Mortality & Activity Maps

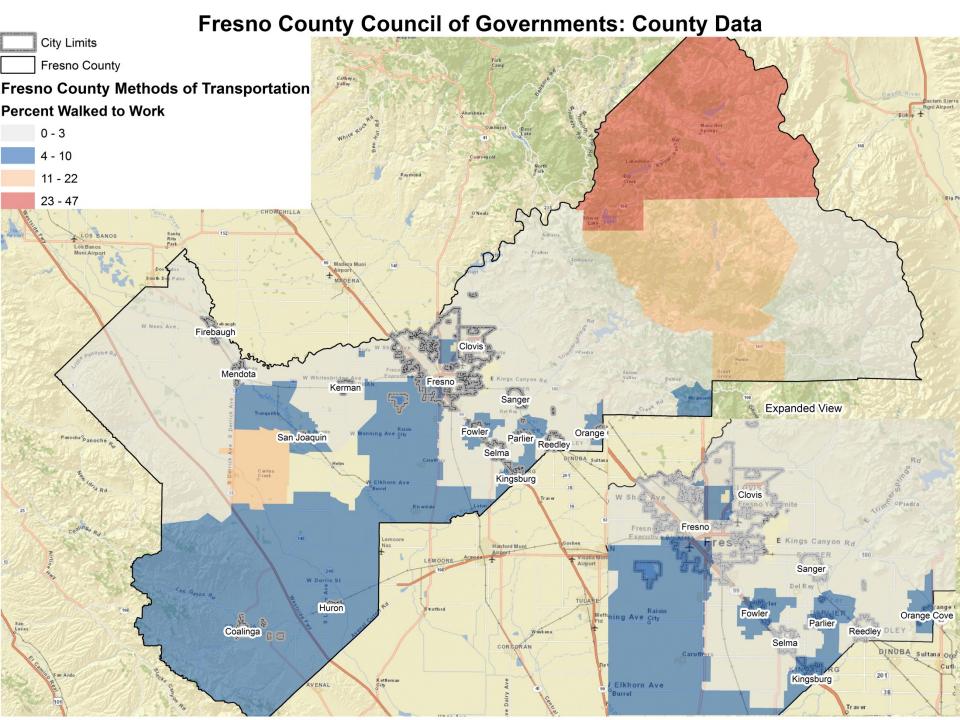

Dr. Jared Rutledge

Limitations

- Mortality Data
 - Chronic disease death data only shows where the poorer health behaviors have been, and not where they will be in the future.
 - This is a look at the past.

- Composite Mortality Measures
 - Years of Potential Life Lost 2009-2013
 - Cause of Death, Underlying Condition, or Contributing Cause of Death for the following conditions:
 - Chronic Lung Disease (asthma, COPD, emphysema)
 - Colon Cancer
 - Diabetes
 - Heart Attack
 - Hyperlipidemia
 - Disadvantaged & Severely Disadvantaged Communities American Community Survey (ACS)
 - Mode of Transportation to Work (Biked, Walked) ACS 2008-2012
