proven Safety Countermeasures		
	100	High (Roundabouts, Reduced Left-Turn Conflict Intersections, Appropriate Speed Limits for All Road Users...)			
	75	Medium-High (Road Diet, Yellow Change Intervals, Variable Speed Limits...)			
	50	Medium-Low (Dedicated Left- and Right-Turn Lanes at Intersections...)			
	25	Low (Backplates with Retroreflective Borders, Enhanced signing and pavement markings...)			
	0	None			
Safety countermeasure if any					

Q9	Compact (Infill) development	Note	Resiliency 20%
5%	Would the project support compact development(E.g. Mixed Uses, Narrower Streets, Pedestrian Orientation, Transit Orientation...)?	Scored by project sponsor.	
	100 Yes		
	0 No		
Q10	Climate Adaptation	Note	
5%	Does the project reflect designs to mitigate or adapt to climate (extreme heat, flood risk...)?	Scored by project sponsor. Please list the detail the climat adaptation design	
	100 Yes		
	0 No		
Please list the climat adaptation design in this project			
Q11	Emission Reduction	Note	Feasibility 15%
10%	Would the project help to reduce the on-road emission?	Scored by project sponsor. The operation projects below are considered will reduce emission: 1. Adaptive Traffic Control Systems (ATCS) 2. Traffic Flow Improvements(intersection improvements, traffic signal synchronization, and roundabout projects) 3. Electronic Open-Road Tolling (EORT) 4. Managed Lanes (HOV, HOT) 5. Travel Advisories (variable message signs (VMS), variable speed limits (VSL), etc.)	
	100 Yes		
	0 No		
Please list the detail project type			
Q12	Complete year	Note	
10%	When will the project be complete?	Scored by project sponsor. Please list the project complete year	
	100 2026 - 2030		
	75 2031 - 2040		
	50 2041 - 2050		
	25 2051 - 2060		
	0 After 2060		
Please list the estimated project complete year			
Q13	Consistent with local plan	Note	
5%	Would the project be consistent with local plans and policies?	Scored by project sponsor.	
	100 Yes		
	0 No		

Transit Projects

Criteria scored by sponsor or need additional info from sponsor are marked in yellow

Q1 10%	Transit capacity Would this project increase the transit system capacity? 100 Adding new transit route, extending current route, providing shorter headway, etc. 0 No	Note Scored by project sponsor	Total weights by criteria group Mobility & Access 35%
Q2 5%	Transit network Would this project connect to the existing transit network? 100 Yes 0 No	Note Scored by project sponsor	
Q3 5%	Intermodal connectivity How many other intermodal options are connected by the proposed project? ((1)Bus to Train (2) Bus to Airport (3) Bus to Park & Ride (4) Bus to Vanpool or Carpool (5) Bus to Bike Facility.) 100 2+ 50 2 25 1 0 0	Note Scored by project sponsor	
Q4 5%	Transit reliability Would the project improve transit reliability by providing transit priority signals, enough vehicles, enough vehicle operators, and headway management? 100 Yes 0 No	Note Scored by project sponsor	
Q5 5%	Improve Access to Destinations How many housing units and jobs are along the route (1/4 miles buffer)? 100 75-100 percentile 50 50-75 percentile 25 25-50 percentile 0 0-25 percentile	Note Scored by FCOG staff based on GIS file provided by project sponsor and ranking of all proposed transit projects.	
Q6 5%	Serve communities lacking transit accessibility What is the Caltrans Transportation Equity Index (EQI) access-to-destinations indicator of the project location 100 Poor relative transit access to destinations 0 Relatively good access to destinations by transit	Note Scored by FCOG staff based on GIS file provided by project sponsor	
Q7 10%	Addresses Equity Would this facility serve a EJ community or improve accessibility for disadvantaged population? 100 Will serve an area identified as FCOG Equity Priority Communities or serve specific EJ group 50 Will serve an area identified as FCOG Disadvantaged Communities 0 Will not serve a disadvantaged community or serve specific EJ group If serve specific EJ community or EJ group, please list here	Note If the project serve a specific EJ community or EJ population, please identify details (Community location or specific EJ group, e.g. poverty, race minority, Linguistic isolation, zero vehicle family, people with disabilities) in the project description and score 100 for Q5	Equity 20%
Q8 5%	Health promotion Would this project serve a community with high health burden? 100 In highest 25% of census tracts with regard to the prevalence of 4 and 4+ HPI individual health measures 75 In highest 25% of census tracts with regard to the prevalence of 3 HPI individual health measures 50 In highest 25% of census tracts with regard to the prevalence of 2 HPI individual health measures 25 In highest 25% of census tracts with regard to the prevalence of 1 HPI individual health measure 0 Not in highest 25% of census tracts with regard to the prevalence of any HPI individual health measures	Note Scored by FCOG staff based on GIS file provided by project sponsor, and Health Priority Index (HPI)	
Q9 5%	Promote affordable housing Would this transit project serve an existing or planned affordable housing? 100 Will serve an existing or planned affordable housing 0 Won't serve an existing or planned affordable housing	Note Scored by project sponsor; Existing affordable housing : (1) Public Housing, (2)Housing Choice Voucher (HCV, formerly Section 8) housing, (3) Low Income Housing Tax Credit Properties, (4) Low Income, Elderly, and Special Needs Housing, (5) Farm Labor Housing, (6) Migrant Worker Housing, etc. Planned affordable housing : zoning or development codes that include inclusionary housing ordinances, or subsidies or requirements that support or permit affordable housing.	

Q10	Historical safety	Note	Safety 10%
5%	What is the ranking percentile of the Caltrans Transportation Equity Index (EQI) Crash exposure indicator of the project location?	Scored by FCOG staff based on GIS file provided by project sponsor; If a project located < 0.25 miles from a school, score 100 for Q10	
	100 80 -100th percentile		
	75 60 -75th percentile		
	50 40 -50th percentile		
	25 20 -30th percentile		
0 0 -19th percentile			
Q11	Transit safety and security	Note	Safety 10%
5%	Would this project improve transit safety or transit security?	Scored by project sponsor	
	100 Yes		
	0 No		
Safety countermeasure if any			
Q12 a	Compact (Infill) development (if transit service)	Note	Resiliency 20%
5%	Would the project support compact development(E.g. Mixed Uses, Narrower Streets, Pedestrian Orientation, Transit Orientation...)?	Scored by project sponsor	
	100 Yes		
	0 No		
Q12 b	Asset Condition (if transit asset)	Note	
5%	What is the ratio of vehicle age to useful life?	Scored by project sponsor	
	100 0.75-1		
	50 0.5-0.74		
	25 0.25-0.50		
	0 0-0.25		
Q13	Climate Adaptation	Note	
5%	Does the project reflect designs to mitigate or adapt to climate (extreme heat, flood risk...)?	Scored by project sponsor. Please list the detail the climate adaptation design	
	100 Yes		
	0 No		
Please list the climate adaptation design in this project			
Q14	Emission reduction	Note	
10%	Which way will the transit project reduce emissions?	Scored by project sponsor.	
	100 Increase transit service frequency OR replace current fleet with electric bus		
	75 Extend Transit Network Coverage or Hours		
	50 Reduce Transit Fares		
	25 Implement Transit-Supportive Roadway Treatments		
	0 None of above		
Q15	Complete year	Note	Feasibility 15%
10%	When will the project be complete?§	Scored by project sponsor. Please list the project complete year	
	100 2026 - 2030		
	75 2031 - 2040		
	50 2041 - 2050		
	25 2051 - 2060		
0 After 2060			
Please list the estimated project complete year			
Q16	Consistent with local plan	Note	
5%	Would the project be consistent with local plans and policies?	Scored by project sponsor.	
	100 Yes		
	0 No		

Projects categorized as Miscellaneous are not evaluated using the standard scoring criteria described above. Due to the unique and varied nature of these projects, they are evaluated separately by Fresno COG staff based on their potential contributions to regional goals, including economic development, congestion mitigation, emissions reduction, and support for disadvantaged communities.

Appendix B. Financial

Item 4. Existing Major Revenue Sources

Existing Major Revenue Sources

Revenues identified in the 2026 RTP financial projection are those that have been provided for the construction, operation, and maintenance of the current roadway and systems in Fresno County. Baseline revenues include existing local, state, and federal transportation funding sources. The following funding programs are considered to be the principal sources anticipated to be available for funding of the RTP projects.

Federal Programs

Congestion Mitigation and Air Quality Program (CMAQ)

The CMAQ Program provides a flexible funding source to state and local governments for transportation projects and programs to help meet federal Clean Air Act requirements. Funding is available for areas that do not meet the National Ambient Air Quality Standards (non-attainment areas), as well as former non-attainment areas that are now in compliance (maintenance areas). Funds are distributed to states based on a formula that considers an area's population by county and the severity of its air quality problems.

CMAQ-eligible projects or programs are those that help regions attain the National Ambient Air Quality Standards for ozone, carbon monoxide, and/or particulate matter. At least 25% of CMAQ funds must be used on projects that have PM_{2.5} emission reductions, and the rest of the CMAQ funding must be used on projects with other emission reductions (NO_x, VOC, or CO).

Typical projects include:

- Public transit improvements
- High-Occupancy Vehicle (HOV) lanes
- Employer-based transportation management plans and incentives
- Traffic flow improvement programs (signal coordination)
- Fringe parking facilities serving multiple occupancy vehicles
- Shared ride services
- Bicycle and pedestrian facilities
- Flexible work-hour programs
- "PM-10" projects, under certain conditions

Highway Safety Improvement Program (HSIP)

The FAST Act continues the HSIP to achieve a significant reduction in traffic fatalities and serious injuries on all public roads, including non-State-owned public roads and roads on tribal lands. The HSIP requires a data-driven, strategic approach to improving highway safety on all public roads that focuses on performance.

A highway safety improvement project is any strategy, activity or project that is consistent with the data-driven State Strategic Highway Safety Plan (SHSP) and corrects or improves a hazardous road location or feature or addresses a highway safety problem. HSIP funds are eligible for work on any public road or publicly owned bicycle or pedestrian pathway or trail, or on tribal lands, that corrects or improves the safety for its users. The 24 project categories are broad and listed under 23 U.S.C. §148(a)(4)(B). Workforce development, training and education activities are also HSIP eligible.

Railway-Highway Crossings (Section 130) Program

The Railway-Highway Crossings program provides funds for safety improvements to reduce the number of fatalities, injuries, and crashes at public railway- highway grade crossings. This program is funded by contract authority from the Highway Trust Fund's Highway Account and are derived from a set-aside of the Highway Safety Improvement Program (HSIP). Eligible projects include any at-grade crossing between a road and a railroad track that the California Public Utilities Commission (CPUC) recommends, and where a 10% match funding source is identified. The selection process begins with an investigation of any project that Caltrans, a local agency or a railroad identifies. The investigation usually consists of a field review, discussion between all parties, a jointly developed and recommended improvement and a preliminary funding schedule. The final selection is determined when the local agency provides the 10% matching funds to a project or the CPUC list of recommended highway/rail grade crossing projects.

Metropolitan Planning

The purpose of Metropolitan Planning funds is to carry out the requirements of 23 U.S.C. 134 and provide for a continuing, comprehensive and cooperative (3-C) metropolitan transportation planning process. Following 23 U.S.C. 104, generally, Metropolitan Planning funds shall be made available to each Metropolitan Planning Organization (MPO) designated for an urbanized area with a population of more than 50,000 individuals and responsible for carrying out the 3-C metropolitan planning process.

National Highway Freight Program (NHFP)

The FAST Act established the NHFP to improve efficient movement of freight on the National Highway Freight Network (NHFN) and support several goals, including:

- Investing in infrastructure and operational improvements that strengthen economic competitiveness, reduce congestion, reduce the cost of freight transportation, improve reliability and increase productivity
- Improving the safety, security, efficiency and resiliency of freight transportation in rural and urban areas
- Improving the state of good repair of the NHFN
- Using innovation and advanced technology to improve NHFN safety, efficiency, and reliability
- Improving NHFN efficiency and productivity

- Improving State flexibility to support multi-State corridor planning and address highway freight connectivity
- Reducing the environmental impacts of freight movement on the NHFN

National Highway Performance Program (NHPP)

The NHPP provides support for the condition and performance of the National Highway System (NHS), for the construction of new facilities on the NHS, and to ensure that federal investments are directed toward performance targets established in a State's NHS asset management plan.

NHPP projects must be on an eligible facility and support progress toward achievement of national performance goals for improving NHS infrastructure condition, safety, mobility or freight movement, and be consistent with metropolitan and statewide planning requirements.

Eligible activities include:

- NHS segment construction, reconstruction, resurfacing, restoration, rehabilitation, preservation, or operational improvements
- NHS bridge and tunnel construction, replacement (including replacement
- NHS bridge, tunnel and other highway infrastructure assets' inspection and evaluation
- Training bridge and tunnel inspectors
- Constructing, rehabilitating, or replacing existing ferry boats and facilities, including approaches that connect NHS road segments
- Constructing, reconstructing, resurfacing, restoring, rehabilitating and preserving, and operational improvements for, a federal-aid highway not on the NHS
- Transit projects eligible for assistance under chapter 53 of title 49, if the project is in the same corridor and in proximity to a fully access-controlled NHS route, if the
- improvement is more cost-effective (as determined by a benefit-cost analysis) than an NHS improvement and will reduce delays or produce travel time savings on the NHS route and improve regional traffic flow
- Bicycle transportation and pedestrian walkways
- NHS highway safety improvements
- Capital and operating costs for traffic and traveler information, monitoring, management, and control facilities and programs
- Data collection, maintenance and integration, software costs and equipment costs to develop a State Asset Management Plan for the NHS
- Infrastructure-based ITS capital improvements
- Environmental restoration and pollution abatement
- Controlling noxious weeds and establishing native species
- NHPP project environmental mitigation costs
- New, publicly owned intracity or intercity bus terminals serving the NHS

Nationally Significant Federal Lands and Tribal Projects (NSFLTP)

The NSFLTP program provides funding for the construction, reconstruction, and rehabilitation of nationally-significant projects on Federal or tribal lands.

Financial assistance may be provided only for a single continuous project that:

- Is on a Federal lands transportation facility, Federal lands access transportation facility or tribal transportation facility, (the facility is not required to be listed in the national tribal transportation facility inventory or the national Federal lands transportation facility inventory);
- Has completed the National Environmental Policy Act (NEPA) process with a finding of no significant impact, or categorical exclusion determination; and
- Has an estimated cost of at least \$25 million (with priority consideration for projects with an estimated cost of at least \$50 million).

When considering projects to be funding with NSFLTP, the following criteria is considered:

- Furthers the Department's goals, including state of good repair, economic competitiveness, quality of life, and safety;
- Improves the condition of critical transportation facilities, including multimodal transportation facilities;
- Needs construction, reconstruction, or rehabilitation;
- Has matching funds (projects with a greater percentage of matching funds rank higher than projects with a lesser percentage of matching funds);
- Is included on or eligible for the National Register of Historic Places;
- Uses new technologies and innovations to increase project efficiency;
- Is supported (whether for construction or for operation and maintenance) by funds other than those received under this program;
- Spans two or more States; and
- Serves land owned by multiple Federal agencies or Indian tribes

Nationally Significant Freight and Highway Projects (NSFHP)

NSFHP provides financial assistance – grants, known as FASTLANE grants, or credit assistance – to nationally and regionally significant freight and highway projects that align with the program goals to:

- Improve safety, efficiency, and reliability of the movement of freight and people
- Generate national or regional economic benefits and an increase in U.S. global economic competitiveness
- Reduce highway congestion and bottlenecks
- Improve connectivity between modes of freight transportation
- Enhance the resiliency of critical highway infrastructure and help protect the environment
- Improve roadways vital to national energy security
- Address the impact of population growth on the movement of people and freight
- Mitigate impacts of freight movements on communities

Surface Transportation Block Grant Program (STBG)

The Surface Transportation Block Grant Program (STBG) provides flexible funding that states and local governments may use for projects on any federal-aid highway, including the National Highway System (NHS); bridge projects on any public road; transit capital projects and; public bus terminals and facilities. Funds are distributed among the states based on federal-aid highway lane miles, (including on the NHS), total vehicle-miles traveled on those federal- aid highways, and estimated contributions to the Highway Trust Fund's Highway Account. A portion of the STBG is set aside for Transportation Alternatives (TA), State Planning and Research, and funding for bridges not on federal-aid highways. The State sub-allocates Federal STBG funds to regions based on population and serves as Fresno COG's Regional Surface Transportation Block Grant Program (STBG). The FAST Act permits a portion of funds reserved for rural areas to be spent on rural minor collectors.

Eligible projects include but are not limited to:

- Highway projects
- Bridges (including construction, reconstruction, seismic retrofit and painting) on all public roads
- Transit capital improvements
- Carpool, bicycle and pedestrian facilities
- Safety improvements and hazard elimination
- Research and traffic management systems
- Planning
- Transportation enhancement activities and control measures
- Safety improvements and bridge replacement projects on local roads and rural minor collectors

Federal Transit Administration Section 5307 (Urbanized Area Formula Grants)

This program provides financial operating and capital purchase assistance to urban public transportation service operators. Funds are apportioned to urbanized areas with populations greater than 50,000 based on a formula using population and population density.

Federal Transit Administration Section 5309 (Fixed Guideway Capital Investment Grants)

This is FTA's primary grant program for funding major transit capital investments, including: rapid rail, light rail, bus rapid transit, commuter rail and ferries. Section 5309 provides grants for new and expanded rail, bus rapid transit and ferry systems that reflect local priorities to improve transportation options in key corridors. This program defines a new category of eligible projects, known as core capacity projects, which expand capacity by at least 10% in existing fixed-guideway transit corridors that are already at or above capacity today, or are expected to be at or above capacity within five years. The program also includes provisions for streamlining the New Starts process to increase efficiency in meeting critical milestones.

Federal Transit Administration Section 5310 (Enhanced Mobility of Seniors and Individuals with Disabilities)

This program funds capital expenses for private, non-profit corporations to support the transportation services to meet the needs of elderly and disabled persons. Capital assistance is provided for up to 88.53% of the net project cost.

Federal Transit Administration Section 5311 (Rural Area Formula Grants)

This program provides formula-based funding for capital and/or operating assistance to rural areas with a population fewer than 50,000. Capital assistance is provided for up to 88.53% of the net project cost. Operational assistance has a 50% federal participation ceiling.

State Programs

Active Transportation Program (ATP)

The ATP consolidates existing federal and state transportation programs, into a single program with a focus on making California a national leader in active transportation. The Division of Local Assistance, Office of Active Transportation and Special Programs administers the ATP.

- The ATP encourages active transportation modes by:
- Increasing biking and walking trips
- Increasing non-motorized users' safety and mobility
- Advancing regional agencies active transportation efforts to achieve greenhouse gas (GHG) reduction goals, pursuant to SB 375 (of 2008) and SB 341 (of 2009)
- Enhancing public health
- Ensuring that disadvantaged communities fully share in the program's benefits
- Providing a broad spectrum of projects to benefit many types of active transportation users

State and federal law segregate program funding into three components and is distributed as follows:

- 50% to the state for a statewide competitive program
- 10% to small urban and rural regions with populations of 200,000 or less for the small urban and rural area competitive program
- 40% to Metropolitan Planning Organizations in urban areas with populations greater than 200,000 for the large urbanized area competitive

Cap and Invest

California's Cap-and-Invest Program (derived from AB 32, the California Global Warming Solutions Act of 2006) is an emissions trading program designed to reduce greenhouse gases (GHGs) from multiple sources. The State's proceeds from Cap-and-Invest auctions are deposited in the Greenhouse Gas Reduction Fund (GGRF) and are used to achieve GHG emission reductions. The following transportation programs relevant to RTP/SCS are funded

through GGRF allocations:

Active Transportation Program (ATP)

(Described in the previous section).

Low Carbon Transit Operations Program (LCTOP)

LCTOP provides transit agencies with operating and capital assistance to reduce greenhouse gas emissions and improve mobility, with a priority on serving disadvantaged communities. LCTOP projects

support new or expanded bus or rail services, expanded intermodal transit facilities, and may include equipment acquisition, fueling, maintenance and other costs to operate those services or facilities. For agencies whose service area includes disadvantaged communities, at least 50% of funds received are used on projects to benefit disadvantaged communities.

Transit and Intercity Rail Capital Program (TIRCP)

TIRCP provides passenger rail agencies, transit agencies, and ferry agencies with capital improvement funding for transformative projects that will modernize and significantly reduce greenhouse gas emissions, vehicle miles traveled, and congestion from California's intercity and commuter rail networks, urban rail transit systems, and bus and ferry services.

Local Transportation Funds

Local Transportation Funds (LTF) are derived from ¼-cent of the statewide sales tax. LTF revenue is returned to local governments, primarily for public transportation; however, bicycle and pedestrian facilities, and streets and roads may also qualify. The LTF is distributed to each city and unincorporated area based on population.

In the San Joaquin Valley, LTF funds may be used for both transit and streets and roads purposes as long as all transit needs that are reasonable to meet are addressed. The City of Fresno uses all of its LTF funds for Fresno Area Express (FAX); however, Fresno County and the remaining cities use some LTF funds for roads.

State Transportation Improvement Program (STIP)

The STIP is split into two programs: the Regional Transportation Improvement Program (RTIP) and the Interregional Transportation Improvement Program (ITIP). Pursuant to SB 45, 75% of the overall STIP funding goes to regional authorities to pay for accepted RTIP projects, and the remaining 25% of the overall STIP funding is used to pay for ITIP projects, as determined by Caltrans. Once the Fresno County region has selected the projects for the RTIPs, the California Transportation Commission (CTC) must allocate funds for the projects based on estimated construction costs. The funds are programmed in the Federal Transportation Improvement

Programs (FTIP) for inclusion in the State Transportation Improvement Program (STIP). Pursuant to SB 45, allocations of Regional Choice funds are known as “County Shares”.

Eligible projects include:

- Local streets and roads
- Public transit
- Intercity transit
- Pedestrian and bikeway facilities
- State highway improvements
- Grade separations
- Intermodal facilities
- Safety projects
- Transportation System Management projects
- Soundwalls

Interregional Improvement Program (IIP)

IIP funds represent 25% of available State Highway Account funding. Caltrans programs the funds on a statewide priority basis, primarily for the State highway system (outside urbanized areas). Regional agencies may also nominate projects that generate economic development. Regional agencies may nominate projects if they can show a better, cost-effective use of funds.

Eligible projects include:

- Interregional roads (outside of metropolitan areas)
- Interstate 5
- State Highways 41, 99, 168, 198 and 180 east
- Intercity rail
- “Flex” projects which promote economic development

Senate Bill 1 (SB 1)

SB 1 (The Road Repair and Accountability Act of 2017), provides the largest increase in state transportation funding in the last 25 years. SB 1 provides additional funding for transportation programs detailed in this chapter (including ATP, SHOPP, STIP, and Local Streets/ Roads funds). It also revives programs that were part of the now expired Prop 1B. Those programs include:

Local Partnership Program (LPP): LPP funds are for counties that employ local transportation funding taxes or that have imposed fees, including uniform developer fees. As part of SB 1, the LPP is a 40% competitive program, and 60% formula program.

Eligible projects include:

- State highway and local road system improvements for major rehabilitation, mobility and congestion relief through new capacity, and safety and operational improvements
- Transit facility improvements
- Transit equipment purchases
- Bicycle or pedestrian infrastructure improvements for safety or mobility
- Transportation infrastructure environmental mitigation on a locality's or region's air quality or water quality, commonly known as "urban runoff," including capturing or treating it
- Project-level environmental impact mitigation (sound walls, landscaping, wetlands or habitat restoration or creation, replacement plantings, and drainage facilities).
- Freeway soundwalls, under specified conditions
- Road maintenance and rehabilitation

Trade Corridor Enhancement Program (TCEP): The TCEP program funds infrastructure improvements on federally designated Trade Corridors of National and Regional Significance, on the Primary Freight Network, and along other corridors that have high freight volumes. Freight projects contribute to the freight system's economic activity or vitality; relieve congestion; improve the system's safety, security, or resilience; improve or preserve system infrastructure; implement technology or innovation to reduce or avoid negative impacts; or reduce or avoid the system's adverse community and/or environmental impacts.

Solutions for Congested Corridors Program (SCCP): SCCP funds projects designed to reduce congestion in highly traveled and highly congested corridors through performance improvements that balance transportation improvements, community impacts, and that provide environmental benefits. Improvements may be on the state highway system, local streets and roads, public transit facilities, bicycle and pedestrian facilities or required mitigation or restoration or some combination thereof. All projects nominated for the SCCP must be in a multimodal corridor plan and will only fund the construction component of a project.

State Highway Operation and Protection Program (SHOPP)

The SHOPP maintains the highway system's operational integrity and safety through a variety of projects, including: pavement rehabilitation seismic retrofit, land and building projects, landscaping, some operational improvements and bridge replacements. Unlike the STIP, SHOPP projects may not increase roadway capacity. SHOPP revenues are not formula-based, meaning the Fresno County region could receive a large share of revenues in one cycle, and much less in future cycles.

State Transit Assistance Fund (STA)

The STA is derived from a portion of the Motor Vehicle Fuel Tax. The STA supports public transportation services, and is apportioned through the Regional Transportation Planning Agencies (RTPA) to their member agencies on a population basis, although some funds are apportioned directly to transit operators based on their fare-box revenues.

STA funds may be used for mass transit (capital or operating expenses) or transportation planning but not streets and roads.

Local Programs

Fresno County Local Sales Tax--(Measure C Funds)

In 2006, Fresno County voters approved a 20-year extension of a 1/2 cent local sales tax (Measure C) for transportation purposes. The tax is projected to generate approximately \$1.4 billion to be administered through the Fresno County Transportation Authority (FCTA). Fresno COG is legislatively responsible for preparing a highway revenues expenditure plan. Local agencies will receive at least 34.6% of the approximately \$1.4 billion, for a wide variety of transportation programs and projects on their respective transportation networks. The FCTA's oversight involves identifying funding to be made available to the local agencies, managing the claims process and annually auditing to ensure that funds were used for eligible transportation purposes. The Measure C Extension Plan funding breakdown is located in [Appendix B](#).

City/County Revenue Funds

Several transportation funding sources have their origins in city revenues. These include general fund revenues used for street purposes, gas tax shares, proceeds from bond sales for street purposes, street assessment levies and traffic safety fund revenues.

Regional Transportation Mitigation Fee (RTMF)

The RTMF is an important part of the Measure C Extension approved by Fresno County voters in 2006. The RTMF is intended to ensure that future development contributes to its fair share towards the cost of infrastructure to mitigate the cumulative, indirect regional transportation impacts of new growth in a manner consistent with the provisions of the State of California Mitigation Fee Act. The fees will help fund improvements needed to maintain the target level of service in the face of higher traffic volumes brought on by new developments.

[TIRCP Cycle 7 Project Detailed Award Summary_2024.10.23_FINAL-a11y.pdf](#)

[REVISED-Guidelines-FCOG-2025-Regional-ATP-Cycle-7-CMAQ.pdf](#)

The LTF is derived from a 1/4-cent general sales tax and the STAF is derived from sales tax on diesel fuel. Some counties can use LTF for local streets and roads projects if all transit needs are met. The STAF may not be used to fund administration, streets, or roads projects.

The State Highway Operation and Protection Program (SHOPP) does not use a formula to allocate funds, but instead, projects are selected based on statewide need, identified through condition assessments and field reviews, and guided by the State Highway System Management Plan and Transportation

The remaining 25% of the STIP is a statewide spending plan known as the Interregional Transportation Improvement Program (ITIP). Caltrans develops the ITIP to fund projects that connect metro areas and improve mobility across regional boundaries

Funding Source	Funding Source (Base Year)	Life of RTP Cumulative Funding Estimate	Bicycle and Pedestrian (and Other)	Streets & Roads Capacity Increasing	Streets & Roads Maintenance and Operations	Transit
Federal Funds						
Active Transportation Program (ATP) - Regional	\$4,611,571	\$139,078,948	\$139,078,948	\$0	\$0	\$0

Appendix B. Financial

Item 6. Project Scenario Tool

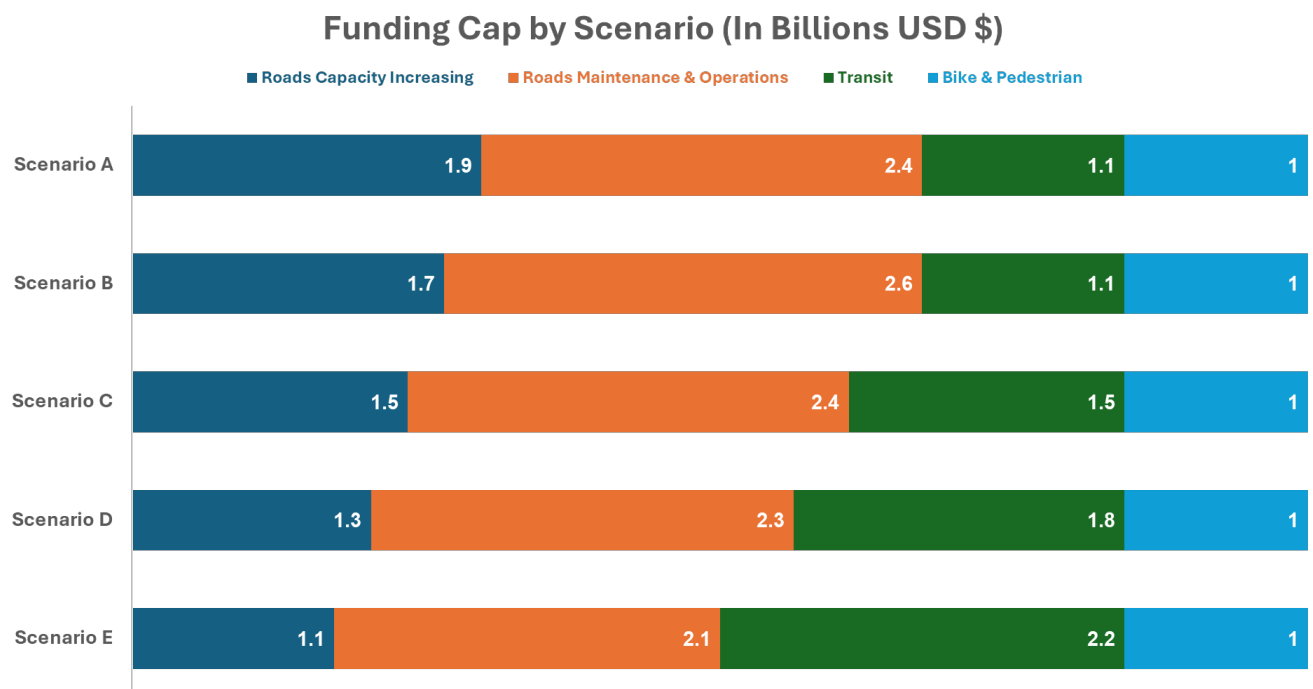

Appendix B-6: Fresno COG Project Scenario Tool

Fresno COG's scenario development methodology for the 2026 Sustainable Communities Strategy (SCS) incorporates scenario-specific transportation funding priorities to generate distinct financially constrained project lists. These priorities are translated into funding caps by project category for each scenario. To support this process, Fresno COG staff developed a project scenario tool that applies the methodology described below.

Step 1: Revenue Projection & Transportation Funding Priorities

Fresno COG developed a regional transportation revenue projection for 2026-2049 planning horizon. Based on the funding priorities established for each SCS scenario, funding caps by project category were defined to reflect different investment strategies across scenarios. Additional details on revenue assumptions are provided in Appendix and Supplemental Reports **B-5. Revenue Projections**. Figure B-6.1 illustrates the funding caps by project category for each scenario.

Figure B-6.1

Step 2: Project Scoring and Ranking

Projects submitted through the RTP Call for Projects were evaluated using the 2026 RTP Project Evaluation Criteria under a mode-specific evaluation framework. Each project received a score ranging from 0 to 100 based on its performance relative to established criteria. Please see Appendix and Supplemental Reports **B-3. Project Evaluation Criteria** for the detail.

Projects were then ranked within each project category based on their total scores. Projects included in the State

Highway Operation and Protection Program (SHOPP), sponsored by Caltrans, were assigned a score of 100 to reflect that these projects have secured funding and are committed for implementation.

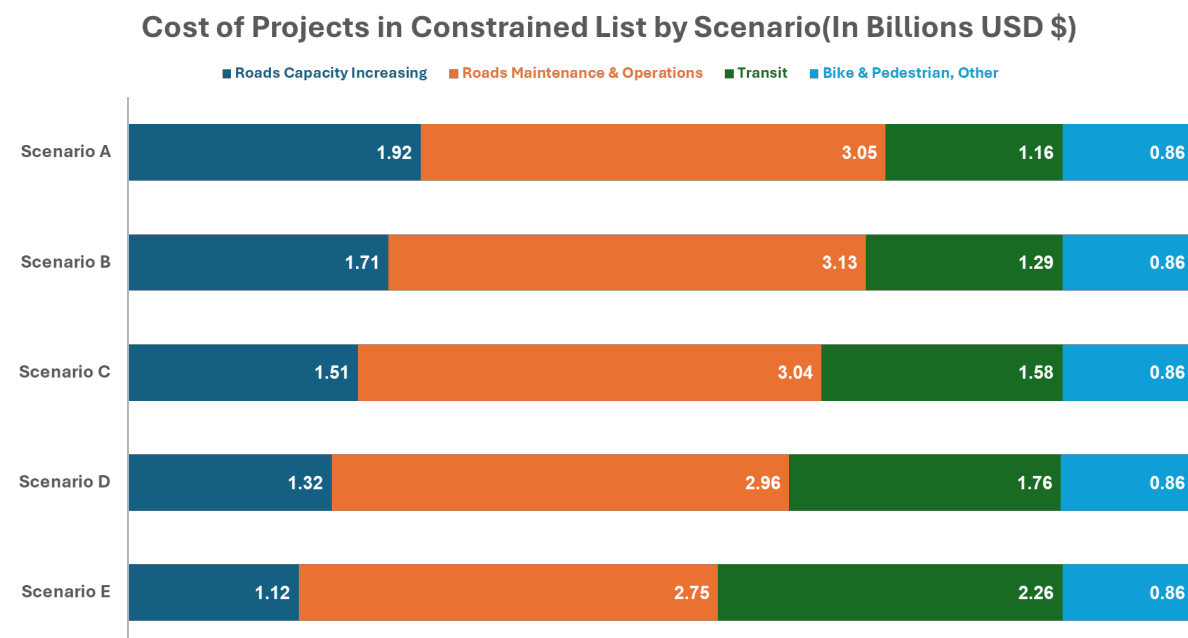

Step 3: Allocate Funding by Mode Specific Limits

Projects were selected for inclusion in each scenario's financially constrained list based on their ranking and the funding caps established for each project category. To account for SHOPP projects, which have secured funding and exceeded the initially projected funding levels for maintenance and operations, the funding caps for the Road Maintenance & Operations category were adjusted to fully incorporate these projects. In addition, certain projects were included in scenario-specific project lists to reflect the defining characteristics of each SCS scenario. For example, projects related to light rail were included in Scenarios D and E, while projects related to regional commuter rail were included in Scenario E, consistent with the scenario definitions.

Following the initial evaluation, it was determined that available funding was sufficient to fully fund all Bicycle and Pedestrian and Miscellaneous/Other projects across scenarios. In addition, certain Capacity Increasing projects that were originally only partially funded under the initial funding caps were fully funded using available surplus. The remaining surplus funding was then reallocated to the Road Maintenance & Operations and Transit categories. This reallocation was based on the proportional share of total project costs submitted within these two categories, ensuring a balanced and data-driven distribution of remaining funds.

The resulting revised funding caps by scenario represent the total cost of projects included in each financially constrained project list. A summary of constrained project costs by scenario is shown in Figure B-6.2. Tables B-6.1 and B-6.2 provide the total cost and number of projects included in the constrained lists by project category and scenario.

Figure B-6.2

Tables B-6.1

Cost of projects in constrained list (\$1,000), by scenario and project category						
summary	Scenario A		Scenario B		Scenario C	
CI	\$	1,919,839	\$	1,713,711	\$	1,510,062
OP	\$	1,452,255	\$	1,533,843	\$	1,441,760
MT	\$	1,596,273	\$	1,596,273	\$	1,596,273
TR	\$	1,162,373	\$	1,292,923	\$	1,581,333
BP	\$	802,251	\$	802,251	\$	802,251
Other	\$	52,805	\$	52,805	\$	52,805

Tables B-6.2

Counts of projects in constrained list, by scenario and project category						
summary	Scenario A		Scenario B		Scenario C	
CI	245		234		220	
OP	286		340		275	
MT	1169		1169		1169	
TR	50		56		75	
BP	737		737		737	
Other	13		13		13	

Appendix B. Financial

Item 6. Policy Element Linkage to Financial Element

FINANCIAL CONSISTENCY WITH RTP GOALS/POLICIES THROUGH PROJECT EVALUATION CRITERIA

POLICY	CRITERIA DOCUMENT	SPECIFIC CRITERIA THAT ADDRESSES GOAL/POLICY
GOAL #1 - Improved mobility and accessibility for all		
#2: Actively work to ensure equitable distribution of the benefits and burdens of transportation projects.	RTP Project Evaluation Criteria	RTP scoring point for projects serve Equity Priority Communities and Disadvantaged Communities or improve accessibility for disadvantaged population (Bicycle and Pedestrian Projects #5, Road Maintenance Project #4, Road Capacity Increasing Project #5, Road Operation Project #5, Transit Project #7)
	RTP Project Evaluation Criteria	RTP scoring point for project serve a community with high health burden, based on Fresno County Department of Public Health's Health Priority Index (HPI) (Bicycle and Pedestrian Projects #6, Transit Project #8)
	RTP Project Evaluation Criteria	RTP scoring point for project serve an existing or planned affordable housing (Bicycle and Pedestrian Projects #7, Road Capacity Increasing Project #6, Road Maintenance Project #4, Transit Project #9, Road Operation Project #6)
#3: Promote, improve, and expand of accessible transportation options to serve the needs of all residents, especially those who have historically faced disproportionate transportation burdens.	RTP Project Evaluation Criteria	RTP scoring point for projects serve area with Poor relative transit, bike or pedestrian access to destinations based on Caltrans Transportation Equity Index (EQI) access-to-destinations indicators (Transit Project #6, Bicycle and Pedestrian Projects #4)
	RTP Project Evaluation Criteria	RTP scoring point for maintenance projects with poor pavement condition or close to asset useful service life (Road Maintenance Project #10)
	RTP Project Evaluation Criteria	RTP scoring point for project improve mobility or relief the congestion in highly congested area (Road Capacity Increasing Project #2, Road Operation Project #2)
GOAL #2 - Vibrant communities that are accessible by sustainable transportation options		
#4: Encourage alternatives to single occupancy vehicles that reduce vehicle miles travelled (VMT) and greenhouse gas emissions.	RTP Project Evaluation Criteria	RTP scoring point for bike/ped project connect to existing or planned bike or ped network, transit stops (Bicycle and Pedestrian Project #1, 2); RTP scoring point for road maintenance and capacity increasing project including complete street design (Road Capacity Increasing Project #4, Road Maintenance Project #2); RTP scoring point for transit project increases the transit system capacity, connected to existing transit network, or provide intermodal connectivity (Transit Project #1,2,3)
#5: Support investment in and promotion of active transportation and transit to improve public health and mobility, especially in historically underinvested areas.	RTP Project Evaluation Criteria	RTP scoring point for transit projects serve communities lacking transit accessibility, serve underinvested areas, or serve community with high health burden (Bicycle and Pedestrian Projects #4,5,6; Transit Project #6,7,8)
#6: Encourage sustainable development that focuses growth near activity centers and mobility options that achieve greater location efficiency.	RTP Project Evaluation Criteria	RTP scoring point for projects serve more housing units or jobs, or connecting to multimodal options (Bicycle and Pedestrian Projects #2, 3; Road Capacity Increasing #3 Transit Project #3,5)
#10: Incentivize and support efforts to improve air quality and minimize pollutants from transportation.	RTP Project Evaluation Criteria	RTP scoring point for projects reduce or mitigate emission (Bicycle and Pedestrian Projects #12; Road Capacity Increasing #9; Road Operation #11; Transit Project #14)
	STBG Scoring Criteria	#3: Competitive funding scoring points for projects that have a positive benefit to air quality.
	CMAQ Scoring Criteria	#3: Competitive funding scoring points for projects that reduce air pollutant emissions through the following: * Transportation Control Measures * Volatile organic compound, nitrogen oxides, and/or particulate matter emission reductions
#7: Support local jurisdictions' efforts to minimize the loss of farmland, environmentally sensitive areas, and natural resources.	RTP Project Evaluation Criteria	RTP scoring point for projects have less footprint overlaid with area of critical environmental resources (Bicycle and Pedestrian Projects #14; Road Capacity Increasing #11)
	CMAQ & STBG Scoring Criteria	Potential competitive funding scoring points in the subjective evaluation criteria for projects that minimize the loss of prime farmland.
GOAL #3 - A safe, well-maintained, efficient, and climate-resilient multimodal transportation network		
#11: Prioritize investment in and promote multimodal safety measures to reduce traffic fatalities and incidents in the region.	RTP Project Evaluation Criteria	RTP scoring points for projects serving communities with high crash exposure historically (Bicycle and Pedestrian Projects #8; Road maintenance Projects #6; Road Capacity Increasing Projects #6; Road Operation Projects #7; Transit Projects #10); RTP scoring points for projects with highly effective safety countermeasures (Bicycle and Pedestrian Projects #9; Road maintenance Projects #7; Road Capacity Increasing Projects #7; Road Operation Projects #8; Transit Projects #11)
	STBG Scoring Criteria	#2: Competitive funding scoring points for projects that address safety and/or security issues.

FINANCIAL CONSISTENCY WITH RTP GOALS/POLICIES THROUGH PROJECT EVALUATION CRITERIA

#12: Promote enhanced TSM and TDM strategies to reduce congestion and vehicle miles traveled (VMT).	RTP Project Evaluation Criteria	RTP scoring points for projects that relieve congestion(Road Operation Projects #2); RTP scoring points for projects that support compact development(Bicycle and Pedestrian Projects #10; Road maintenance Projects #8; Road Capacity Increasing Projects #6; Road Operation Projects#6; Transit Projects #12)
	STBG Scoring Criteria	#4: Competitive funding scoring points for projects that relieve congestion
	CMAQ Scoring Criteria	#4: Competitive funding scoring points for projects that reduce vehicle trips and/or VMT
#13: Encourage improvements in travel connections across all modes to create an integrated, accessible, and seamless transportation network.	RTP Project Evaluation Criteria	RTP scoring points for projects improving multimodal connectivity(Bicycle and Pedestrian Projects #1,2,4; Road maintenance Projects #2; Road Capacity Increasing Projects #4; Road Operation Projects#4; Transit Projects #2,3,6)
#14: Maximize the cost-effectiveness of transportation improvements.	STBG Scoring Criteria	#5: Competitive funding scoring points for projects that demonstrate cost benefits
	CMAQ Scoring Criteria	#1: Competitive funding scoring points for projects that are cost effective (<\$63 per pound of pollutants eliminated)
#15: Encourage investments that increase the system's resilience to extreme weather events, natural disasters, and pandemics.	RTP Project Evaluation Criteria	RTP scoring points for projects with designs to mitigate or adapt to climate (extreme heat, flood risk...)(Bike and pedestrian projects #11; Road Maintenance Projects #9; Road Operation Projects #10; Transit Projects #13).
#16: Preserve and maintain existing multimodal transportation assets in a state of good repair.	RTP Project Evaluation Criteria	#3 RTP scoring points for project locations that participate in a regularly updated Pavement Management System
	STBG Scoring Criteria	#1: Competitive funding scoring points for projects that preserve existing infrastructure in a state of good repair.
GOAL #5 - A region embracing clean transportation, technology, and innovation		
#19: Support innovative mobility solutions that are accessible, affordable, reduce greenhouse gas emissions, and improve air quality.	RTP Project Evaluation Criteria	RTP scoring points for projects that support multimodal connectivity, affordable housing, infill development, emission reduction (Bicycle and Pedestrian Projects #1,2,7,10,12; Road maintenance Projects #2,5,8; Road Capacity Increasing Projects #4,6,8,9; Road Operation Projects#4,6,9,11; Transit Projects #3,9,12,14)
		Studies, TDM program(telecommute, bike share, carpool...), EV charging facility, and any innovation project not applied to the 5 project type were evaluated separately by COG staff based its effect on regional economy, congestion mitigation , emission reduction, and disadvantaged community support
